

SPORTOGRAPHS

CADETS 1923 CHAMPIONS.

With only seven minutes to go for full time last night, the Cadets scored the one and only in their game with the Felidians. It was on a pass from Mike Flynn that Walter Callahan trapped, and his fast low one made secure the 1923 championship. Had the Felidians won it would have necessitated the Cadets playing off with the Guards, who are runners up. Good weather, a good crowd, and a good game was the result of the final. The ball had not long been centred when Withers dropped a beauty into O'Connor's arms, which he fumbled, and it just missed. This was the beginning of many thrills but the college boys were out of luck. Goldstone crossed the ball off the post on one occasion which caused the crowd to gasp, while another hot one from Ewing made Walsh tip it over the crossbar. The Felidian defence were playing true to form and gave a wonderful exhibition.

On crossing over the Cadets assumed a strong offensive, and the ball being kept in Felidian territory made many corners the outcome. Do as they might the change could not get it through. Midway through this period play was general and of the give and take variety—each looking for a weakness in the opposing ranks. The game had every appearance of being good for a draw when Callahan on Flynn's pass scored. The remaining few minutes of the game produced some very fast and clever play, but no scoring resulted.

The Cadets have had a wonderful season, never once having tasted the bitter dregs of defeat. Two goals only were scored against them, and this was by the once famous Star team. The Telegram offers its hearty congratulations to Capt. Mike Maddigan and his gallant crew and to the Corps they represent.

THE HALIFAX WANDERERS.

The following is an editorial which appeared in the "Halifax Herald" on the last night:

The Wanderers Amateur Athletic Association, of Halifax, has been for a great many years the synonym of clean sport. The association has carried on through the ups and downs of athletics, ever standing for the inspiration of true sportsmanship and seeking to develop the instincts which make for both sound mind and sound body. Wherever the name is known, and Wanderers are known from coast to coast—it is suggestive of a long record of athletic achievement of the Canadian leadership in this regard.

On the fifteenth of September the Canadian open field and track championships are to be staged on the Wanderers' grounds in this city under the auspices of the association. No doubt the events will attract a roll of competitors who will represent the best types of every province of Canada; and the fifteenth will be a day memorable in the annals of Canadian athletics.

The world is taking a new lease of life in athletics notwithstanding political and economic upheavals. Hockey and the ball game attract their hundreds of thousands; cricket is flourishing in the old land and the Dominions; tennis and golf are great international as well as national sports; and the world's Olympic Games receive the endorsement of governments as well as individuals. Everywhere the force of the saying a sound mind in a sound body is appreciated. The great meeting of Canadian athletes on the grounds of the Halifax Wanderers this season may be looked forward to with pleasurable anticipation.

THE CUP SERIES.

The Tie Cup series will be drawn to-day, and the first game will be played on Monday night next. It will be on the knock-out system.

TO-NIGHT'S GAME.

The Juniors will be in action to-night with the Guelphs and T.A.'s, striving for honours. A good game is assured. Fans are reminded that it begins at 6.30 sharp.

NICE GIFT FOR CRICKETER.

London, Aug. 26.—During the lunch interval at Leyton yesterday where a cricket match was in progress, Mrs. F.T. Mann, wife of the captain of the England eleven which toured South Africa last spring, on behalf of the subscribers, presented to A. G. Russell the Essex professional, a silver-plated tea service and a check for £25 to commemorate his double century in the fifth last match with South Africa during the tour.

TORONTO RUNNER LATEST ENTRANT IN CHAMPIONSHIPS.

Hector Phillips—running under the colors of the Young Men's Christian Association, of Toronto, and A. H. Beaton, of the St. Thomas Amateur Athletic Club, of Sydney, formerly of the Halifax Crescents A.C., are the latest entries for the 25th annual Canadian Open Track and Field Championships which take place under the auspices of the Wanderers' A.A.C. on

Saturday, September 15. Phillips is entered for the 440 and 880 yards runs and Beaton in the running high jump, standing broad jump, throwing the discus and putting the 16 pound shot. Other entries in Canada's biggest athletic attraction of the year include: George W. Sprague, of the Y.M.C.A., St. John; Victor McAuley, of the Wanderers' A.A.C., in the five mile event; Cecil Coaffee, of the Illinois A.A.C., formerly of the Winnipeg North End A.A.C., and holder of the Canadian records for the 100 and 120 yards and L. S. Armstrong, W. Miller, P. Heffelfinger, of Winnipeg, who with Coaffee will form the Winnipeg relay team. Armstrong is the holder of the fifty yards record of five and two fifths seconds. Entries from the Montreal A.A.C., who are expected to send a team of twenty-five or thirty men, has not yet been received.

HALIFAX TEAM SELECTED.

A special meeting of the A.A.A. was held yesterday at the office of the President, Mr. W. J. Higgins, to decide whether Newfoundland should be represented at the Canadian Championships on September 12th. It was unanimously agreed that Grant Burdell be sent to compete in the one mile walk, and Ron O'Toole and Jack Stan P. Cullen will be sent along as Manager. Through the courtesy of Mr. R. C. Harvey, manager of the Red Cross Line, accommodation was found for the party on the Silvia, so that the Newfoundland team will leave here at noon to-morrow.

Very sympathetic consideration was given to the merits of our sprinters and middle distance men, but it was felt that we have no material at the present that could be hoped to make a showing against the pick of Canada which it has been announced is competing. The championships will constitute the Canadian Olympic trials. The following are the times, heights, and distances made in the Maritime Championships held at Charlottetown on Sept. 1st, which may be of interest to local enthusiasts:

100 Yards—10 2-5
Shot Put—36ft. 5in.
220 Yards—22 1-5
Pole Vault—9ft. 10in.
1 Mile—55 seconds
High Jump—5ft. 5in.
1 Mile—1:43 2-5
Hammer Throw—107ft. 5in.
1/4 Mile—2:10
Broad Jump—30ft. 5 1/2

Victor McAuley won the 5 mile race in 27:53; O'Toole on Wednesday clocked off the 5 mile distance in 27:29 1/2.

QUESTIONS.

The Office Wit wants to know if the grandstand is a place to sit?

GREG WINS WORLD'S TITLE FROM WILSON.

POLO GROUNDS.—The world's midweight boxing championship passed from Johnny Wilson, of Boston, to Harry Greb, of Pittsburgh, in a lopsided fifteen round battle, before a small crowd in the Polo Grounds to-night. Greb won the judges' decision.

HERALD MARATHON IN EARLY OCTOBER.

The definite date of the 1923 Herald and Mail Modified Marathon will be announced Saturday morning, with October 13 as the probable date. It was planned to hold the date in September but in order not to conflict with other meets, October 6 has been suggested as the probable date.

MANY CHAMPIONS FOR BIG MEET.

Word has been received in Halifax that champions from nearly all of the upper provinces will compete in the Canadian track and field championships at Halifax, Sept. 15. This is the biggest meet held in the East since 1908, when the life meet was held at the local grounds. At that meet 7,000 persons paid to see the games. Cecil Coaffee, the world's fastest sprinter, and Joey Ray, great miler, will be the attractions.

ANSWERS.

To Justice: We are making the necessary official enquiries through Mr. McKenzie, who had charge of the entries in all events in the A. A. Championships. In to-morrow's issue we will publish your letter and the replies to your theories therein.

THE GUARDS SPORTS.

The final sports meet for the season will be held at St. George's Field on Wednesday next, when the twice postponed Guards Sports will be held. The programme of events has been rearranged and as some of the competitors in last Wednesday's sports were disappointed with races obtained in the Championships, this will give them a chance to retrieve themselves. Entries should be made to Mr. Stan Beaton, of the St. Thomas Amateur Athletic Club, of Sydney, formerly of the Halifax Crescents A.C., are the latest entries for the 25th annual Canadian Open Track and Field Championships which take place under the auspices of the Wanderers' A.A.C. on

GUARDS SPORTS COMMITTEE.

A meeting of the Guards Sports Committee will be held in the Club Room on to-morrow night at 9.30. All members are asked to attend.

S.S. Silvia's Successful Effort.
ON BEHALF OF THE MATERNITY HOME.

CAPTAIN H. C. MITCHELL, the Popular Commander of S.S. Silvia.

The effort started recently by the Captain and Officers of the S.S. Silvia for the furnishing of a private room in the new Maternity Hospital, was brought to a successful conclusion last trip when the splendid sum of \$99.55 was raised for this purpose and handed to Commandant Hurd by the purser this morning.

On August 28th while the ship was enroute to New York a Masquerade of \$44.30, this on Sunday, the 2nd inst, three being no clerics on board, and the Captain being kept on the bridge owing to thick fog, the church service was conducted by the purser and a collection amounting to \$10.80 taken. Again on September 4th a concert was held which netted \$23.35, making the total of \$99.55 mentioned above. This with the amounts previously contributed, making over two hundred dollars for the Silvia, which is more than the amount necessary for the furnishing of one room. It was the intention of those on board the S.S. Silvia to hold a concert last trip for the same worthy object, but owing to stormy weather, were unable to do so. Capt. James and his associates will undoubtedly make up abundantly for this delay when they get started.

Meanwhile it is the wish of Captain Mitchell that the balance over be placed to the credit of the Hospital. Captain Mitchell and his associates, besides the furnishing of this room, have volunteered to raise each year money to meet the support of the same.

Commandant Hurd, Campaign Organizer, is highly grateful to Captain Mitchell, and also the Purser, Mr. R. Robertson, and their associates for the assistance so willingly rendered for this most worthy object, and wishes on behalf of Colonel Chubb, Territorial Commander for Newfoundland and the Salvation Army to thank the gallant Captain and his Officers and the passengers for the generosity in this connection.

AFTERNOON TEAS AT THE BLUE PUTTEE.—Beginning Monday afternoon teas will be served to large or small parties. Tea, Chocolate or Coffee with those delicious sandwiches and dainty home-made cakes for which the Blue Puttee is famous, advance notice by telephone to insure prompt service. Phone 1016.—Sept. 11.

Spain's Troubles
Keep King at Home.

Madrid, Aug. 30.—King Alfonso has been forced to abandon his proposed trip to the Spanish-American republics during the coming winter on account of the gravity of the internal situation and the Moroccan war. The king received an invitation from President Deaulver of Argentina to come to Buenos Aires on a state visit for the purpose of patching up the differences between Spain and its children by an open demonstration of friendship a century after South America won its independence.

BILLY'S UNCLE

Another Lumberman

CONDEMNS THE EXPORT OF RAW TIMBER.

Editor Evening Telegram.
Dear Sir—Stephenville. Crossing Lumberman's letter of condemnation of the export of raw timber as published in your issue of the 24th, will have the support of every man in this district who has the interest of the lumbering business of the country at heart. I have no lumber mills lying idle like my neighbor at Stephenville Crossing, and others that I know of, but I am well aware that hundreds of young men in this district have had to seek employment in the Maine woods and elsewhere, because as Lumberman in his letter of the 24th says, "hundreds of miles of forest all round us are held up by certain parties in order to make a pile out of it some day." Neither H. J. Crowe nor any other company or corporation should in future be permitted to ship raw wood out of the country. If the Government be sincere in their promises of reform, they will see to it that the rights and interests of the people will be conserved in this respect, as against the demands of speculators and grabbers. Take a look around this district and you will find thousands of acres held up in this way in some places, and in others the forests actually mowed down in order to furnish pit props or pulpwood for exportation. Scores of young men and dozens of families are leaving this district this fall, not so much because of the failure of the fisheries or the want of employment, but because they are disheartened and discouraged at the manner in which they have been discriminated against in favor of the speculators and corporations who would lead the country to believe that their only object in coming here is the improvement of its people. By all means grant every reasonable concession to those who have capital to invest in the manufacture of finished products from our forests, but put up the bars against those cutting for exportation in a raw state.

Yours truly,
ANOTHER LUMBERMAN.
St. George's, Aug. 30, 1923.

every description came from England; now, none of those articles went from us to them. The same thing was taking place in other parts of our Dominions. In 1910 Canada produced 55 per cent. of the iron and steel required by her; in 1921, 70 per cent.; in 1920 Canada's 42,500 factories produced goods worth 4,000 million dollars; in one year—1919—1920—the figures rose from 36,000 to 42,000 as to the factories, and the capital involved from 3,000 million to 4,000 million dollars. But as countries increased in production our decreased, and unless we could produce something in substitution of what was lost we were going to be in trouble.

Newfoundland Parliament Prorogued.

STRICTER FINANCIAL CONTROL.

(From Our Correspondent.)
ST. JOHN'S, N.F., Aug. 19.
The Legislature was prorogued yesterday evening after completing its programme for the session. The Prime Minister made three important declarations before the adjournment.

He first announced that in thirty days the holdings of speculators in forest and mineral lands, some of whom had evaded the regulations of the Agriculture and Mines Department for years, would be cancelled in all cases where outstanding fees had not been fully paid. In the second place the outlays of the Audit Department, whose inefficiency had been demonstrated in its exercise of the Liquor Control, and of the Agriculture Department would be reorganized. Thirdly, any future compact for the remission of the annual taxes payable by certain Canadian corporations operating in Newfoundland would be submitted to the Legislature, instead of being sanctioned by Order in Council as hitherto. The reason for the last pledge is to be found in the grave stories which are in circulation concerning the previous compact which have been made.—Times, Aug. 20.

The Failure of Modern Education.

The most vital problem before humanity to-day is a true system of education. It is only as we train individuals and peoples to think, to use their minds and all their powers to highest efficiency, that we shall find any adequate solution of the moral, economic, mental, social, political and industrial problems that confront us. If the educators of the past had not failed in their great task, the world would not be in the condition it is in to-day, for with the parents and the educators rests the formation of character. Our ideals in education are wrong, our aims and purposes in teaching are wrong.

Lord Morris on Britain's Lost Trade.

Lord Morris, K.C.M.G., LL.D., Premier of Newfoundland for 1909-1918, at the Rotary Club luncheon at South- and recently, quoted some interesting figures. He said, "Prior to the war 34 per cent. of what went into Canada came from the United Kingdom; last year, from us, Canada took only 12 per cent. This was partly because Canada had learned to make for herself. Before the war, again, Canada took 53 per cent. from the United States; last year, 72 per cent. This was the natural result of living near a great country like those States. It was easy for a man in Canada to get on the phone about something he wanted with another in the States, and to get a specification next morning, instead of sending 3,000 miles to England and 3,000 back again. Nearly all his life he had lived in Newfoundland, where first the British flag flew outside her own Dominions. When first he lived there 93 per cent. of the people were fishermen, and the whole of their ropes, nets, etc., of

SIDE TALK.

By Ruth Cameron.

THE CONSCIENTIOUS OBJECTOR.

The best way to grow old gracefully is to begin while you are young. And one of the graceful traits that the older folks find hardest to cultivate is to go a-visiting in the homes of their children and be guests. Not managers, or housekeepers, or advisers, or supervisors but just guests. I have a friend whose great-aunt is spending the summer with her. The aunt, to borrow a term from the war, seems to be a "conscientious objector," and she is making life rather trying for her niece.

It's just about little things, and my friend is ashamed that they have the power to annoy her. But whatever she does all day long, auntie has a gentle objection to offer.

"Did I hear you order blueberries? Why don't you run over to the store and see if they haven't got peaches for a change?"

"I Wouldn't" and "I Would."

"I wouldn't leave that bottle there, my dear, it may get pushed over. Run up stairs and put it in the bathroom and then it will be safe."

"Now instead of sitting down to sew, just now, I'd shell the peas for dinner if I were you and then you'll have that off your mind."

"Going in bathing before lunch? You won't have a great deal of time. I think you'd better wait till this afternoon. The tide won't go out so much but what you can get wet, I guess!" (This with an air of sprightly humor.)

SHE Uses One Egg.
"There's no need of putting two

eggs in that cake, child, I've used just one in my plain cake every bit as good."

"Surely you're not going to be so go out without carrying her? Call her back, and have her may come off colder before long."

Do you remember the effect Tom Sawyer's aunt had on her hold? Twain describes that woman to perfection: "When she came into the room you felt a chill of apprehension creep down your spine, no matter if you were in the most innocent occupation."

"There are lots of things Auntie has told me that have ever so helpful," says my friend, as that peaches ripen best in a closet if you happen to get some, and that a little slice of pork gives a wonderful favor to boiled fowl. I'm grateful for her suggestions from an experienced housekeeper, but I do wish the world realize that in little things may have my own reasons for them my own way and at my own convenience, and not subside into a stifled silence if I intimate as to

The Habit of Holding the Reins. It is just a habit born of holding the reins. Often the younger generation resents it, told, it is the everlasting suggestion of the eternally keeping at one's heels, only to be talked into it, that galls.

A habit is the result of growth. So if one is to cultivate graceful habit of restraint in other people's affairs it is watch oneself early, don't you so?

Labrador Gold.

Ex-Premier of Newfoundland Says There Has Been No Rush.

Sir Richard Squires, the former Premier of Newfoundland, says the expected great rush of prospectors to the reputed goldfields of Labrador has not materialized, says a Reuter message from Montreal.

When Sir Richard left St. John's only 13 persons had started for the goldfields, and no exciting discoveries had been reported.

"One man to whom I was ing obtained 23 worth of gold exploring for eight weeks," says Richard.

The discovery of gold at St. Lawrence last year was expected to lead to a second Klondike rush, at least one air expedition was expected.

Has Dad a Dressing Gown as Nice as Kearney's?
