

Signal

GODERICH, OCT. 17th, 1867.
Dinner to Messrs Cameron and Gibbons.

The Reformers of South Heron have determined to give Messrs. Cameron and Gibbons a Public Dinner, to take place in Carmichael's Hotel, Seaford, on Wednesday, the 23rd inst. A strong committee has been formed, and every exertion will be used to render the affair a splendid success. Seaford has been selected as the best locality for the demonstration, on account of its greater convenience to the majority of the municipalities. We hope to see a great turnout of liberals on the occasion.

Italian Affairs

The Italian question is becoming daily more serious. The people of the Kingdom are in such downright earnest that it is now the general belief that Victor Emmanuel will soon pass the Roman frontier and proclaim Rome as part of the Kingdom. Of course my such movement on the part of the King would necessitate the liberation of Garibaldi, who would at once resume his position as the active leader of the grand movement in progress.

THE FENIANS AGAIN.

The Ottawa correspondent of the Globe says:—There is a report that several carloads of arms have been discharged at Potomac or Malone for the use of the Fenians, and that they have been conveyed into the country bordering on the St. Lawrence, and secreted by respectable people at Prescott and other points down the river.

The name writer says:—"The members of the Local Government of Nova Scotia have tendered their resignations to Sir F. Williams; but he declines to receive them, as he contends that his appointment was only provisional. He leaves for England on the 24th inst. and says, 'Doubtless will be sworn in, when the new Local Cabinet will be organized from the victorious party.'"

THE SILVER QUESTION.

On this question a correspondent writes:—"As a business man in this town, I heartily agree with you that legislative action is necessary, but I think something might be done in the meantime. As a large portion of the money that comes into our towns and villages is paid for produce, why should not the farmers resolve to take silver in part payment of the present produce. American silver is worth at least a per cent less than gold, and if a farmer is obliged to take \$10.00 in halves and quarters on the price of his land he virtually loses 40cts by the transaction. Not a bad thing for buyers who take in perhaps 20 or 30 loads a day. Strike at the root, farmers, if you wish to abolish the evil."

Fenians in Britain.

By late telegrams we learn that a fresh rising of Fenians is apprehended in the North of England. To checkmate the movement supposed to be going on secretly troops have been hurried to the suspected quarter and the police force strengthened and armed. These deluded people will trifle with the government too often or it is evidently the determination of the British Government to put down Fenianism with a strong hand and once for all. It is high time to resort to measures more effective than the unavailing milk and water of moral suasion.

W. W. Connor, to Wit.

Mr. W. W. Connor, who holds some prominent position amongst the Orangemen of this County, took occasion at a soiree given under the auspices of that body at Seaford, some days ago, to advise his hearers, (nineteen men and boys) not to take the Signal, because that on the 12th of July last it had misinterpreted the extraordinary statements made in the course of his 'oration.' Now while we can afford to smile at the mimic thunder pumped by this exalted gentleman, we are positive that he did state distinctly what we took down from his lips in short hand, namely: "He wished to tell them that a Protestant who was not an Orangeman was no Protestant at all." Mr. Connor says he can bring twenty men to prove that he did say so. Perhaps he can; but we can bring fifty who are ready to prove that he did use the language we reported. Mr. Connor is at liberty to rail at the Signal as much as he pleases; but so far from obeying his extra judicial orders in this respect, we think the Orange fraternities, when the proper time comes, will be more strongly disposed to select for their representative a man who can present their views in accordance with the simplest rules of common sense. We hope Mr. G. understands what we mean.

A mill stone burst in St. Catharines a day or two ago, scattering stones about violently and injuring one man.

BLASTIONS IN THE STATES—FOURBAMBO.

The recent elections in the States prove conclusively that the country is about tired of the rule of the Republican party. Pennsylvania has followed the example of California in electing the Democratic ticket, while the Republican majority in Ohio has been brought down immensely, the constitutional amendment for the enfranchisement of the negro being rejected by a sweeping majority in both States. These results are somewhat remarkable, considering the strong hold the Republicans had upon the country, and it is not to be wondered at that the leaders of the party are growing uneasy. If the ground has to slip from under their feet in this fashion, how are they to humiliate the refractory President or carry out in its entirety the policy of the Woodbury school of politicians?

The most striking feature of the situation is the fact that in Northern States—even where Republican candidates are elected—there is a systematic refusal on the part of the people to extend the right of suffrage to the unhappy negro. For four years, during the war, the black was glorified as a man and a brother. He had rights as human and as inalienable as the white man, and he was to be regarded as the white man's equal. But now, the issue has turned. The bigger sticks in the nostrils of abolitionism are of your, and it is right, proper, and the bounden duty of every good citizen to see to it that he does not vote the right to vote. Oh consistency! You Freedman's Bureau, and military rule, and the derelict down South, for political purposes, but he is given to understand up North that the Ballot box is to him a sealed institution. The anomaly involved in such a state of affairs must strike every intelligent mind.

THE COFFIN DINNER.

The dinner is Seaford promises to be a grand affair, and we trust as many as possible of the liberals of the various municipalities will turn out on the occasion to do honor to our representatives. There will be a good attendance, we believe, from this town.

THE FENIAN ALARM STILL CONTINUES IN BRITAIN.

The receipts of the Great Western Railway, for September were \$334,988 against \$267,311 same month last year.

THE HAMILTON SPECTATOR ARGUES THAT PRINCE EDWARD SHOULD ENTER THE CONFEDERATION.

As a reason why Prince Edward should enter the Confederation that Massachusetts and South Carolina have held leading positions in our American Union, and Georgia, respectively. On the same principle our contemporary might hold that Nova Scotian statesmen are just as likely to take the lead in our Dominional politics as representatives from Ontario, which is as much larger in proportion.

FRUIT—More money will be brought into Heron this year for fruit than ever before, and the quality is really splendid.

The pioneer steamers of the Abyssinian expedition, have sailed from Aden for their destination. One editor in Georgia asks another "whether he can hit the bottom of a frying pan without smothering his nose."

REFORM MEETING.

A meeting of the reformers of Goderich T.P. will be held at Mr. Jos. Torrance's on Thursday evening the 17th inst., at 6 o'clock, to appoint delegates to attend a meeting to be held at Brucefield on Wednesday 23rd, for the purpose of forming a Central Reform Association for the South Riding of Heron.

THE U. S. BONDS.

In a recent issue we spoke of the plan for covering the 5-20s into greenbacks, and set getting rid of the large annual payment of interest in specie. The N. Y. Herald's commercial article of Friday bears out the position. Referring to the rise in gold, it says:—"Several causes operated to produce this sudden upward movement, the most important of which is the project for paying off the funded debt in legal tender notes, and the fact of the rise in gold, which is now giving rise, and which goes to show that there is a growing sentiment in favor of this method of liquidating the debt by converting the interest bearing debt into non-interest bearing currency. The impression very generally prevails that Congress will act on the subject during the next session, and there is no doubt that the great majority of the people will favor the plan of redemption in legal tender notes, the more particularly as with the exception of one loan, the government has not redeemed any of the principal in coin, although it was originally understood that payment was to be made in gold. The foreign bondholders will not doubt be greatly disappointed by the change in public opinion on the question, and bonds may be returned in consequence; but it is not to be feared that the change will do much to injure the cause, whether it happens to be right or otherwise."

REPROOF FROM THE PULPIT.

The Rev. Mr. Shira, Kirkcaldy, could never endure to see any of his flock attend public worship on any day but Sunday. On Sunday, a young lady who attended his meeting house regularly, and was personally known to him, came in with a new bonnet of greater magnitude and more richly decorated than he thought her to wear. He could not help being annoyed by the change in public opinion on the question, and bonds may be returned in consequence; but it is not to be feared that the change will do much to injure the cause, whether it happens to be right or otherwise."

PLUGHING MATCH.

The Annual Ploughing Match of the Township of Colborne, will take place on Wednesday, 20th inst. On the farm of Mr. James Salter, Lot 7, Concession 2. Plowing to commence precisely at 3 o'clock, and to be open to all competitors from Wawanosh and Ashfield, by the payment of \$1, except previously subscribed. Boys to be under 21 years of age.

P. ROBERTSON, Sec'y.

EVERYMAN FOR HIMSELF.

When I sit fast, and brood about, I think of the many who are so miserably poor, and I wonder how I can do anything to help them.

When I sit fast, and brood about, I think of the many who are so miserably poor, and I wonder how I can do anything to help them. I have a heart for the poor, and I would like to see them all well and happy. I have a heart for the poor, and I would like to see them all well and happy. I have a heart for the poor, and I would like to see them all well and happy.

THE ZURICH SHOW.

The independent exhibition of the Zurich Agricultural Society was held in that village on Friday the 4th inst. The attendance was good, although not so large as formerly. On the ground we noticed some good, servicable cattle, splendid horses, and fine sheep and pigs, the breed of the latter having been introduced, we were told, by R. Brown, Esq., of York. The inside show was very good indeed. The wheat and other grain was the best we have seen at any of the local exhibitions, and the fruit decidedly superior. It would be difficult to find better apples, peaches and pears than those which graced the table. We have to thank the gentlemen who offered their kind attention to us on the occasion. At night there was a dance, as usual, which was interrupted by one of the savages fighting we ever witnessed. Some of the Germans were set upon by a party of young Irishmen, and the former do-

SEAFORTH GIBBONS.

On Saturday morning, the fine new tavern belonging to Mr. Richards, at the station, was burned to the ground. The furniture was nearly all saved, but a fine time was spent in recovering the property.

SEAFORTH GIBBONS.

On Saturday morning, the fine new tavern belonging to Mr. Richards, at the station, was burned to the ground. The furniture was nearly all saved, but a fine time was spent in recovering the property. The fire was caused by a candle which had been left burning in a room which was not used for some time. The fire spread rapidly, and in a few minutes the entire building was in flames. The firemen were called in, but they were unable to save the building. The loss is estimated at \$10,000.

THE CANADIAN APPLE TRADE.

The Kingston News says:—"The various qualities of Canadian apples have long been noted for their excellence. They are now being sent to the United States in large quantities, and are selling at a high price. The trade is becoming very active, and it is expected that the season will be a very successful one."

MARRIAGE AND HOUSEKEEPING.

There are a great many persons who are just beginning life, that are newly married, and that are just turning, I trust, away from the hotel and the boarding house to keep house, for I think that next to virtue, the most important thing in life is to be able to keep house. It is a very important thing, and it is one that is not often talked of. It is a very important thing, and it is one that is not often talked of.
