A splendid masquerade was held at the home of Mrs. D. B. Jewett in connection with the Women's Institute, quite a large crowd attending in costume. Only ladies were admitted but two of the ladies were found to be Capt. H. H. Hopkins and R. W. Demmings, who caused much amusement by their make-up, which was very good. Mrs. W. Grantham, as a squaw and Mrs. D. S. Boone as a witch were extremely good, as also Mrs. Kerrigan and Mrs. London as negresses.

Railway News

Hardisty, Alta.—Work has just been completed on the C.P.R. bridge, Hardisty, after a great deal of labor has been spent on it.

The trestle was begun in 1906, when the railway came to Hardisty, and trains ran over in 1908. The trestle is 2,714 ft. long, 70 ft. high, and has in it 1,800,000 ft. board measure of lumber, as well as 27,000 ft. of piling. It is estimated that it has taken 800,000 tons of material to make the fill.

The present bridge presents a safe and perfect means of transit.

St. John, N.B.—Five members of the Baseball Writers' Association of the United States arrived in St. John from Montreal. They were Fred Lieb of the New York Evening Telegram, who is president of the Writers' Association; Sid Mercer of the New York Evening Journal; Irvin Vaughan of the Chicago Tribune; Denman Thompson of the Washington Star; and Ed Ballinger of the Pittsburg Post. They left on the S.S. Aranmore for Digby, en route to the Kegonsakoo district where they will hunt big game. The party are the guests of the C.P.R.

The trip was arranged by Joe Page, baseball writer and sport enthusiast, who is a special representative of the C.P.R. He met the majority of the writers in New York and accompanied them to Montreal, Quebec and as far as this city.

The visitors were met at the station by G. Bruce Burpee, district passenger agent of the C.P.R., and C. B. Allan, secretary of the New Brunswick Tourist and Resources Association, and driven to the Royal Hotel.

Montreal—A press dispatch from Calgary crediting to the secretary of the Federated Shop Trades there a statement to the effect that the C.P.R. and certain other railways had knowledge of the conciliation board's award some days before it was filed with the department of labor and in consequence thereof had paid the reduced rates of wages as set by the conciliation board, prior to the announcement of the award by the department of labor, was brought to the attention of George Hodge, assistant general manager of the C.P.R.—Eastern lines, who conducted the board for conciliation and investigation.

Mr. Hodge denied most emphatically the correctness of the statement. He said further that as far as the C.P.R. was concerned it had no knowledge of the award until it was received at the company's offices on September 4, and that instructions to restore rates of pay which had previously been put into effect as from July 16, were issued under date of September 5, making the reduced rates effective as from August 16.

Moore Jaw—"One hundred per cent more grain has been handled by the Canadian Pacific Railway up to the middle of October this year, than ever before for the same period. That will give you an idea of the way the grain is being taken out of the country," said Mr. Chas. Murphy, general manager of Western Lines of the Canadian Pacific Railway.

He expressed himself very well pleased with the movement of the crop throughout the whole West. When asked as to the possibility of a grain blockade, Mr. Murphy stated that the Canadian Pacific was accepting all grain that was being offered. He pointed out that on one day over four million bushels had been taken out of Fort William and Port Arthur. Mr. Murphy pointed out that there was difficulty in getting bottoms on the lakes to take the grain out, but the elevators were far from being full, and the Canadian Pacific still had the big Transcona elevator empty.

Already Mr. Murphy stated there was a large quantity of grain being shipped from the head of the lakes by the all rail route. He declared that he could see no grain blockade in sight.

Mr. Murphy pointed out that the Canadian Pacific had moved 14,000 cars off the Saskatchewan division of the railway. This was five thousand more cars of Saskatchewan wheat than had been moved in the same period in any year.

He also pointed out that even with the unprecedented grain movement the Canadian Pacific was moving from 250 to 275 carloads per day from the Western coal mines.

"There was thirteen thousand tons moved yesterday," he declared. "I was here three weeks or a month ago and at that time I stated we were moving 250 to 275 cars of coal a day, and the movement has been kept at that ever since. We realize, he declared, that the wheat can be moved during the cold weather and people can live, but if the cold weather comes and there is no coal, there will be great suffering in the country, and possibly worse."

MOOSE AND BIG MOOSE IN COLLISION

Houlton, Me., Oct. 31.—The State of Maine may have to stand for a large share of the expense of repairing Emery Conlogue's automobile damaged by one of the State animals, a bull moose, which came out of the woods obstructed the highway and was struck by the five passenger car and thrown to the hood where he rode with hoots as well as horns well off the ground until the machine was stopped.

As the moose tried to regain its feet it crowded against the windshield demolishing it. It bent and scatted the mudguards and crushed the hood. It thrashed wildly with its antlers head scarring the sides of the car and driving a hole through it.

The driver quite as frightened as was the forest monarch was likewise "taken off his feet" and let the car go on for some distance before he gathered his wits enough to stop it.

When the car halted the moose rolled from his perch to the road side, balanced himself for a moment, belated twice and crashed off into the bush.
