## The Letter-Box

THE CITY ENGINEER.

Editor of Planet. Dear Sir,-My attention he been called to a reffusion of cent issue of The Planet, calling attention to the record of our City Engineers during his eight month in the employment of the city goes a little out of his way to make a thrust at Ald. McCoig because he put a ing about the city in livery rigs at the expense of the citizens, saying it only cost the paliry sum of seven or eight dollars. In my opinion if there one thing that Ald. McCoig has done during the year more than another that should be commended that other qualifications? is the one, the next bill presented to the council might have been for \$100 instead of \$8.00, if this one had been allowed to pass unchallenged.

If you want to know who to vote for, read the cards of the candidates in this issue of The Planet.

\$100 instead of \$3.00, if this one had been allowed to pass unchallenged. This "Citizen" says he has been a ratepayer for years and has heretofore supported Ald. McCoig; this may be so but there are some who are uncharitable enough think he has only been a citizen about 8 months. Once more. What does it all amount to, anyway; the fact that the saving on the pay sheets is \$572.00 and on the different local improvements is \$992.00, goes to prove nothing. Does "Citizen" know that we have a new pavement on King street which two men can keep clean with very little frouble, and by the way this was built before our present engineer became citizen, and which before took sometimes a gang of 30 or 40 men to clean every little while, besides a continued expense in repairs. I think this hear worm to do writh the continued expense in repairs. I think this hear worm to do writh the continued expense in repairs. I to clean every little while, besides a continued expense in repairs. I think this has more to do with the favorable showing than the brilliant efforts of the Engineer. There are, however, a few things that the Engineer is good at that "Citizen" inadventually omitted. It is hinted that he is an easy mark for the aldermen when they want to win a little pocket money in a bet, What he thinks he knows he is always ready to back up with a V. Even in interpretating specifications for a granolithic walk My motto is let every man blow his own horn. If the Engineer did not write that letter about himself, he ought.

The Chaplin by-law requires two thirds of the total freehold vote to make it a legal enactment, and every vote unpolled will assist in defeating the by-law.

It looks as if the only real contests in the municipal elections this year would be for school trustee. In three wards at least the fight is warm enigh to be interesting.

This is the last appeal that the Sat-ellite makes for the passage of the Chaplin by-law. Consider your city, how it should flourish, and vote for

To provide for the proposed loan of \$25,000 to the Woodburn-Sarven Wheel Co. necessitates the raising of \$1,839.55 annually, of which the Chaplins pay \$1.250 and the city \$589.55.

The Chaplin by-law, if it passes, will add the first factory to this city for 1902. Three factories in 1901, and prospect for one in 1902, already is record that Mayor Sulman may we be proud of.

It has been bruited abroad by some It has been bruited abroad by some unthinking individual that the passage of the Chaplin by-law would cost every householder 16 cents, irrespective of how many houses a ratepayer may own. How this idea can have got about is a mystery. Every ratepayer who is assessed for \$1,000 pays 16 cents, but, if his assessment is more than \$1,000, he will have to pay more than 16 cents, and, if less, the ratepayer pays less. What each ratepayer will have to pay is 1-6 of a mill on each dollar of an assessment.

Only the factory or plant is exempt from taxation, and that only for ten years. It is safe to expect that a large portion—probably more—of the city's share of \$589.55, will be made up by the additional individual taxes paid by the Chaplin people, so that the portion berne by the city becomes

nominal.

The Woodburn-Sarven Wheel Co. agree to pay \$30,000 annually in wages. This means that there will be \$30,000 more in circulation in Chatbam every year as soon as the factory

The affirmative had the best of the debate throughout. Against their overwhelming argument that the wooden headboard was cheaper and might even be snagged some dark night from Piggott's lumber yard, the negative could only bring up the feeble and doubtful assertion that the marble slab would look better. Decision was naturally in favor of the affirmative.

"The club then adjourned. Subject for next debate: "Resolved, that the building of monuments is an ennobling and intellectual occupation."

# DOES NOT DISAPPOINT

The New Discovery for Catarrh Seem to Possess Remarkable Merit.

A new catarrh cure has recently ap-peared, which, so far as tested, has been remarkably successful in curing all forms of catarrh, whether in the head, throat, bronchail tubes, or in stomach and liver. The remedy is in tablet form, pleas-

ant and convenient to take, and no special secrecy is maintained as to what it contains, the tablet being a scientific combination of blood root, red gum, and similar valuable and

harmless antiseptics.

The safe and effective catarrh cure may be found at any drug store under der the name of Stuart's Catarrh Whether the catarrh is located in

tomach, the tablets seem to act with equal success, removing the stuffy feeling in head and nose, clearing the as membrane of throat and tra-

mucous membrane of throat and traches from catarrhal secretions, which cause the tickling, coughing, hawking and gagging so annoying to every catarrh sufferer.

Nasal catarrh generally leards to ulceration, in some cases to such an extent as to destroy the nose entirely and in many old cases of catarrh the bones of the head become discased. Nasal catarrh gradually extends to throat and brouchial tubes and very often to the stomach, causing that very obstinate trouble, catarrh of the stomach.

Catarrh is a systemic poison, inherent in the blood, and local washes in-halers, douches, salves and sprays can have no effect on the real cause of the

hairs, douches, salves and sprays can have no effect on the real cause of the disease. An internal remedy which acts upon the blood is the only rational treatment, and Stuart's Catarrh Tablets is the safest of all internal remedies, as well as the most convenient and satisfactory from a medical standpoint.

Dr. Eaton recently stated that he had successfully used Stuart's Catarrh Tablets in old chronic cases, even where ulceration had extended so far as to destroy the septum of the nose He says, "I am pleasantly surprised almost every day by the excellent results from Stuart's Catarrh Tablets. It is remarkable how effectually they remove the excessive secretion of the mucous membranes of the nose, throat and stomach."

All druggists sell complete treatment of the tablets at 50 cents and a little book giving the symptoms and causes of the various forms of catarrh, will be mailed free by addressing F. A. Stuart Co., Marshall, Mich.
