#### Charity.

(Written for the Sacred Heart Review.)

By MARY ALLEGRA GALLAGHER.

When you love, when you love All the skies loose their birds, Ev'ry wing soareth down For the crumbs of your words.

Oh you can't turn a foot But you'll wound some poor dove;

Heaven lies at your feet When you love, when you love. When you love, when you love,

Ev'ry breath opes a flower; Ev'ry nook, ev'ry sigh Gilds the gold of the hour. When you love, when you love

You are more than a king No one questions your right, You can rule ev'rything. When you love, when you love What fair angels you make

Of the erring, the sad, When you love, when you love You do gently ascend

O'er yourself. You have man,

#### ANOTHER \$100 000 FOR RIDEAU.

Ottawa, Nov. 10, 1906. In the insurance investigation, continued this week here, Mr. Shep-ley, counsel for the Government, thought proper to inquire closely into the purchase by George Fowler, M. P., and Rufus Pope, ex-M. P., of 200,000 acres of land from the C. P. R. Company, Mr. Shepley labored hard to make it appear that these buyers and their associates bought on favored terms and that

more than they paid for it. If that were so it would be better for the Union Trust Company and also for the Forresters, who afterwards became interested in the property. But it was shown by the evidence of C. P. R. land agent Griffin that the price received was the best that his company had been able to obtain for he price advanced afterwards, and out of the transaction as did all other purchasers of western lands, Mr. Griffin swore positively that he was sight. not instructed to favor these purchasers over others and that no speoial advantage was given them.

IF THEY HAD BEEN GRITS. If Mr. Pope, Mr. Fowler and their ssociates had been Government suporters in Parliament or Governnent leaders out of Parliament, or had been relatives or silent partners of Liberal members or ministers it would not have been necessary for hem to go to the O. P. R. and buy land at the market price. Instead of paying \$700 000 for 200,000 acres selected out of 225,000 acres, some of the land remote from projected railway lines, they would have gone to the Government and got the same quantity, with the privilege of picking it up in small lots any time within the next six years out of 650,000 acres, along proposed railway routes, paying \$200,000 instead of \$700,000. Instead of paying \$200,000 when the option was taken and \$116.666 as a first payment when the sale was completed, they could have saved their money, as they would not have been asked to pay for the lands until they took them, or to take them until they had been sold to the settlers. Moreover, they need have paid no cash but about 25 cents on the dollar. As they were Conservatives without a Government pull, the Pope and Fowler syndicate was able to make only \$1 an acre, or \$200,000 on their nvestment and risk. Had they been Adamsons or connections of the Turiff family, or intimates of the Minister of the Interior, their gains

THE ROSS RIFLE. There is trouble over the Ross rifle. It is officially appounced that the mounted police, which have been supplied with this weapon have re--Would Have Required turned their rifes to the Militia De-No Capital, and Could partment, as unsuitable for active service. The Militia Department explains that the defect is a matter of detail and will be remedied. How far this is correct will be seen later. At present we know that the Ross Rifle Company has a contract to furnish these rifles at \$25 each, and that 16,500 had been manufactured before May of this year. The con-Mounted Police Sent Back tract provides for the purchase of Their \$25.00 Weapons- 10,000 each year at the above price, Quebec Complains of Fa- and the Militia will take its whole supply from this concern, The mounted police received 1,000, but turers-Pearson and His are apparently now using the weapon they had before. There is a good deal of dissatisfaction in Quebec over the privilege given to the Ross Company to build the rife and cartridge factory on or near the Plains of Abraham where it is to be a disfigurement and in the event of a war Government Organ Says Yes it would be in an exposed position. An ancient and historic Martello tower has been used so the foundation for one of the Ross shops. A ures Will Probably Compel Quebec paper makes strong complaint of the privileges extended to this company and connects Mr. Parent, former Premier of Quebec. now Obsirman of the Grand Trunk Pacific Reilway Construction Committee, with these transactions.

S., of which company it is understood Mr. B. F. Pearson, of Halifax, is one of the directors. This same gentleman is the chief proprietor of Govern-ment organs in St. John and Halifax, and an extensive contractor for Government printing. He was connected with the Eastern Railway Supply Company of Halifax, which supplies goods to the Intercolonial asionally on the most favored terms. That is to say on some matters investigated last session t was found that the Eastern Supply Company tenders were accepted when they were not the owest, and some contracts were made with them without tender. Mr. Pearson and his friends often have companies ready to supply articles, before the Government knows it wants them. They are men of foresight as well as back-

WILL HYMAN GO.

The Toronto Globe created a little sensation this week by publishing the report that Mr. Hyman, Minister of Public Works, was about to resign is seat in the Cabinet. The report contradicted or discredited by Mr. lyman's colleagues. He has been t New York and was there when he Globe statement was published. There is a general sentiment that he story ought to be true whether it is or not. For the London Election prosecutions have day by day reveald more rascalities connected with is election. The number of electfar exceeds one hundred and is aproaching the second century. It shown moreover, that the conspiracy was a wide one and that there returning officers and other officials, double his former salary after his with much perjury. The Minister of Public Works as the chief beneficiary of these crimes, owing his place in the House to them, will be daring and presumptious man if he as legislator for the Canadian nation, and the head of a great spending

ALL OVER THE COUNTRY. The prosecution continues to bring out evidence of the stealing of seats throughout Ontario in previous elections. During this week a large number of witnesses from Brockville have aworn that they were either engaged and paid for switching ballots in the by-elections of 1899 or that attempts were made to engage them to commit these origines. At least a dozen Brockville deputies must have been taken into the confidence of the copepirators and shown how to perform the operation of ballot substitution. They were offerthe price of \$5 per vote for every one so stolen, with an additional retaining fee of \$100, in one case, and

perhaps smaller sums in others. MINISTERS KNEW IT LONG

AGO. One of the features of these disclosures is that the whole story was told six years ago by Prichett in affidavits which Mr. Borden read in the House of Commons. The chief operator and instructor in ballot switching set forth in detail within a few months after the occurrence, the time, place and manner of his proceedings. At that time the member who got the stolen seat was in the House voting regularly with the Government. A few months before the affidavit was read bir Wilfrid Laurier, Sir Richard Cartwright and Mr. Fielding had solemnly declared in the House that the Government desired and would promote and asaist in obtaining a full investigation by Parliamentary committee of the West Huron and Brockville scar-

The Pritchett sfldavit is now co oborated not only by Pritchett' of local ballot switchers whom he instructed and who were paid out of the party campaign funds by party campaign managers. One of the Brockville deputies, who at the time Pritchett's story was first told, made a solemn statement that he had reexcept the returning officer, now wears that he switched six ballots. He is one to whom Pritchett gave instruction and who was paid by the party managers at the usual price for each ballot switched. PARTISAN OFFICIAL

According to Sir Wilfrid Laurier Mr. Fielding has been a party to a grave election scandal. Sir Wilfrid

in July, 1905, assented to a resolution adopted by the House setting forth that " no official should be permitted to engage in partisan work of any escription in the election of a repre-entative to Parliament." The Prenier declared: "I have no heeitation at all in saying that I am ready on the part of the Government to accept this resolution." In the same speech Sir Wilfrid said : "The offipial who takes an offensive part in election campaigns makes himself and his party a scandal." Sir Wilfrid Laurier showed his bad faith not long after when he allowed his Minister of the Interior to engage a of Mount Washington, began a speech, Government officer at Edmonton to which the crowd of visitors had begg take part in the autonomy election ed from him, with the felicitous pun: fight, to distribute campaign funds. of beer for the Galician voters as an been born and brought up here! inducement for them to attend poitiacl meetings, and generally to make himself as offensive as a partirs proved to have been bribed now san could be. HOW CONSISTENT.

A few years ago the Government had inquisitors all over the country investigating charges against postmasters, some of them receiving not more than \$10 a year salary accused of attending political conventions or sitting on a platform at a political meeting or expressing a partisan opinion at a cross roads conversation. Now Ministers themselves call out regular salaried officials to do their campaign work in direct opposition to their own pledges and to a resolution of Parliament which they supported. \$100,000 MORE FOR RIDEAU.

Speaking of pledges, readers may remember the speeches which used to be made about the cost of napkins, cutlery and other small articles bought for Hideau hall. A few thousand dollars expended in improvement on the Governor General's residence formerly threw the Liberal opposition into dangerous bysterics.

The expenditure on Rideau Hall in the last ten years has been about double that of the previous ten. Now the announcement is made that the Government is about to build a \$100. ooo addition to the premises.
