Conflicting Dispatches from Hot Springs, Ark.

The Governor Apparently Determined Johnson's Wheel Records Broken.

FOOTBALL. FINAL GAMES ARRANGED.

Toronto, Oct. 30.—At a meeting of the executive of the Ontario Rugby Football Union last night the president of the Hamilton Club against the award of Saturday's game to "Varsity" was withdrawn.

It was decided that the first game in the finals for the senior championship be played here next Saturday, and the second game in Kingston the following week.

The intermediate game between Osgoode II. and the Lornes will be played on the Bloor street grounds next Saturday.

The junior game between the Kingston Granites and Hamilton III. will be played in Hamilton next Saturday, with H. C. Pope, of London, as referee.

The application of the Lornes to play the winners of the junior series was refused. The Lornes based their claim upon the alleged fact that the Hamilton team had played several men over the age limit.

Nov. 16 was the date agreed upon for playing the game for the Canadian Union championship.

ATHLETICS.

In anticipation of the possibility of a fight between Corbett and Fitzsimmons being pulled off, the Western Union Telegraph Co., has sent nine operators to Hot Springs, Ark., to handle any press matter that may be filed.

Chicago, Oct. 30.—The Corbett-Fitzsimmons fight has already been stopped, and will never take place—certainly not in Arkansas. That seems to be the substance of a dispatch sent out yesterday, signed by the Governor of Arkansas. It reads as follows: "Intend to stop fight at all hazards, regardless of place and time, when attempted. In fact it is stopped now. (Signed) James P. Clarke."

PREPARING FOR THE FIGHT.

Hot Springs, Ark., Oct. 30.—Sheriff Hout, of this county, went to Marshall, Texas, last night, and will intercept Fitzsimmons there today and bring him to this city. The fight, if there is one, will not take place on Nov. 1, as previously announced, but on some day next week to be agreed upon and named after the arrival of Fitzsimmons and Julian. A large circus tent has been secured for the occasion which may be put up in two hours and will accommodate 15,000 people.

THEY WANT IT BAD.

Phoenix, Arizona, Oct. 30.—The Phoenix Athletic Club has wired the managers of Corbett and Fitzsimmons that the club will put up \$50,000 and also insure immunity from arrest if the fight comes off here. C. H. Hirschfeld, Fred Schofield, Jack Gibson and Raised Freizer raised the purse.

SASEBALL.

The championship pennant for 1896 won by the Maple Leafs this year has arrived in Guelph. The flag is a very handsome one. Freeman, the star hitter of the Toronto team, but a poor fielder, will undoubtedly be the subject of a controversy between the Toronto manage-

ment and the Detroit, as he is on the reserve list of both clubs. He was only leased from Detroit in the first place.

THE WHEEL.

JOHNSON'S RECORDS BEATEN.

Chillicothe, O., October 30.—W. W. Windie took three world's records away from John S. Johnson yesterday afternoon. He cut the half mile record from 51 to 48 seconds; the one third mile from 22 to 20 3-5 seconds; and the quarter-mile from 23 to 22 4-5 seconds. The records are official.

THE BICYCLE NOB.

A fresh cause of complaint against the wheelman has been just brought to the front by sticklers for outward signs of good manners and good character.

The individuals concerned in this case are not alone the bicycle face that should be noted as an indication of degeneracy, but the painful fact that riders no longer pay proper deference to passing friends by lifting or touching the hat without danger to themselves or others. A curt nod is about the only recognition even the Great Mogul is likely to receive from a gentleman speeding on his wheel, and the effect is most disastrous. The genial "How dy do" is missed, with the conventional raising of the hat, and the friend or acquaintance who rushes by with his bicycle face and merely a sweeping glance your way leaves a most unpleasant impression.

"What has happened to Jones? Is the baby ill? Doesn't he like us any more?" And Jones, who is making heroic efforts to balance the machine and keep from being run down by an electric car, holds on to the bar with both hands, and speeds away, leaving an impression of gurliness and impoliteness behind him. Either people must learn to ride the bicycle with one hand or there must be some arrangement by which the hat can be bobbed to one's friends. There might be a string that could be pulled by a movement of the foot, or perhaps the unskillful rider could wear a placard saying, "I am not blind; please consider I've bowed," which would soothe the other's feelings, but, at all events, the courtesy, demanded by etiquette, must be preserved. The outdoor world would assume a very sober aspect if nobody was to greet us with bright glances and cheerful tilt of the headgear. A boorish demeanor arouses a corresponding resentment in the hearts of both parties, but when the cause is needless it is more pity to permit it to extend and gradually fasten among the customs of the day.

If cycling has come to stay its manners will become permanent also. The bicycle face we shall have always with us, but must all the graciousness of social or business intercourse be banished on its account.

W. C. T. U. PROVINCIAL CONVENTION.

Proceedings at the Annual Gathering in Hamilton.

Hamilton, Oct. 30.—The Provincial Convention of the Women's Christian Temperance Union, assembled in that beautiful edifice, Knox Presbyterian Church, Hamilton, at 9:30 yesterday. The day rose dark and gloomy, but cast no shadow on the bright, happy faces that gathered in large numbers for earnest work, in the large audience room. Mrs. Thornley, Provincial president, called the convention to order. Devotional exercises were led by Mrs. McCallum. Roll call of officers and speakers followed. The report of the Provincial Convention was read by the secretary, Miss Crawford.

Mrs. Capt. Davies, Gananogue, reported good work done among sailors. Mrs. Starr, Whitby, reported work done among soldiers, including distribution of literature, holding of evangelical services where permission is given, and in all possible ways seeking to help military men in camp or college, and keep them true to God and right. On motion it was recommended that a plan of work committee endeavor to prepare a plan to cover expenses of providing tea and coffee to the men where canteens have been abolished.

Mrs. Tennant, Cornwall, reported some good work done among Indians; the pledge freely circulated among those on Walpole Island, with literature, music and books. Parliamentary usage, by Miss Phelps.

Of the counties in Ontario 35 unions have adopted Robert's rules of order in their meetings for carrying out their work. And efforts are being made to make this general.

Mrs. Wiley, of "Conferences with Influential Bodies," referred to the many fraternal societies as the I. O. F. and A. O. U. W., which excluded saloon-keepers, etc., from their brotherhood.

Mrs. Brownlee, Toronto, reported on "Fires and Police." Much is being accomplished along this line in establishing houses of refuge, evangelistic work, petitions circulated, and in some instances small sums of money contributed to help discharged prisoners, and also in finding such persons employment.

Mrs. Lillian Phelps, St. Catharines, presented a powerful plea for work among the colored people, who have taken shelter under that flag which protects white and black alike, and what the W. C. T. U. has done for the white woman it can do for the black woman. Much has been done in this line by the W. C. T. U. in this city. Bands of Hope are educating the children along temperance lines as well as in Sabbath school work.

Mrs. Thornley reported on School of Method. The report was full of helpful and cheering information. Out of 26 organized counties in Ontario, 24 have established full and partial schools of method. In these, subjects for discussion and the question box hold a prominent place.

Mrs. Asa Gordon, Ottawa, conducted the noontide Bible reading, which was a season of power and blessing to all present. Passages emphasizing the great truth of "All for Christ," made a never-to-be-forgotten impression for good on those who had the privilege of listening to her helpful words.

HUTCHINSON SENTENCED.

Gets Four Months in the Central For Non-Support.

Said to be Irresponsible for His Acts—Magistrate Does Not Think so—Vags and Drunks on the Carpet.

Benjamin Hutchinson, the young man who was two weeks ago convicted of neglecting to support his wife, was arraigned before Police Magistrate Parke this morning for sentence. Since his conviction Hutchinson has been in jail, while friends have endeavored to secure somebody to furnish bonds that the prisoner would in future carry out the terms of his marriage contract. Hutchinson's brother, in London township, would not go on the bonds, so nothing remained for the court but to send the accused for a term, or discharge him on suspended sentence. At the trial the defense contended that the prisoner had supported his wife as much as he possibly could, but the crown showed that he had loaned money since he left his wife, that he had worked considerably, and, moreover, that he had sworn himself on the voters' list last year as having earned over \$300 in the previous twelve months.

The police argued that A. Buchner appeared for Hutchinson, and stated that he did not think he (Hutchinson) was responsible for what he did. He had with an accident in early life, and since then had done many strange things which could not be accounted for.

Deputy Crown Attorney McKillop did not give the new prisoner much courtesy. "It is a very flagrant case," he said, "and nothing can be gained by letting Hutchinson go."

The police magistrate remarked that he thought the best plan would be to keep Hutchinson away from his wife, whereupon the prisoner interrupted and said his mother-in-law for all his troubles.

"I do not believe one word you say," rejoined the magistrate, "and what has been said about you not being responsible for your conduct does not alter the case."

The sentence was four months in the Central Prison.

Francis Wilson and John Fay, a pair of vags, were discharged. Fay had a quantity of cheap jewelry in his possession and claimed to be bound for Detroit, where he had money coming to him from working on the docks. He was known to the police here, as he had been a loafer around town last winter.

James Rowe and Wm. Killop had both been up before for drunkenness. They were given twenty days to sober up. Hugh McCurdy, drunk, was discharged.

Christian Science Treatment in Toronto—An Inquest Begun.

Toronto, Oct. 30.—An inquest was opened last night on the body of Percy Beck, a 6-year-old child, who died Sunday, after being treated by Christian Science advocates. The father and mother of the dead child gave evidence. They believe in Christian Science treatment, and employed one of the Scientists to attend to the child. At the conclusion of the opening ceremonies and the reading of a letter of regret from the Rev. M. One of the most pleasing features of the evening was the presence of Mr. W. Matheson and Mr. W. W. Rev. A Golden Key.

The golden key, to which those who desire to open the door of health, should turn, says like these, is Dr. Pierce's Golden Medical Discovery. The poor man's penny can procure it. The rich man's millions can buy nothing better.

POLITICS IN THIS COUNTY.

The Liberal Candidates of East Middlesex: x and Elgin Speak.

To a Large Meeting in Springfield—The N. F. Donounced.

Springfield, Oct. 30.—In spite of the inclemency of the weather an enthusiastic audience greeted Dr. J. H. Wilson and Mr. J. Gilson at the joint mass meeting held in the Agricultural Hall here last night. Squire Johnson, secretary of the Reform Association of East Elgin, occupied the chair. After a few opening remarks the chairman introduced the Liberal candidate for East Middlesex, Mr. J. Gilson. Mr. Gilson said that he was only anxious to become a member of Parliament with a view to removing the yoke and burden at present upon the people. The present Government must certainly have felt their inability to retain their hold upon the people when they have dared this constituency in such a shameful manner. He dealt with the National Policy at length, showing how the farmer had been continually oppressed as a result of it, and charged the Government with a wasteful expenditure of the people's money. Mr. Gilson scored the Government for the superannuation of civil servants to make room for favorites, and cited instances of gross extravagance and waste.

Dr. Wilson devoted his speech to an able criticism of the National Policy. Farmers, he said, would be better off today if the promises of the Government had been fulfilled. He asked the farmers if they were more prosperous than they were eighteen years ago. He urged the electors to adopt a fiscal policy that would only meet the expenditures of the government of the country. Protection, Dr. Wilson declared, had crippled and hampered the people of Canada. England's example was good enough for him, and he looked to her in preference to the United States. Canada was the greatest country under the sun, but she was burdened and oppressed by an extravagant Government. He was a Canadian, and had spent the greater part of his life in Canada, and would die a Canadian, unless he was driven out by starvation on account of the recklessness of the Government. He urged the people from ocean to ocean, the Reformers, and put in those who would support legislation in favor of the masses, not of the classes. He believed the people from ocean to ocean would at the next election cast their ballots in favor of Mr. Laurier and his associates, and turn out the present Government.

Mr. C. F. Smith asked that the case against Mr. W. T. R. Preston be adjourned until Thursday. The judge said the case must not interfere with the regular cases. It would be best, he said, to let it stand indefinitely, as, if it were not reached this week, it would not be tried by him.
