

AS TRUE AS YOU LIVE.

It is of supreme importance to keep the bowels regular and open. Unless they act regularly and thoroughly, it is impossible to remove the impurities that constantly accumulate in the system. These waste matters generate poisons that create Biliousness, Indigestion, Headache and many other complaints. Most sickness is directly caused by Constipation.

BEECHAM'S PILLS

act pleasantly on the Bowels and Liver. A few doses will effectually cleanse the system of all harmful matter and gases. Taken as directed BEECHAM'S PILLS will establish a healthy and regular bowel action that will bring about an improved appetite, good digestion, sound sleep and a marked improvement in the general health.

BEECHAM'S PILLS have been before the public for over half a century. Their genuine merit has given them a high reputation as a reliable family medicine.

They have come to be universally regarded as the **"Little Doctor"** in the home. Always keep a box handy and avoid serious diseases.

The present popularity of BEECHAM'S PILLS proves them to be of high merit. Old friends show their appreciation by continuing, year in year out, to rely solely on their remarkable curative and tonic qualities. No other medicine is taken and none is needed; and it is to the steady recommendation of all who take them that the widespread fame of BEECHAM'S PILLS is due.

Prepared in St. Helens, England, by Thomas Beecham.
Sold Everywhere in Canada and U. S. America. In boxes, 25 cents.

North Williamsburg, Ont.

ISALEIGH GRANGE FARM

DANVILLE, QUEBEC.
Special offer: Bull calf, three months old, by imported Full Bloom and Fairy Queen (imported.) Write for particulars.

GOSSIP.

Mr. J. C. Ross, Jarvis, Ont., writes: "Please correct the mistake about the Clydesdale fillies referred to in Gossip notice recently. Please state that one of the three-year-olds was sired by Sir Richard, and was bred to Alexander Heir instead of being sired by Alexander Heir. My Clydesdales are doing well, and the fillies will make very fine brood mares for those lucky enough to get them, as they are bred from the choicest of stock."

THE PINE GROVE SHORTHORN SALE.

The advertisement in this paper announcing the first annual sale of young Shorthorn bulls and females from the Pine Grove herd of W. C. Edwards & Co., Rockland, Ontario, to take place on January 19th, will interest breeders in all sections of the Dominion. This herd, which has been in existence some twenty years, was founded on selections from the noted herds of Hon. John Dryden and the late John Miller, and in the last ten years large importations have been made of animals selected from leading herds in Scotland, including those of Messrs. Duthie, Marr, Bruce, Shepherd and others. It is now probably the largest herd of high-class Shorthorns in America, and probably contains more imported Scotch cattle than any other on this continent. High-class imported bulls have been in service steadily; the principal sires now in use being bred by Mr. Duthie and Mr. Marr. The last year's crop of bull calves, some 25 in number, nearly all old enough for immediate use, are included in the sale, together with about an equal number of young cows and heifers, most of which have been bred to the stock bulls, and many have calves at foot. The herd includes representatives of the best known and prized Scotch families. At the Dominion Exhibition, at Toronto, in 1903, the Pine Grove Shorthorns won the first prize for both young herd and herd open to all, the junior female championship, and the first for the progeny of one bull.

Messrs. Alex. Galbraith & Son, Jamesville, Wisconsin, and Brandon, Manitoba, the well-known importers of heavy draft horses, write the "Farmer's Advocate" as follows: "No Christmas season in the last twenty-five years has shown a more active, healthy, prosperous condition of business than the present one. Industrial and commercial business throughout the whole country is good; crops and prices are extremely satisfactory and profitable, while live stock of every kind is on the up-grade. This is especially the case in draft horses, the demand for the better class of geldings in Chicago market being probably stronger and prices higher than they have ever been. The keen competition in the harness classes at the International shows has naturally stimulated this demand, and created a market for high-class draft geldings at fancy prices all the year round.

"In preparation for an active demand for stallions, we have this month made another importation of first-class Clydesdales and Suffolks—the two breeds of which we make a specialty. We also have on hand a few choice specimens of the Percheron and Hackney breeds, our present stock aggregating fully eighty stallions, from two years old upwards. As a lot, we consider them superior to what we have ever had in the past, and their high general excellence is a feature to which we wish to direct attention. Some importers bring across perhaps one or two good horses to help sell a collection of mediocre animals, whereas our constant aim has all along been to import nothing whatever but what is good enough to be placed on exhibition or to head some pure-bred stud. This may explain the fact that at the last big fair at Brandon in a strong class of some seventeen stallions, no fewer than five out of the first six placed horses were of our importation. Our present equipment in the various breeds is unusually strong and complete, so that intending purchasers of either stallions or mares should not fail to communicate with us either at Brandon, Man., or Janesville, Wis., without delay, and remember that first come first served. We guarantee absolute satisfaction in every respect, and to this fact is doubtless due the very large business we enjoy in the Northwest, we having sold during the last three years more stallions than all our competitors combined."

Sharple's Tubular SEPARATORS

A BOON TO FARMERS' WIVES

Why not save half the standing-lifting—washing? Make your dairy work twice as easy—twice as profitable. Our friends call the Tubular Cream Separator the "Easy Way." Try it. Catalogue J 198 describes it.
