SAWYER-MASSEY CO.

Road Graders for every purpose, either for making new roads or keeping them level and in condition for traffic after being

Large Grader

graded. Every municipality should have one or more of the large size for grading new roads, after which the small one can be used to advantage in keeping them levelled off to pre-

vent ruts thereby providing perfect drainage. The SAWYER-MASSEY large grader differs from any other from the fact that all parts requiring extra strength are made of heavy hammered steel forgings, not structural steel, and can be drawn by traction engine or horses. There are more Sawyer-Massey Graders in use than all others combined. Several municipalities have a number of each size. See that yours is up-to-date.
