# FROM MANILA

Merritt' and Dewey Have a Hard Task Before Them.

Rebels on the Rampage-It Will Be Difficult to Restrain Them-No Attack on Manila Yet.

Washington, Aug.1.-Gen. Merritt has again cabled the war department relative to the situation in Manila, which he finds very unsatisfactory and dangerous owing to the attitude of the insurgents. In the opinion of Gen. Merritt, the attitude of the insurgents is similar to that assumed by Garcia's Cubans upon the question of their right to enter and possess themselves of the city, although in this case the insurgents are a much more formidable element, being not only more numerous, but better armed, and filled with the arrogance following numerous victories over their Spanish foes. General Merritt, however, indicates that he will do his utmost to protect the citizens from the savagery of the insurgents, though his task is a delicate and difficult one, because of the fact that he must, while fighting the Spaniards, be ready at any moment to repel the insurgents. The general gave notice that he was about to combine with Admiral Dewey in a joint demand for the surrender of the city to the U.S. forces, thus forestalling the insurgents, and this may cause a rupture. It is possible, in view of the fact that Gen. Merritt's cablegram was sent from Cavite last Thursday, that this movement has been made already by the combined 'American military and naval forces, although there is some doubt about this on account of a statement from Merritt that he may need all his soldiers before attacking. Still it is possible that the demand might be made without being immediately followed by an attack, which might be deferred until all the troops have reached Cavite.

Up to the date of the report, Gen. Merritt had with him about 12,000 soldiers. So far seven expeditions have the Philippines, and it is the intention to furnish Merritt at least 8,000 men more than his present force. If he delays his attack until all these may have reached him, Manila will not be taken in that way before September, for the last of the troops have not yet left San Francisco. It may be, however, that the arrangement as to the be included in the peace treaty, will obviate the necessity for further action on the part of the American commanders.

Hong Kong, Aug. 1. — The United States transport Zafiro has arrived in these waters, and is anchored outside the Lusnm Pass. Telephone Competition.

Competition, on ordinary business principles, is a good thing for the public. It insures the best attention to their wants, it cheapens prices, and prevents all the evils of a monopoly. The city council have expressed themselves in favor of a competing tele-phone company in this city, and the citizens are showing that the council knew their wants by becoming subscribers to the People's Telephone

#### THRILLING ESCAPES

From a Burning Chicago Hotel-Three Lives Lost-Many Injured

Chicago, Aug. 1 .- Guests of the Berwyn Hotel, 148 North State street, were aroused at 3 o'clock this morning to find the hostelry on fire. So rapidly did the blaze spread that men and women found themselves cut off from escape by the stairs. Three lives were lost, and a number

of others were maimed and bruised in jumping from high windows to the pavement. When the fire was discovered it was burning fiercely on a lower floor. A pedestrian raised a cry of warning which aroused the guests, and they appeared at the upper windows of the hotel in their night attire. Below them roared the fire with gradually increasing fury, and clouds of smoke made uncertain the extent of the flames. One of the guests on the second floor swung himself out upon the ledge of the window, peered at the menacing flames for a moment, and then deliberately jumped to the sidewalk. He landed on his feet, but fell into the gutter helpless. A number of others followed. A man who jumped from the fifth floor was killed. There were many thrilling escapes and res-

JEWS IN THE UNITED STATES.

It is estimated that the Jews of the United States number about 1,200,000, although that may be somewhat in excess. Although in common with the great mass of the population they prefer the cities, they are found scattered in every section from Bangor to the Klondike, and their synagogues, which were a novelty a few decades ago, save in places like New York, Philadelphia. Charleston, Savannah and Richmond can be met everywhere.

Chicago, recently witnessed the 50th anniversary of its oldest synagoguethe new edifice on Indiana avenue, with is impressive architecture. story of successful growth. The new temples in Cleveland, Little Rock, Kansas City, St. Louis, Detroit, are eloquent reminders of western progress. The president of the United States was present at the recent corner-stone laying for the new Washington Temple, which will be worthy of the capital of our country. In New York, Philadelphia, Cincinnati and Baltimore, the synagogues are in the broad places, and convey a favorable idea of American Israel. According to Rev. Dr. Caroll's statistics there were, in 1897, 570 Jewish congregations in the United States, and 143,000 communicants—the last term is misleading. As a rule, the father alone counts as a member of the synagogue. Besides, in the smaller towns in which there are no regular synagogues, there will be found many Jews, and these are not included in the estimate, while a large proportion of Jewish residents of the chief cities may be unattached to any synagogue, membership being voluntary, not compulsory.-From Frank Leslie's Popular Monthly for August.
