Some day. RY MARY F. SCHUYELER

Some day my cheek shall lose its bloom,
The flowers for me their rich perfume.
And 'mid the shades and gathering gloom
My feet snall stray,
Down, down the dim descent of years.
Through wearing cares and burning tears,
With beart half fainting from its fears,
I'll wend my way.

Bome day my eyes shall dimmer grow, My hair turn white as winter at ow, My voice grow timid, faint, and low, My wind decay;
But still my lonely path I'll tread, And mourn, perhaps, my cherishe i dead, The hopes and joys forever fled Bo far a way.

But oh I some day when life slopes down To the night shadows dim and brown, I hope to see a starry crown Waiting for me.
Then robed in calm content I'll lie, With folded hands and tearless eye. And yield my breath without a sigh. Glad to be free.

FIVE-MINUTE SERMONS FOR EARLY MASSES By the Paulist Fathers. reached in their Church of St. Paul the Apostle, Fifty ninth Street and Ninth Avenue, New York.

SEXAGESIMA SUNDAY. The Gospel of to-day, my brethren, is The Gospel of to-day, my preturen, is the parable of the sower who went out to sow his seed. Our Lord Himself ex-plains the parable, and tells us that the seed is the word of God; and the real sower of this word, of course, is God, from whom it comes and from whom it has all its life and nower.

the ground in which this seed is sown is the mind and heart of man; or to put the matter in a practical shape, it is your the matter in a practical shape, it is your heart and mine. There are many people in this world to whom very little of it has come, at least compared with what we have had; but we cannot complain that we have not had our share. The word of God spoken by the mouth of man, in sermons, instructions, counsels and warnings, from the altar and in the confessional, and not only from the priests, but also and not only from the priests, but also from others who have been the ministers of God and the channels of His grace to us; it is certainly no strange or new sound in our ears. And not only in this way have we continually heard God's voice, but often, perhaps even more frequently, have we heard it coming immediately from Him, and speaking in our own souls.
Plenty of this seed has, then, been sown

in us; but where is the fruit, the harvest that should have come from it? Seed is not put in the ground merely to be kept there; no, it cannot be kept there; if it is not destroyed or carried away, it must

grow and multiply.

The seed of God's word should there-The seed of God's word should therefore have grown in us. It should have
been the beginning and the increase in us
of the spiritual life, which should have
grown stronger in us day by day from the
time when we first came to the use of
reason until the present moment.

Now, how is it in fact? As we look
back on our lives do we find that this has

back on our lives, do we find that this has actually been fulfilled in them? Are we better, more perfect, nearer to God now better, more perfect, nearer to God now than we were last year, or even ten years ago? Is it not rather to be feared that we have fallen back; that we are more careless, perhaps even about mortal sin, than we were in times past; or, to say the least, that habits of venial sin have gained. on us, instead of being overcome; that our prayers are less fervent, our reception of the sacraments less frequent, our love of

And increase the substitute tells us that the "path of the just, as a shining light, goeth forward and increase the even to perfect day," week the papers record the death of the just"; that is, those who are habitually in God's grace, who have and keep the life of God in their souls. The Christian virtues, the seeds of which were put in our souls at baptiem, should have been growing during all our lives; they should have been with the company of the week of my remedy."

"Do you think many people are afflicted with it to-day who do not realize it?"

"A prominent professor in a New Orleans medical college was lecturing before his class on the subject of Bright's disease. He had various fluids under microscopic analysis and was showing the microscopic analysis and was showing the subject of this terminant what the indications of the terminant what the indications of this terminant what the indications of the terminant what the indications of this terminant what the indications of the terminant when the

Brethren, I need not a k you if this bas been so with you. With some, no doubt, it has. They may not feel that they have drawn nearer to God, but really they have. Temptation does not find the material in them to work on that it did; to avoid evil and to do good is every day essier and easier; they have still causs to fear, it is true, but still more and more ground to hope.

fear, it is true, but still more and more ground to hope.

But, alsa! how many there are in whom there is no sign of this growth which should have come from the seed which has been sown in them! Their light has not increased; no, it is almost always extinguished; when it does seem to shine, it is but to flicker for a moment, and to disappear. The seed is no sooner sown in them than it is trampled under foot or carried away by the birds of the air.

Brethren, if the life of grace is not growing in our souls; if we are not falling less frequently, and rising more easily from our falls, than before, our path is not that of the just, and the seed of the Word of God has not yet taken that root which will make it bring forth a hundred-fold.

In Good Repute.

James McMurdoch, writing from Kin-sale, says:—"B.B., as a remedy for diseases of the blood, liver and kidneys, has an excellent reputation in this locality. I have used it, and speak from experience as well as observation. It is the only medicine I want, and I advise others afflicted to try it."

afflicted to try it."

The Cheapest medicine in use is Dr. Thomas' Eclectric Oil, because so very little of it is required to effect a cure. For croup, diphtheria, and diseases of the lungs and throat, whether used for bathing the chest or throat, for taking internally or inhaling, it is a matchless compound.

FREEMAN'S WORM POWDERS require no other Purgative. They are safe and sure to remove all varieties of Worms.

Orpha M. Hodge, Battle Creek, Mich., writes: I upset a tes kettle of boiling hot water on my hand. I at once applied Dr. Thomas' Eclectric Oil, and the effect was immediately to allay the pain. I was cured in three days.

NATIONAL PILLS act promptly upon the Liver, regulate the Bowels and as a purgative are mild and therough.

JUST AS BAD AS PAINTED.

WIDESPREAD COMMOTION CAUSED BY THE TERRIBLE CONFESSION OF A PHYSICIAN. The story published in these columns recently, from the Rochester, N. Y., Democrat and Chronicle, created a deal of comment here as it has elsewhere. Apparently it caused even more commotion in Rochester, as the following from the

in Rochester, as the following from the same paper shows:

Dr. J. B. Henion, who is well-known not only in Rochester, but in nearly every part of America, sent an extended article to this paper a few days ago which was duly published, detailing his remarkbale experience and rescue from what seemed to be certain death. It would be impossible to enumerate the personal inquiries which have been made at our office as to the validity of the article, but they have been so numerous that further investigation of the subject was deemed necessary. With this end in view a representative of this paper called on Dr. Henion at his residence on Andrews street, when the following interview occurred: "That article of yours, Doctor, has created quite a whirlwind. Are the statements about the terrible condition you were in, and the way you were rescued, such as you can sustain."

"Every one of them and many additional ones. I was brought so low by neglecting the first and most simple symptoms. I did not think I was sick. It is true I had frequent headaches; felt tired most of the time; could eat nothing one day and was ravenous the next; felt dull in the could be seen to order. pains and my stomach was out of order, but I did not think it meant anything serious. The medical profession has been treating symptoms instead of diseases for years, and it is high time it ceased. The symptoms I have just mentioned or any unusual action or uritation of the water channels indicate the approach of kidney channels indicate the approach of Ridney disease more than a cough announces the coming of consumption. We do not treat the cough, but try to help the lungs. We should not waste our time trying to relieve the headache, pains about the body or other symptoms, but go directly to the kidneys, the source of most of these ailments." ments

"This, then, is what you meant when you said that more than one-half the deaths which occur arise from Bright's dis-

deaths which occur arise from Bright's disease, is it, Doctor ?'
"Precisely. Thousands of diseases are
torturing people to-day, which in reality
are Bright's disease in some of its many
forms. It is a hydra-headed monster,
and the slightest symptoms should strike
terror to every one who has them. I can
look back and recall hundreds of deaths
which physicians declared at the time
were caused by paralysis, appolexy, heart were caused by paralysis, apoplexy, heart disease, pueumonis, malaria fever and other common complaints, which I see now were caused by Bright's disease."

"And did all these cases have simple

"And did all these cases have simple symptoms at first?"
"Every one of them, and might have been cured as I was by the timely use of the same remedy." I am getting my eyes thoroughly opened in this matter and think I am helping others to see the facts and their possible dangers also."

Mr. Warner, who was visited at his establishment on North St. Paul street, sanks very earnestly:

spoke very earnestly:
"It is true that Bright's disease had in-"It is true that Bright's disease had increased wonderfully, and we find, by reliable statistics that from '70 to '80, its growth was over 250 per cent. Look at the prominent men it has carried off, and is taking off every year, for while many are dying apparently of, paralysis and apoplexy, they are really victims of kidney disorder, which causes heart disease, paralysis, apoplexy etc. Nearly every week the papers record the death of some prominent man from this scource. Re-

students what the indications of this terrible malady were. 'And now, gentlemen,' he said, 'as we have seen the unhealthy indications I will show you how it appears in a state of perfect health,' and he submitted his own fluid to the usual test. As he watched the results his countenance suddenly changed—his color and command both left him and in a trembling voice he said. 'Gentlemen I have made a painful

both left him and in a trembling voice he said: 'Gentlemen, I have made a painful discovery; I have Bright's disease of the kidneys.' And in less than a year he was dead. The slightest indications of any kidney difficulty should be enough to strike terror to any one."

"You know of Dr. Henion's case?"

"Yes, I have both read and heard of it."

"It is very wonderful, is it not?"

"No more so than a great many others that have come to my notice as having been cured by the same means."

"You believe then that Bright's disease are be said?"

can be cured?"

"I know it can. I know it from my own and the experience of thousands of prominent persons who were given up to die by both their physicians and friends."

"You speak of your own experience; what was it?"

what was it?"

"A fearful one. I had felt languid and unfitted for business for years. But I did not know what ailed me. When, however, I found it was kidney difficulty I thought there was little hope and so did the doctors. I have since learned that one of the physicians of this city pointed me out to a gentleman on the street one day, saying: "There goes a man who will be dead within a year." I believe his words would have proved true if I had not providentially used the remedy now known as Warner's Safe Cure."

"Did you make a chemical analysis of

of Dr. Henion, Mr. Warner and Dr. Lattimore in the community is beyond question, and the statements they make cannot for a moment be doubted. Dr. Henion's experience shows that Bright's discase of the kidneys is one of the most deceptive and dangerous of all diseases, that it is exceedingly common, but that it can be cured if taken in time.

There is Nothing Like It. There is no one remedy offered to suf-fering humanity whose use is so universally and frequently required as Hagyard's Yellow Oil, for rheumatism, neuralgia, colds, sore throat, deafness, croup, lum bago, and aches, pains, lameness and sore-ness of all kinds, when internally and externally used.

"What is good for a cold?" is a question often asked, but seldom satifactorily answered. We can answer to the satisfaction of all, if they will follow our advice and try Hagyard's Pectoral Balsan, and a placeant and certain threat and a safe, pleasant and certain throat and lung healer. Sold by all druggists.

A Source of Great Trouble. Probably the most prolific source of chronic ills is indigestion or dyspepsia, causing unhealthy blood. Yet taken in time it is positively curable. Burdock Blood Bitters has cured some of the worst cases known, even of 15 years' duration. If troubled with indigestion try it.

DR. Low's WORM SYRUP has remove tape worm from 15 to 30 feet in length. It also destroys all kinds of worm.
