On Dec. 6th, Mr. "Justice" O'Brien penned the Commission for the Leinster Winter Assises, in Wicklow. It is eatishetery to learn, on such authority, that the large and important district included in the Assises for Leinster is "in a state of semparative freedom from crime of an edinary nature." Indeed, but for two mees, one of which belongs to another movines, there would be very little to enage the attention of judge or jury. The two cases referred to were those in which number of smergesey men were charged with the murder of John Kinsella, at leolgreany, and the case in which another tody of men, charged with having attacked he house of a man named S.x.on, near indeconvarna, in the course of which thack Head Constable Whelehan lost his fig. In this latter case, Thomas O'Leary, adjected for wiltul murder, was acquitted of the espitaleharge, it being admitted, on he part of the crown, that the prisoner id not kill the deceased. He and six ther prisoners were thereupon ordered to a arraigned for offences under the White-ty Act.

The proceedings in Tullamore Jail, on Beember 8th, were of a scarcely less can atture than the other atrocities which have eauned so much notoriety for the prison. At parade time, on that day, Warder McCollagh reported Mr. Mandeville for refusing to clean his cell when abeyance until the arrival of the prison dostor. Dr. Ridley had an interview with Mr. Mandeville at about 12 o'clock, and afterwards met the Governor, who read McCollagh's charge, and asked Mr. Mandeville what he had to say in response. Mr. Mandeville said he considered himself a political prisoner, and as such he should not be asked to de the work of a menial. The Governor sald—"You were not handed over to me as a political prisoner; you were handed to me as a criminal." He forthwith ordered Mr. Mandeville to be put on "punishment dist" of bread and water, for forty eight hours.

On the evening of Friday, December 2th, an unusual bustle was noticed among the police force of Cork city. Groups of policemen were seen standing at every prominent street corner, to the great inconvenience of ordinary pedestrians, who had in many cases to dodge for a clear passage. The object of these mysterious movements is not known, but it is possible they may have had something to do with the latest piece of petty tyranny exercised ander the previsions of the Coerdon Act.

On December 6th, at a special Crimes

Act court at Ballinepittle, Dr. James Magner, a local medical practitioner, was sentenced to two months' imprisonment sentenced to two months' imprisonment without labor, for proposing a series of resolutions at a recent demonstration at Ballinades, which was addressed by A'derman Hooper, M. P., member for the division. Dr. Magner on the occasion did not deliver a speech, his action being parely the formal proposing of the resolutions. The Crown relied for their case that the speeches of Alderman Hooper, Tather Laue, and Mr. Crowley, showed that there was a "common purpose" of conspiracy. A resolution condemning landlordism and advising the payment of a fair rent was held to amount to intimidation. Two months were given on a summons for conspiracy and a similar penalty for intimidation, both terms to ran concurrently. An appeal will be made.

On the 29th of November, a number of Euglish members of Parliament visited Trurles, and their presence was made the occasion of a very enthusiastic demonstration. A meeting took place in the town, the Rev. J. Feunelly, Adm., presiding, at which resolutions were passed of cordial we come to the Liberal English members present; condemning the prison treatment of Wilsiam O'Brien and the other prisoners in Tullamore, and pledging those present to persevere in the National struggle. Stirring speeches were delivered by Mesra Alfred Illingworth, M. P., Woodhead, M. P.; Pricelly, M. P.; Stephenson, M. P.; Channing M. P., (all Englishmen,) and others. Dr. Tanner was also present and spoke. The proceedings were of a very enthusiastic character. In the evening the members of the delegation dined with his Grace the Archbishop of Cashel.

During the last week in November, there were rumors in the vicinity of Lismore to the effect that the Government was about to make an attempt to effect the arrest of Mr. Pyne, M. P., owing to the fact that the vigilance of the police in Tallow, and about the Castle, had increased daily, and the constabulary paid particular attention to all parties going to and from the Castle. Mr. Pyne, however, contrived to clude the vigilance of his would be jailors, and, every now and then, made salines from his fortrees, to visit his friends, to whom his appearance vare, invariably, occasions of double rejoicing On Nov. 28th, quite a number of deputations from various parts of the country waited on Mr. Pyne, M. P., at Listinay Castle. Deputations came from Water ford, Kilmacthomas, Abbeyside Killegh, and several other pisces. Addresses were delivered from the Kilmacthomas Board of Guardians, the Abbeyside Brauch of the National League, the Newtown Branch of the League, the Gaelic Athletic Club of the combined parishes of Killeagh and linch. The deputations presented an imposing sight. One hundred men rode on horseback, and more than one hundred of the members of the Gaelic Club marched four deep, while the horsemen brought up the rear. Mr. Pyne thanked the various deputations for their kind addresses, and said that though he had received many addresses, he still felt great pleasure in receiving one from the Kilmacthomas Board of Guardians. A number of the delegates ventured to "scale" the walls of the Cartle and were entertained there by Mr. Pyne.

That's the way to do it! Hang everybody, except those who agree with you. It's Mr. Baifour's way, but he is asbamed of fellowing his who agree with you. Armagh.

On Wednesday, December 7th, the mortal remains of the saintly Primate, Very Rev. Dr. McGettigan, were laid to rest in the graveyard which adjoins the Cathedral in Armagh. The obsequies of the deceased were celebrated with great impressiveness, no less than nine Bishops and a great number of priests from all parts of the country taking part in the solemn office. The high esteem in which the late Archbishop was held by all classes was shown in a striking manner at his interment by the presence of the Protestant Bishop of Armsgh, Dr. Knox, and a number of Protestant and Presbyterian clergymen. Among the general body of those present were also a considerable number of non-Catholics. This was a tribute to the memory of ene who will live in the hearts of those who knew him as a great, an exemplary, and a nobleas a great, an exemplary, and a noble-hearted Prelate.

As yet neither homeopathist nor allopa

erders.
Formerly the true cause of death was erders.

Formerly the true cause of death was discovered only after death. To day the microscope shows us, in the water we pass, the dangerous condition of any organ in the body, thus enabling us to treat it promptly and escape premature death.

As the microscope in the hands of lay men has revealed many diseases that the medical men were not aware of, so that preparation, like many other discoveries in medicine and science, was found out by lay men, outside the medical code; con sequently it comes very hard for medical men to indorse and prescribe it. Nevertheless, Warner's safe cure continues to grow in popularity and the evidences of its effectiveness are seen on every hand.

Some persons claim that the proprietors should give the medical profession the formula of this remedy, if it is such a "God send to humanity," and let the physicians and public judge whether er not it be so recognized.

We, however, do not blame them for not publishing the formula, even to get the recognition of the medical profession. The standing of the men who manufacture this great remedy is equal to that of the majurity of physicians, and the reason that some doctors give for not adopting and prescribing it—wix. that they do not know what its ingressions are—is absurd.

The universal testimony of our friend and neighbors, and the indisputable ordence that it, and it alone, has complete mastery over all disease of the kidneys, is sufficient explanation of its extraordin any reputation, and conclusive proof that it is, perhaps, the most beneficent discovery known to asientific medicine since the microscope revealed to us the all important nature of the organs it is designed to reach and benefit.

"Ve yeal, Emmanuel," we have been singt "Gome, O Emmanuel," that has been proper of the Church as she commented during these four weeks the long for the manuel, "the has been proper of the Church as she commented during these four weeks the long for the whole story: "God with us," for has some now; the prayer has been moved; the waiting and watching eyer; that is what it means, the joy of first Christmas and of every Christmas that God is with us, and He has come to us in not as a Judge but as a Savior, not in the slow it merey; not even asking us mow so much as to take up the cross follow Him, but rather to rest in His some, to wonder, to love and to ad Christmas in them to us, or at least she, a foretaste of heaven, a resting p in the green fields by the water of refirment in the desert of this life, where are only saked to give our souls to differ a little while of the fountain was pringeth up unto life eternal.
