

**P. STRAITH'S****Reaper and Mower Knife Sharpener**

Manufactured at Toronto and Clinton, Canada, and Chicago in United States, and Exhibited at all the Principal Shows both in Canada and United States.

Verdict of all who have used it, the only effective Section Knife Grindstone we have seen. It is not an emery wheel, but the best grit grindstone, with self-adjusting attachments, and so arranged that one boy can grind knife perfectly in ten minutes, at the same time keeping the knife in perfect shape. The reputation of the above machine is now well established throughout the Dominion by farmers who have had them in use for the last three years.

By enclosing \$7.00 in registered letter with the order the freight on the machine will be paid to any railway station in Ontario. Special terms to wholesale dealers. Catalogues sent free.

Address all communications to  
**PETER STRAITH,**  
Box 80, CLINTON, ONT.

"The 'ACME' Pulverizing Harrow, Clod Crusher and Leveler is a capital implement for pulverizing inverted sod, in preparing for planting corn, as it goes down several inches in mellowing the freshly turned earth, while its slanting cut prevents tearing up the sod. For this purpose alone it is worth much more than its cost on any farm of even moderate size."

See advertisement on page 158.

**THOS. ASPDEN & SON**

Phosphate Works, London, Ont.

**TESTIMONIAL.**

I have thoroughly tested the brand of Fertilizers manufactured by THOS. ASPDEN & SON, and I strongly recommend it to all desiring to make immense profits. It is the best investment I have ever made, and is worth considerably more than its market price, if properly applied. An analysis of it, with a statement of my profits, will be found in the February issue of the FARMER'S ADVOCATE, page 38.

**BUCHANAN'S Improved, Doubling-Acting****PITCHING MACHINE**

FOR UNLOADING HAY AND ALL KINDS OF LOOSE GRAIN.

This machine can be used in barns, sheds or on stacks. It can be used to unload to either side of the barn floor without being turned around on the track, thus saving the trouble and annoyance experienced in climbing to the top of the barn to make the change. This is a special feature in my double-acting carrier, for which I hold letters patent for the Dominion, and hereby caution the public against buying from any others than me or my authorized agents, any infringement, as I will hold all persons using imitations liable for damages. This machine has never been beaten, either on a fair ground or in the barn, although it has been submitted to any test that the opposing makers could suggest, and proved to be a much better machine in the barn at work than on the fair ground empty. We will send this machine to any responsible farmer on trial, and guarantee satisfaction or no sale. Agents wanted in a great many parts of the Dominion, where I still have no agents established. Liberal discount to good agents, no others need apply, as we will not deal with any but good responsible men. Send for circulars and prices.

**THE COMMON-SENSE SHEAF LIFTER**

Works in connection with the Hay Carrier, and is the most complete apparatus ever offered to the public for unloading sheaves. No tearing the sheaves apart nor musing the load; leaves the sheaves on the mow in as nice a shape as they lay on the load. Price of Sheaf Lifter, \$5.00. Satisfaction guaranteed.

M. T. BUCHANAN, Manufacturer, Ingersoll
