Ottawa, Ont. April 26th. 1923.

My dear Billy:

I duly received your telegram, also your two letters of the 18th. and 20th. instant, and think I understand the position pretty fully.

I am disposed to think you have been well advised in compromising with the Bank. This will carry you along and all you will really need besides will be help in the law suit if it gets to a stage where substantial help is needed. My idea is that it will get right up to trial and then they will crawl. Of course, they may not, and it may be necessary for you to go right through.

If I can get into the Hamilton neighbourhood, I will certainly drop in and have another talk with Mr. Bell.

All good wishes.

Yours very truly.
