### Nova Scotia Underwear Co.

Its Desirable Location

The mills are located at Eureka, in the heart of the sheep-raising district of Nova Scotia, with a near supply of raw material, excellent water power, and the best class of labor always available.

Its Extensive Market

Nova Scotia has a continent-wide reputation for knitted woolen goods, largely due to the peculiar quality of Nova Scotia wool which makes it particularly suitable for the manufacture of underwear in which this Company excels. Orders have already been booked which will tax the capacity of its mills for the balance of the year.

Its Exceptional Yield

We refer now to the 7 p.c. Preferred Stock of this Company, which we offer at 24 p.c. to return the very handsome yield of 7 1/4 p.c. As there are no bonds or other fixed charges against the Company the Preferred Stock ranks as an unusually attractive and well-secured investment. Your enquiry for further information, in person or by post, is welcomed.

## Minimise The Loss.

Practically farmers may easily minimise the loss, due to a backward and cold season, by the judicious use of Sulphate of Ammonia as a fertilizer.

Sulphate of Ammonia contains over 20 per cent of nitrogen, as against 15 per cent in Nitrate of Soda, and is therefore more than 25 per cent better than nitrate of soda as a means of quickening and increasing the growth of crops.

The use of Sulphate of Ammonia has increased enormously of late years and it is recognized to be the most valuable fertilizer obtainable. By its judicious use the production of root crops per acre may be doubled, and the growth of late crops stimulated.

We invite the attention of Farmers to our special pamphlet on the best methods of using Sulphate, copies of which will be forwarded free to any address on application.

The price of Sulphate is moderate, and our terms are accommodating.

## Why Should Anyone Follow Higgins

### INTO THE REID-MORRIS CAMP.

Editor Evening Telegram.

Dear Sir,—I don't wish to do an injustice to Mr. Higgins, but I should like to know what special qualification he possesses to ask the Liberals of St. John's East to change their politics and follow him into the Reid-Morris Camp. I admit "Billy" is a good fellow, popular among the sports, eager to aid in football, hockey and other matches, but is his popularity a sufficient justification to me to change my politics. I have never voted other than Liberal. I and my fathers before me, since the days of '54, have always supported the Liberal cause. I voted for Mr. Kent in the last two elections. Now, I am asked by Mr. Higgins, for reasons good enough to himself if not to me, to follow him and if I can't vote for his colleagues, Howley and Bartlett, to split my vote for Higgins. Why should I? Higgins was talking Liberal politics until two or three months ago and was generally credited with a desire to oust Mr. John Dwyer from the Liberal team, so that he might find a place on it. When Mr. Higgins' "conversion" to the Tory cause was announced, the best explanation his friends could offer was the shameful one that he had been infatuated with the Liberal ticket. Bond and Kent refused to turn down Dwyer for him and when the chance to get on the Tory team offered he accepted. Apparently Mr. Higgins nor the friends who offered this apology for him saw what a confession of political immaturity this explanation implied. If he was sincere in his Liberal convictions and wished to fight for them and uphold them in the District of St. John's East six months ago, and this is the only reason he can offer to account for the change he must now inwardly condemn the Government and the policy he advocates. In other words he is a hypocrite. Now can he show me any good reason why I should act likewise. It does not profit me to vote for Morris or Bond. I am not getting anything out of politics. I am an ordinary Liberal worker.

"Some men," the editor of the News stated a few days ago, "change their opinion from conviction, others for a consideration." I at least shall not be among the class that changes for a consideration. Whether Mr. Higgins has changed from conviction or for some reason sufficient unto himself I wish to inform you that the great majority of his sporting friends are not so fickle minded as he is. He may get a few split votes but when the ballots are counted he will find the number very small. He will find, moreover, that the 1,800 votes obtained by Gibbs was a straight Tory. Gibbs was a straight Tory, had never been anything else and under the circumstances polled a wonderful vote, so much so that he could not believe he was defeated until nearly the last ballot was counted. Let me ask "Billy" Higgins what strength he has among the sporting voters of the town compared with the strong labor vote Gibbs brought to the Poll? I cannot see it, I cannot see the change. Why all this talk among the heeled of Higgins going to head the poll? Bluff! Just that and nothing more. The very fact that these same men ignore Howley and Bartlett in their canvassing is proof that their best hopes are to squeeze Higgins in as the third man. Howley who scuttled out of Placentia knowing the District had gone dead against the Government is aware he is leading a forlorn hope. As for Bartlett, another "rat." Will some one rise and explain what magnetism oozes from Harry Bartlett that all the "longshoremen" who work on Harvey's steamers should be expected to follow him like sheep and vote Morris or Reid as he tells them, and this is the team composed of two renegades—liberals and the man who was afraid to face Placentia who are going, according to these venacious writers P. T. and J. A. R. to sweep the East End. Not this time.

LONDON, To-day. Rt. Hon. Sir Walter Francis Hely Hutchinson, Governor and Commander-in-Chief of Cape Colony, from 1901 to 1910, died yesterday.

BUCHAREST, To-day. The betrothals of Prince Charles of Roumania to Grand Duchess Olga of Russia and Crown Prince George of Greece to Princess Elizabeth of Roumania will be announced at an early date.

MADRID, To-day. Avanzah Premier announced that Spain would participate in the Panama Pacific Exposition at San Francisco. The desire to participate is understood to be due greatly to the influence of King Alfonso, who particularly desires to see Spain officially represented.

SANTA DOMINGO, To-day. The revolution has been limited to Puerto Plata, Moca and San Juan in the Northern part of the Republic. All other parts of the country are reported quiet. Foreign residents are in no danger of conducting various business, travelling without fear of being molested. The blockade however continues at Puerto Plata Santa.

LONDON, To-day.

The announced by the Admiralty that a fleet comprising eight battleships and three battle cruisers will be sent to the Mediterranean early in November, coupled with the dispatch of four large armoured ships which will have their base at Bermuda indicates a radical change in British naval policy which on account of friction with Germany has kept practically all fighting units near home for several years past. The Mediterranean fleet after the manoeuvres will cruise as far as Alexandria. With the vessels already in those waters, the visiting fleet under Vice-Admiral Sir Stanley Colville will make the most imposing naval demonstration ever attempted by Britain in the Mediterranean. The fourth cruiser squadron is leaving England on September 29th and will proceed direct to Bermuda. It is due there on October 10th, after which the ships scatter and visit various ports in the Caribbean.

## An Old Will.

Editor The Evening Telegram.

Dear Sir,—When at my old home, New Bonaventure, Trinity Bay, a short time ago among the papers I came across a copy of an old will, of my great grandfather, Samuel Miller, Boat Keeper, dated 1813. He was then advanced in years and must have come out to this country some where about 1750, from Sydney, near Poole, England. There were seven brothers and one sister named on the will.

Yours truly,  
A. W. MILLER

## McMurdo's Store News

WEDNESDAY, Sept. 24, '13.

Our Dutch Flowering Bulbs have arrived and will be open and on sale in a day or two, of which further particular notice will be given. The list will include Hyacinths, Tulips, Narcissus, Crocuses, Spanish Iris, Snowdrops and Polyanthus Narcissus, and the bulbs, being carefully selected, will, we believe, give the finest and most perfect blossoms. These bulbs are direct from Holland, and are supplied by one of the largest and most reputable bulb farmers in that country, which is the home of the flowering bulb.

Williams' Elder Blossom Soap is an excellent specimen of the soap makers' art in manufacturing good soap for general use at a moderate price. A bar of well dried soap, weighing half a pound, and suitable for all but the most delicate purposes for which soap is used, and bearing the imprint of a famous soap maker, for 15 cents, will be admitted to be good value. Why not try a bar?

## Our Trembling Cities.

The heavy motor-bus traffic near St. Paul's, London, has shaken and cracked the columns of the cathedral so seriously that the Government is considering how the vibration can be lessened.

All large cities, however, are in a constant state of vibration. In places like London, Manchester, and Birmingham there is not a square inch of soil that is perfectly still. In some large towns it has been found necessary to insist on iron drainage pipes being used instead of earthenware ones. Though embedded in concrete, the average earthenware drain-

age pipe lasts only a few weeks uncracked.

Last autumn Professor Ingleton experimented in different parts of London with a seismometer—the instrument used for measuring earthquakes. He found that though the trembling of the earth was natural, less in the suburbs than in the City, and between 1 a.m. and 6 a.m. than at other parts of the day, the constant vibration was such as to make a seismometer in London useless for its real purpose of registering far-distant earthquake shocks.

Of recent years there has been some talk of finding a fresh site for Greenwich Observatory, owing to the vibrations set up by the London traffic.
