

## SAVES Down and Tangled Grain

On the Deering Binders the guards are placed so that the machine can be tilted to cut close to the ground without pushing trash ahead of the knife.

This is why you can make a 100% harvest with a Deering Binder. The reel can easily be adjusted high, low, forward, or backward, to save grain in all conditions—short, tall, standing, down, or tangled. It can be shifted quickly to push very short grain and green undergrowth from the guards to the platform canvas, saving the time and annoyance of stopping frequently to clean the guards.

The Deering third packer, reaches up close to the elevator and pulls the grain down to the other two packers, preventing the grain from lodging there. The shape of the needle and breastplate is such that straws are not pulled through to the bill hook. This also prevents clogging at this point.

The third discharge arm on Deering Binders is very effective in throwing out the bound sheaves, and in addition to this it assists in separating the tangled grain of the bound sheaves from the unbound grain on the binder deck. The binder shifter lever, directly in front of the driver, is convenient to operate.

There are many other features of Deering Binders which you ought to know about. The Deering line of haying machines and tools is also well worth your consideration. The Deering agent in your town will tell you all the facts.

If you prefer, write direct to the nearest branch house for catalogue.

### I H C Service Bureau

The Bureau is a center where the best ways of doing things on the farm, and data relating to its development are collected and distributed free to every one interested in agriculture. Every available source of information will be used in answering questions on all farm subjects. If the questions are sent to the I H C Service Bureau they will receive prompt attention.

## What Others Are Discarding Will Not Please You. All Other Kinds of Cream Separators Are Being Rapidly Discarded For SHARPLES DAIRY TUBULARS

That is because Tubulars are built on the latest principle of construction—the only known principle which does away with the many disks, or other parts, and the many disadvantages of other separators. This principle is patented and cannot be imitated. That is why other separator makers still use the old principle we abandoned over ten years ago.

Dairy Tubulars produce twice the skimming force of others and therefore do not need or contain disks or other complicated inside parts. Skim faster and twice as clean as others. Repeatedly pay for themselves by saving cream no others get. Wear a lifetime. That is why Tubulars are The World's Best and are replacing all others.

Guaranteed forever by the oldest separator concern on this continent. In world-wide use many years. The manufacture of Tubulars is one of Canada's leading industries. You can afford a Tubular, for it lasts a lifetime. But you cannot afford a "peddler's" or other inferior machine which not only repeatedly loses the cost of a Tubular, but lasts about a year on the average. Our local representative will show you a Tubular. If you do not know him, ask us his name. Write for catalogue No. 193.

**THE SHARPLES SEPARATOR CO.**

## Vanco

### Lime Sulphur Solution

**Means Big Fruit And Big Prices**

You have got to spray the fruit trees to get any kind of a crop. The most effective spray means the biggest crop and the biggest profits. **VANCO LIME SULPHUR SOLUTION** is a thoroughly reliable fungicide.

It is a clear liquid—no sediment—free from small particles—sprays easily and does not clog the nozzle. You could not possibly get a greater amount of Sulphur in Solution than you get in the "Vanco" Barrel. This is the Spray to use for San Jose Scale, Aphid, Scab, Blight, Mildew and many other parasites and fungi that ruin trees and fruit.

**VANCO LIME SULPHUR SOLUTION** is better than any home-made spray, because always of the same strength and uniform quality. Specific Gravity stencilled on every barrel. One barrel makes 12 barrels for spring or 40 for summer spraying.

### VANCO Lead Arsenate

**Kills All**

Safest and surest spray for Apple Worms, Codling Moths, Potato Bugs, Asparagus Beetle and other leaf-eating, fruit-destroying insects. More effective and more lasting than Paris Green—safer to handle—easier to spray—sticks longer—strength guaranteed—NEVER BURNS. Made in Canada. This insures standard quality at lowest prices, because there is no duty to pay on it.

Write for prices and free copy of our new book on sprays.

**FERTILISERS**—We also sell Nitrate of Soda, Muriate of Potash, Sulphate of Potash and Acid Phosphate.

**Chemical Laboratories Limited**  
126-136 Van Horne Street, TORONTO.

## Paints for Everything on the FARM

The successful farmer could no more have a modern farm without paint, than he could raise a bumper crop without modern tools to till the soil.

There is a **Martin-Senour Paint** for everything on the farm, from the roof of the house to the side of the barn, and they make any farm look more modern. It is remarkable how

### Martin-Senour Paints

improve a place, and everything paintable on the place; and it is surprising to the man who does not know what a wonderful money-saver paint is. Tools and machinery last longer when protected with a good coat of paint—and they look better, too. As a purely business proposition, money spent for **Martin-Senour paint** is like money put into the savings bank—it pays compound interest by prolonging the life and usefulness of every painted thing on the place.

**Martin-Senour Paints** are best because they are pure. We want to give you a can free to prove that. Cut out the coupon, present to our agent, and get the can—if no agent near, send coupon to us, and we will see that you receive a can, and a copy of our Farmers' Book, "How Paint Helps the Farmer Get More Profit." Write today.
