Bell PIANOS AND ORGANS

ARE FAVORITES EVERYWHERE BECAUSE THEY ARE THE BEST

THE BELL Piano and Organ Company, LIMITED, GUELPH, - ONTARIO.

Catalogue No. 40 tells more about them. It is free to all who ask.

No bolts—no cement in "Hecla" Furnaces.

HECLA FURNACES are not put together with bolts and cement. If you know anything about furnaces, you know what that means. Heat expands bolts more or less than the metal surrounding them—and they work loose. Cement drops out. Then gas, smoke and dust creep through the cracks and poison the air. HECLA JOINTS ARE FUSED at white heat and welded together. That makes a solid sheet of metal so there can be no escape of gas, smoke or dust.

If you are putting in a new furnace this year, send us rough sketch of house, and we will make, free of charge, an estimate of the cost of installing the right HECLA furnace.
