

Department of Agriculture at St. John, the movement on the two main lines of travel between that Province and the United States exhibits an actual gain in population, the number of the *Ins* being more than the *Outs*. The figures were—going to the United States, 44,064; coming from the United States, 44,982; the gain to New Brunswick, 918.

This Report has been confined to an examination of the self-apparent, gross exaggeration at the point of Port Huron, and for the reason that, when this is eliminated from the United States' claim of immigration from Canada, there is practically nothing further to notice.

I have the honor to be, Sir,

Your obedient servant,

JOHN LOWE,

*Secretary of the Department of Agriculture.*

Hon. J. H. POPE, Minister of Agriculture.
