MAKE DAIRYING PAY BETTER

Strain your milk as it leaves the cow, not afterwards, and see that you strain milk only, not milk, dirt and bacteria. You can make pure milk an absolute certainty by using the

STERILAC SANITARY PAIL

farmers and dairymen.

Note its clever construction. The funnel is detachable. As the milk falls on the slant towards the milk, it passes direct to the strainer into the pail. All dirt falling into the opening is caught on a deep metal shell inside the funnel—not on the strainer—thus milk and dirt never come in contact. You can use ordinary cheese cloth for straining. Capacity 14 quarts, no joints on the inside; it is easily cleaned. Price, \$2.50. Used by all up-to-date

PURITY MILK COOLER-AERATOR

There are outlets at each side of this pan. This cooler is well made, has enameled inside, is easy to clean and simple to operate. Will last for years. Price, \$6.50. Guaranteed as represented.
