Children's Shoes THAT FIT.

Quite a novelty—most of them don't; we make it a point to carry a much greater variety of widths

and styles and sizes that can be found in most stores. Consequently, we are sure of being able to fit perfectly any child's foot; besides having special shoes for children who "toe in" or have weak ankles or flat feet. Also shoes built on a foundation that keep the feet warm and dry. If you investigate you'll find prices are no higher than are asked elsewhere for poorer shoes—and less kinds to choose from.

Rubbers, Plain or warm wool lined to fit all the different shaped shoes.
