ENTERTAINMENT.—One of the pleasant features of Exhibition week in Kentville was the concert and entertainment given on Tuesday and Wednesday evenings in Margeson's Hall under the auspices of St James' church. The latter, which consisted of instrumental music by Miss Hamilton, of Grand Pre; vocal music, by Miss May Brown, of Wolfville; Dr Moore and Mr Somers, of Kentville; and readings by the celebrated elocutionist, Miss Penbody, of Eastport, Me., was particularly enjoyable and largely attended.

OUR WATER WORKS.

The tenders for the work of making excavations and for caulking and covering the water-pipes closed on Wednesday. Only two parties tendered, Mr Brown, of Windsor, and Mr Mackintosh, of Pictou. The tender of the former was accepted and the work is to begin on Monday next and will be completed this fall. Mr Brown, to whom the contract has been awarded, has had considerable experience in this kind of work and is a thorough practical man. Owing to some detail having yet to be arranged we are yet unable to give the exact amount of the tender, but will probably be able to do so next week. We may say however that the amount paid is considered low. In another column will be found an adv. asking for tenders for hauling pipe, etc., which should receive the attention of those interested.

Biltown.

The ladies of Biltown had a pleasant tea-meeting and bazaar in the vestry of the church on Wednesday afternoon and evening of last week. The object was to raise funds to paint the church. The day was pleasant and the attendance good, and a very enjoyable time was had. The tables presented a nice appearance and the whole arrangement reflected the greatest credit on those who had the arrangement in hand. The very creditable sum of \$41 was realized.

Mr Day, a student of Acadia College, has been in charge of the church at this place during the summer months. He is now about leaving to resume his studies at the opening of the College term. During his stay here Mr Day has made many warm friends, and his preaching has been much enjoyed and appreciated.

Mr Morse has got his mill in working order, and is now manufacturing lumber of all kinds and also barrel stock. He expects soon to be also making shingles and laths. This industry will be a valuable addition to the place and should receive the support and patronage of the people.
