Standardized Packages.

The standardization of fish containers, particularly those containing varieties of pickled fish is at once an establishment of confidence in buyers and a stabilization of prices. Instructions have been recently issued by the Newfoundland Fisheries Board for the making of standard barrels for the Scotch method of pack. These instructions are very clear and concise and go into all the details of the quality of stock to be used in the making, as well as defining the exact measurements for the guidance of coopers, the numbers of and material from which the hoops should be fashioned, and the process of heading and hooping before the barrels leave the coopers. If these instructions as to measurements are closely followed, it will mean that no matter who makes these packages, a uniform size will be the result, and each will contain the complement of contents expressed—no more and no less. We presume that such instructions have been duly distributed amongst all those who are makers of Scotch pack barrels for herring. But could these not go farther? Why not standardize the ordinary pack herring barrel, or boxes in which smoked and kippered herring of Newfoundland put up are shipped? In addition there should be vigorous and constant government inspection, in order that no inferior qualities of herring or other pickled fish be permitted to be exported under the grading of No. 1. Such a regulation is imperative if we are to preserve the reputation of Newfoundland fish products, because government inspection should be an absolute guarantee of quality and quantity, and, to quote a contemporary "supplements standardization to the extent of making the foreign buyer as sure of his purchase as though he were buying a long-established and reputable non-perishable article." The Canadian Government has seen fit to take up the matter of the standardization of fish containers, and it is encouraging to note that packers in the neighboring dominion are voluntarily adopting such containers. Let us hope that local packers will fall in line with the suggestions and instructions of the Fisheries department and also voluntarily adopt the scale and measurements of herring containers as laid down. There is no hardship entailed, but there is the added reward, not only of good prices, but of holding markets which require immense quantities of pickled and smoked fish. As we have always contended, the brand "Newfoundland No. 1" should be an absolute guarantee to purchasers that they are getting the very best fish food that the world can supply. In another column to-day we publish the Canadian Government standardization regulations. Taking these by and large with those already issued by our own department of Fisheries, packers should have a good basis upon which to work for the improvement of their quality of pickled fish put up for export.

Newfoundland Press Association.

PRELIMINARY MEETING YESTERDAY.

A meeting of representatives of the press, convened by Hon. Dr. Modell, was held in the office of the Trade Review yesterday afternoon. Present were Hon. Dr. Modell, Messrs. J. S. Currie, J. C. Puddister, Peyton, D. R. Thistle, B. B. Stafford and C. T. James. Several others, who had been invited, were unavoidably absent, but promised support to the movement. After some discussion, it was decided that a Newfoundland Press Association be formed, the first Chairman being Hon. Dr. Modell, with Mr. C. T. James, Secretary-Treasurer. A Committee will be appointed later to frame a set of rules and regulations for the governance and discipline of the Association.

Naval Prize Money.

FINAL DISTRIBUTION BEING MADE.

We have been informed by the G.W.V.A. that the second or final distribution to Naval Prize Money is being made to those who are entitled to share in the first distribution, and the amount payable is approximately fifty (50) per cent. greater than the first payment. Ex-members of the Royal Naval Reserve (Newfoundland) are advised to communicate with the Prize Money Branch, Admiralty, Whitehall, London, S.W.1. where forms can be obtained. The G.W.V.A. are however in touch with the Admiralty with a view to having a supply of forms forwarded their office for distribution on demand. This should obviate any further delays.

Enquiry Continues.

WITNESSES IN MURDER CASE EXAMINED.

The preliminary enquiry in the Chinese murder case was continued yesterday afternoon before Judge Morris, and the evidence of Constable Bishop, Chesley Noseworthy and Kim Lee was taken. A statement made by the accused, Wo Fen Game, was also put in. The hearing will be resumed to-morrow afternoon, when other witnesses will be called.

Typhoid at Twillingate.

Several cases of Typhoid Fever of a mild type have been reported to the Health Authorities from Twillingate during the week. Doctors LeDrew and Wood are attending the patients and taking the necessary precautions against the spread of the disease.

Coming On Digby.

Earl Spicer, Canadian baritone, is expected to arrive here on the next Digby and will give a recital in aid of the city orphanages and the Permanent Marine Disaster Fund. Mr. Spicer has made a big reputation in England, where he has performed in many celebrated concert halls. It will be remembered that he assisted at Miss Marjorie Hutchings' recital some time ago. In his own recital, local artists will assist.

Property Transfer.

A part of the property at Cape Broyle, owned by Sir Michael Cashin, and sold by him to a St. Pierre business man, has been purchased by the R.C. Corporation for the sum of \$7000. This purchase includes the dwelling and grounds on the upper side of the road, but not the water side premises.

Looking for Carpenters.

BERMUDA WANTS FIRST CLASS TRADESMEN.

Yesterday Mayor Butler of the Employment Bureau received a message from Bermuda, asking if he could supply immediately a number of first class carpenters. An offer of good wages and a satisfactory agreement for one year's employment was made, if the right class of men was selected. Mayor Butler is engaged in getting the men, who will be required to furnish a bond for their behaviour. Owing to a recent storm at Bermuda, during which nearly one million dollars worth of property was destroyed, it is expected that an avenue for employment on a large scale will be opened up, and should the contingent of men, now being sent, prove up to expectations, others will be sought. The present enquiry for men is apart from the help sought by Hon. J. P. Hand for the building of an hotel.

SAGONA AT BLACK TICKLE.—S.

S. Sagona, Capt. Thorne, arrived at Black Tickle yesterday evening, and reports a strong north west wind with snow showers. The ship will have to remain in port until weather moderates before calling at Spotted Islands where she began to pick up crews for south.

Had Good Luck.

AMERICAN SPORTSMAN LEAVES.

Morris Ackerman, American Sports Writer, who had been hunting caribou, near Terra Nova, wired the Newfoundland Company from Gumbo that he had good luck. Mr. Ackerman leaves by to-day's express for the States and will contribute articles to various American papers, and sporting journals, dealing with the opportunities which Newfoundland offers to the sportsman. He has already sent articles to the Newspaper Enterprise Association, and these have been syndicated throughout Canada and the States. In one, dealing with the fishing offered by this country, he says "It offers the greatest number of Atlantic salmon and sea trout streams of any like area in the world."

McMurdo's Store News.

THURSDAY, Sept. 28.

Among new goods, lately arrived, we have just opened a consignment of Canvas Body Belts of the very first quality. The belts are well and strongly finished with the buckles in front, elastic in the sides, with flexible bones giving good support in the back. They are moderately wide and made of the best light canvas, and though strong, are not heavy. One of these belts will last for years, and give good service all the while. To one who wants a really superior body belt we can recommend these belts to the full. Price \$4 each.

Will Supply Railway.

COAL CONTRACT AWARDED.

The contract for supplying coal to the railway has, we understand, been awarded to Mr. P. J. Cashin, who submitted the lowest quotations. The tenders were called for some time since and practically all the city dealers submitted figures. The amount of coal required is in the neighbourhood of twenty-five thousand tons.

Feildian Dance.

WILL BE HELD NEXT MONTH.

The Feildian Executive Committee and last year's Dance Committee met at the West End Restaurant last night and discussed preliminaries in connection with the annual dance, which this year, will be held on October 15th. The proceeds will go towards the fund for the improvement of Bishop Feild College playing fields, and, as last year, it is expected that all Old Feildians will co-operate. Many novelties will be introduced at the dance and some new music is being obtained.

K. of C. Memorial.

MURAL TABLET READY FOR ERECTION.

The Mural Tablet for the K. of C. Memorial School has now arrived and will be erected shortly. It is of bronze and contains the following inscription:

"This Memorial School was erected by Terra Nova Council, No. 1452, Knights of Columbus, in honour of its members who gave their lives in the great war." The following names are also inscribed on the tablet. All were killed in action.

Pte. J. M. Fitzgerald, Capt. M. F. Summers, Lieut. S. C. Norris, Capt. J. J. Donnelly, M.C., Capt. A. O'Brien and Lieut. F. M. Burke.

Wedding Bells.

HARRIS-THISTLE.

Witnessed by a large gathering on Tuesday night at 8 p.m., a very pretty wedding took place at Gower Street, St. John's. The happy couple being Mr. Allan Thistle, son of Thomas and Mary Thistle, Broad Cove, and Miss Mary Harris, daughter of Mary and late Benjamin Harris, Port aux Basques. The bride looked charming in a costume of navy blue, with hat toques, and was given away by Mr. Robert Miller, who also acted as best man. Miss Ethel King, Notre Dame Bay, attired in white silk, acted in the capacity of bridesmaid. After the ceremony the happy couple motored to the residence of Mrs. Peter Thistle, Clifford Street, where a sumptuous repast was partaken of. The bride was the recipient of many costly presents.

Missing Sailor.

FOUND AFTER FOUR YEARS.

The Newfoundland sailor named Murphy, whose whereabouts have been puzzling the Militia Department for some time, has turned up after wandering about England for four years, and has claimed the \$1,300 coming to him from the Pensioners Department. There are several other ex-members of the Regiment who have claimed neither their gratuities nor their pension money, and a large amount lies at the Department of Militia awaiting distribution.

TO-DAY'S MESSAGES.

GREEKS WILL NOT ABANDON THRACE.

LONDON, Sept. 27. The essential feature of the Greek revolution, according to the Athens correspondent of the Times is a patriotic determination not to surrender eastern Thrace. The revolutionists, he says, seem less hostile to Constantine than the patriots opposed to former Premier Gounaris. Many of them are Venizelists, but there are a considerable proportion of Royalists, who are determined to have the support of the Allies, even at the sacrifice of the King. Importance is laid on the immediate recognition of the Crown Prince as George II. by the Allies, it being feared that if recognition is refused or delayed, republican elements, which are threatening to take most extreme action, may increase in strength. It appears certain the correspondent declares that revolutionaries are prepared to resist to the utmost any Turkish attempt to occupy Eastern Thrace.

FIFTH VIOLATION BY TURKS.

CONSTANTINOPLE, Sept. 27. Kemal forces have occupied positions in the region of Dumbek, Lamp-haki, Yaghlari and Sangakeli, all in Neutral Zone of the Dardanelles. This is the fifth violation of the Zone. Remonstrances by British officers failed to stay the advance of Turks.

ARMY AND POLICE REMAIN LOYAL.

ATHENS, Sept. 27. Battleship Lemnos has sent a radio message to the entire navy, seeking for its adherence to the revolution. It is reported that the Lemnos arrived at Piraeus, seaport of Athens, this morning, and is stopping all ships carrying officers and troops. These are being forced to join the revolutionary movement. Shots were fired in the streets of Athens at eleven o'clock. About one hundred officers of the army and police paraded through the Place De La Constitution, shouting "Long Live the King." They were followed by several tram cars filled with civilians who raised the same cry. Gradually a crowd formed behind the officers, and several officers showed that the revolution was bluff, engineered by a few men, and that the Government should not yield to the revolutionists.

A ROYAL PRISONER.

CONSTANTINOPLE, Sept. 28. Former King Constantine is reported as being imprisoned by Revolutionaries at Athens.

KEMAL'S REPLY IS EVASIVE.

LONDON, Sept. 28. British Government circles this morning, took a grave view of the Dardanelles situation, which is regarded so critical as to overshadow the revolutionary development in Greece. It is considered that there are greater prospects of fighting between Britain and Turkey than at any previous time. Cabinet convened this morning to consider a message from General Harrington, summarizing Kemal's reply to the warning against his occupying the neutral zone. The Turk's reply is evasive and ambiguous.

TURKS ARE AGGRESSIVE.

CONSTANTINOPLE, Sept. 28. Turkish Nationalists have warned the Allied high command that they will not tolerate the fortification of certain points in the so-called neutral zone of Dardanelles. Any continuation of the work of fortification will be looked upon as warranting military action, their representative, Hamid Bey, informed General Harrington. Movements of Turkish troops continued yesterday, when for the fifth time they violated neutral zones, and took up new positions. In spite of these actions, a communication from Kemal, yesterday, declared he would respect the neutrality of the Straits pending result of the conference.

PRINCE SALUTES REBELS.

ATHENS, Sept. 28. A Venizelist newspaper says the revolution, so far bloodless, has spread throughout the country. Prince Paul, Constantine's youngest son, was in the training ship Helle, when the navy revolted, and when the Lemnos sent a Radio to the Helle, asking if Paul wished to join the new Government. The reply came back, "I salute you brothers."

MAY BE DEAD BEFORE HE KNOWS IT.

PARIS, Sept. 28. "I wish to be considered dead," was the reply of Mr. Venizelos to a question as to the part he might play under the new Government of Greece, according to Dearville correspondents, who attempted in vain to penetrate the seclusion with which the former Premier of Greece surrounds himself.

BY POPULAR DEMAND.

ATHENS, Sept. 28. Constantine's abdication was carried out amid dramatic scenes, when a mob surrounded the Palace, demanding his dethronement, and declaring "we are resolved to dethrone the author of Greece's misery." It was not until the mob threatened to seize the person of the sovereign that an emissary appeared at a balcony window of

the Palace, announcing the King's abdication. Constantine named his son George as his successor, and offered himself for military service in aid of the new Government.

ORIENTAL SIMPLICITY.

LONDON, Sept. 28. Two views are taken of Kemal's military action into the Neutral Zone. One, that under cover of cavalry, he may be bringing up material and artillery, and doing all possible to make the British fire the first shot. The other view is that he may be truthful, and unaware of the boundaries of the Neutral Zone.

Government Buying Horses.

MANY PURCHASES MADE.

During the past week the Department of Agriculture and Mines has been busy buying horses to be used on the Deer Lake Road. Quite a number of animals have already changed hands at respectable figures, although \$200 is said to be the limit. At least one 25 year old flatfoot quadruped has been bought for near this figure. Every effort has been made by the department to keep the purchasing secret, but the news quickly spread, and the Crown Lands office has been besieged with horse owners, all eager to unload. So great was the rush during the past few days that it was announced that purchasing had ceased. Since then other horses have been purchased on the streets and the sellers, in some instances, unharnessed their animals on the street where they stood at the time of sale. So far as can be learned the Government is buying 13 more horses to complete the complement, and it is believed these will be sent to the lumber woods where the Government has men engaged at pitprop cutting. If this is not extravagance of the first satisfactory than that at present in all the Campaign Manager for the Government is still going strong for an early election.

Motorists Meet.

WANT ACT AMENDED.

Amendments and additions to the Motor Act were discussed at the meeting of the Executive Committee of the Newfoundland Motor Association held at 1 p.m. to-day. The most important matters debated were the speed limit and the prevention of the stealing of cars. With reference to the speed limit, it is thought that 15 m.p.h. for the city would be more reasonable, what is? Taking it all in force, while instead of heavy fines, endorsement of licenses might prevent excess speed. The Act does not provide any penalty for those convicted of stealing cars, and this matter requires attention.

Shipping Notes.

S.S. Canadian Sapper sailed from Charlottetown on Wednesday at 10 p.m.

S.S. Digby will not leave Halifax until the 30th inst. The ship is scheduled to sail from here for Liverpool on October 3rd.

Schooner Gerda has sailed from Westville for Alicante with 3,000 quintals shore fish.

Schooner Stanley G. Barbour has arrived at Trinity from Labrador with 800 qtls. codfish.

Schooner Gordon E. Moulton is loading 6,000 qtls. codfish at Burgeo for Oporto from the Burgeo and La Poile Export Co.

S.S. Silvia arrived at New York to-day.

AT THE BALSAH.—The following are guests at Balsah Place.—Mrs. L. A. Whitman, Mr. Grace, E.C. Brown, King's Cove, B.E.
