Dear Sir

I have been told on good authority
in reply to an enquiry on my part that you
have been appointed Chairman of a Committee
to enquire into Proportional Representation.

You will therefore I presume be interested
in reading the method on a subject which
has been of deep interest to me for many years
since after taking my degree at Oxford & after
working for the Bar in London I became acquaint-
ed with the method & made the acquaintance
& friendship with the late Mr. Thomas Hall.

I hope to have been it carried in our
United Kingdom, & possibly in Canada.

Yours faithfully
Charles Edw. Dobbs

A friend & neighbour brought a Canadian
Lady who is staying with her & call on us here,
& she tells me she knows your Mr. R. O'Connell.
