Remember this 10 per cent is an entire saving to you, besides our already cut prices, which means a saving of fully 25 to 50 per cent on some lines of goods during this sale.

JOHN F. FINERTY ON THE WAR PATH

Hot Speeches in the Irish League Convention.

BALFOUR AND WYNDHAM ROASTED

Redmond Says Violence of British Attacks Portends the End of the Cont.

Boston, Oct. 20.—National President John F. Finerty, of Chicago, was the principal speaker at the opening of the United Irish League convention in this city yesterday.

President Finerty said there are now 50,000 Irish husbandmen who are farmer-proprietors, and they are so because of the labors and sacrifices of Parnell and Davitt, O'Brien and Dillon. Bigger and Redmond, who followed in the track of the pioneers for Irish liberty.

"The Anglo-Norman feudal system," he said, "was paramount in Ireland until Parnell, supported by the land league, of which the United Irish League is the final successor, made a breach in its brazen shield. Catholics and Protestants alike were persecuted, and the outrages forced them to emigrate to the American colonies, where they took their part in the war for independence. Since Jan. 1, 1801, Ireland has been to all intents and purposes an English province.

"The Irish landlords are offered a settlement tantamount to 40 years' rental of the lands they hold, in general, by the law of conquest, or the

process of confiscation. These lands belong by hereditary right to the Irish people, but the Irish people do not ask for a new confiscation, but for condemnation and purchase by loan on terms of easy repayment.

"Balfour and Wyndham are making a last effort in behalf of their clients, the landlords. They have dug up the gaunt and ghastly remains of old Edward I., the hammer of the Scotch, and with this rusty, rotten old hammer they are attempting to put down the United Irish League. They have hammered a dozen Irish members of Parliament and about 300 local leaders into jail."

The meeting, said Finerty, was to express the sentiments of the American Irish on the Irish question and to welcome Ireland's chief and his fellow-delegates. A year has not yet elapsed since the United Irish League of America was temporarily organized. In spite of senseless opposition in Ireland and of unmanly apathy in others, it has increased and multiplied its ranks, and has furnished the true men of Ireland with a respectable amount of sinews of war to carry in a manly manner the noble struggle for land and liberty.

The Protestants of the north and the Catholics of the south have joined hands in the salvation of their country, which presages a long day of glory and prosperity.

Ireland's foes were denounced by speakers at two big meetings in the Symphony Hall and the Hotel street theater Sunday night where receptions were tendered by the United Irish League to John E. Redmond, M. P., Michael Davitt, John Dillon, M. P., and Hon. Edward Blake, M. P., envoys to the national convention.

Redmond said words would not portray the importance of these meetings and the convention to Ireland's cause. He said that all the power and wealth of the English nation is being used in a reckless attempt to crush the spirit of freedom in Ireland.

"We are near the end of the contest," said Redmond, "the violence of the attacks of the British Government on the Irish Land League portends this end, and every assistance should be given to those across the water who are fighting the cause of Ireland with such magnificent courage, self-sacrifice and generosity."

Telephone Saved Girl's Life.

Owosso, Mich., Oct. 21.—Maggie Tyrrell, an operator for the Union Company, wasn't feeling well yesterday and decided to stay in her room at the home of P. C. Greenman, in lighting the gas she accidentally turned on both burners, only lighting one. She awoke a little later to find the room filled with gas, but managed to stagger to the phone and call to the operator: "Send me some help!" Before she could explain she felt to the floor in a faint. The operator and other end heard her fall and hastily summoned a doctor, who reached the girl's room in a few minutes. She was revived with great difficulty.

Discoveries in Police District.

Paris, Oct. 21.—The colonial office has received a cablegram from Martinique, saying that the La Croix scientific mission, which was sent out by the French Government, has made observations of the recent eruptions and to establish a permanent observation station on Mont Pelée. The mission, which was sent out by the French Government, has made observations of the recent eruptions and to establish a permanent observation station on Mont Pelée. The mission, which was sent out by the French Government, has made observations of the recent eruptions and to establish a permanent observation station on Mont Pelée.

WAS BOMBARDED WITH QUESTIONS

Secretary Wyndham Under Fire in the House.

NATIONALISTS IN EVIDENCE

Explanations Aneant Imprisonment of Members—Land Purchase Bill Withdrawn.

London, Oct. 21.—The Irish Nationalists were much in evidence at question time in the House of Commons yesterday. They bombarded Irish secretary Wyndham with all kinds of queries, interruptions and contradictions of his statements, and the imprisonment of Irish members.

Mr. Wyndham's replies, though given in a conciliatory tone, evoked storms of derisive cheers, mingled with hisses, and the speaker was kept busy suppressing demonstrations which threatened to develop into disorderliness.

Wm. O'Brien moved the adjournment of the House to discuss questions arising from the case of former Police Sergeant Sullivan, now in America, who is alleged to have obtained the conviction of innocent persons through perjury.

The Liberal leader, Sir Henry Campbell-Bannerman, cordially joined the Irish in supporting their demand that the government should discuss the state of Ireland, but declined to make the Liberal opposition responsible for the demand.

The galleries of the House were crowded at night in anticipation of a sensational debate on Wm. O'Brien's motion. In outlining the Sullivan matter, Mr. O'Brien declared that Patrick Nolan, one of the Government's witnesses in a certain prosecution in Dublin and Sligo, although he swore in one trial that a letter purporting to have been written by Mr. MacHale, president of the United Revolutionary League, arranging for a murderous outrage, was in Sullivan's handwriting, in the same witness afterward avowed that he had been employed to shield Sullivan from justice by discrediting the evidence of other witnesses, and that Sullivan was guilty of forgery.

Describing the Sligo trial as an eye-witness, Mr. O'Brien declared that he never been held. He said that the members feared that Dublin Castle was trying to hush the Sullivan matter up, but that it was a case of greater gravity than the Sullivan case, because the plot Sullivan had organized against the Irish League was of the same character as "the Pigott forgery" against Campbell.

O'Brien charged that the Government had packed the jury to acquit Sullivan and had spent an enormous sum to shelter him from justice. "The greater the scandal in the Irish constabulary," said the speaker, "the surer he is of being shielded and promoted."

"WITHDRAWAL." The attorney-general for Ireland, J. Atkinson, replying to Mr. O'Brien, charged that the facts of the case had been strangely misrepresented, and he taunted Mr. O'Brien with being too cowardly to bring this case openly in the law courts.

At this statement there were shouts of "Withdrawal" from the Irish benches. Mr. O'Brien demanded to know whether the remark of Mr. Atkinson was disavowed.

The speaker of the House replied that he did not take the remark as calling Mr. O'Brien a "coward," but as applying to the course he had taken.

The attorney-general then withdrew his expression and proceeded with the contention that he did not have the power to try a man a second time. He scored Mr. O'Brien for bringing infamous charges against the crown without proof.

MR. WYNDHAM. Mr. Wyndham declared that Mr. O'Brien's charge had been completely disposed of, and he ridiculed the demand for a second trial as an urgent public importance.

T. P. O'Connor said the present debate filled him with more despair than he had ever before held in the House, and reiterated his charge that the government had packed the Sullivan jury with Protestants and Unionists.

Mr. O'Brien's motion for an adjournment of the House was rejected by 215 votes to 117.

Mr. Wyndham then explained that it was impossible to pass the Irish Land Purchase Bill this evening, and said he hoped, in the course of the next session, to introduce a new bill for voluntary arrangements between the parties concerned. He moved the withdrawal of the Land Purchase Bill, which was agreed to and the House then adjourned.

CANADIAN HERDS FREE OF DISEASE

Graziers Want Embargo on Cattle Removed.

RUSSIA'S AIMS IN THE EAST

Seeks Direct Relations With Cabul—British Government Has Something to Say.

London, Oct. 21.—The engagement of Mr. Hanbury, minister of agriculture, to receive on Thursday a deputation urging the withdrawal of the ban against the importation of Argentine cattle, has given a fresh spurt to the Scottish graziers' movement to free Canadian cattle from the existing embargo. The Scottish M. P.'s will get the Scottish agriculturists in conference at London on Thursday, when it is hoped that further pressure will be brought on Mr. Hanbury. Certainly it would be most unfair if Argentine cattle were admitted while Canadian cattle were denied the same treatment, especially seeing that time has abundantly proven that the Canadian herds from disease. London butchers when reproached for the present high prices of meat, replied: "Open the ports and we will soon be down the prices." The statement issued from the Canadian High Commissioner's office admits that Canada is sending British more cattle than ever for slaughter, but would be thankful if Great Britain would revert to the old practice of admitting Canadian store cattle for fattening.

OUR FOOD MANUFACTURERS. The Earl of Aberdeen and Lord Balfour of Burleigh become trustees for the debenture holders, and Lord Stanhope, secretary of the New Brunswick board of directors of the association formed to open depots in London for the sale of Canadian food manufactures.

The Canadian four-pound loaf costs 2½d against 5d for the English. Other items of the Englishman's food bill will be correspondingly reduced. The Englishman's control of capital will be £200,000 sterling, of which £100,000 will be raised by the sale of Canadian securities. The former deputy minister of agriculture for Manitoba, is the chief promoter. Other directors include the late general manager of the Midland Railway, and the late assistant general manager of Whiteley's.

RUSSIAN AIMS. London, Oct. 21.—That the recent report of Russia's desire to establish direct relations between St. Petersburg and Cabul (Afghanistan) was well founded was admitted by Under-Foreign Secretary Cranshorne in the House of Commons yesterday.

Replying to a question of Sir Seymour King (Con.), Lord Cranshorne said the British Government had received a communication from the Russian Government proposing that direct relations be established between Russia and Afghanistan in regard to frontier matters. Russia said that the relations would not have a political character, as the Russian Government intended to keep its foreign engagements and continued to fear Afghanistan outside of the sphere of Russian influence. The British Government replied that it was impossible to consider any change in the existing arrangements regarding the proposed relations, and the means for insuring the observation of such limitations. Lord Cranshorne added that no answer had been received to Great Britain's reply.

DEMAND ARREARS OF PAY. There was a demonstration in Hyde Park Sunday by several thousand revolutionists from South Africa, who demanded prompt payment of their arrears in pay, and assistance to obtain work.

EDUCATION IN TRANSVAAL. The Transvaal Education Department says the London Times correspondent at Pretoria, has written of the problem of providing schools for a large number of children living on farms at a distance from towns and villages. No final plan has yet been adopted, but it has been found possible to start five farm schools in the Transvaal, groups of farms having guaranteed from 20 to 30 pupils each school. Two teachers are sent to the farm indicated as most suitable for holding the school, taking with them a teacher's which do not imply a rural school, but at the same time efforts will be made to attract children towards schools where they can be boarded.

THE EXPENDITURE for education is not productive pecuniarily. It is to be hoped a generous policy will be pursued, as education is the only means for the ultimate pacification of the country.

LIVINGSTONE'S SISTER IS 107. Miss Kate Livingstone, a sister of the famous explorer, has just celebrated her 107th birthday. She is still in fairly good health, with mind unaffected beyond what would naturally be expected in normal old age.

A leading medical journal utilizes the occasion to point out that nearly all centenarians are women, the quiet and regularity of their lives accounting for their superior longevity.

DENOUNCED TRADES UNIONS. The tenth annual congress of the Free Labor Association opened in London on Monday. The delegates are presented 40,000 workmen. President John Chandler made a virulent attack on trades unionism, saying that the growth of industrial freedom greatly tended towards the diminution of strikes, and declared that trades unionism was a disgrace to labor in this country. Nothing could more forcibly illustrate the intolerance which pervades trades unionism than the statement said to have been made to the Rev. Charles Edwards, a Pennsylvania clergyman, some time ago by a radical trades unionist, who had threatened to cut off the ears of every man returning to work.

For British trades unionists do not sympathize with the abolition of "strike cities," the speaker asked, "why do they vote £1,000 in aid of the strikers of American who made such an infamous threat?"

Snow Storm at Calumet. Calumet, Mich., Oct. 21.—Snow fell here yesterday morning, the first of the season. The ground is covered with the beautiful.

Radway's Pills

SECURE
Perfect Digestion.

By their ANTI-BILIOUS properties these pills live in the secretion of the bile and its discharge through the biliary ducts. These Pills, in doses of from two to four, will quickly regulate the action of the liver and free the patient from these disorders. One or two of Radway's Pills taken daily by those subject to bilious pains and torpidity of the liver, will keep the system regular and secure healthy digestion.

"I am 120 miles from the nearest drug store, and want you to send me a dozen boxes of your Pills. I have muscular rheumatism, and for five months have been at Hot Springs. My liver and kidneys are affected. I find that your Pills do me more good than all the medicine I have taken, and the springs combined. Respectfully, W. JAMES.

"Harque Hala, Yuma Co., Arizona."

MONTREAL, CANADA.

Dime-Novel Career Ended.

Windsor, Oct. 21.—Two youths appeared in Windsor a few days ago and commenced a dime-novel career that has landed them in the Sandwich jail, awaiting trial for theft. They entered the wholesale grocery house of John Scott and stole \$2. They next broke into the C. E. R. freight shed at Windsor, but before they had seized anything they were themselves seized and locked up at headquarters. They gave their names as John McGraw and Charles Deane. They will come before Magistrate Bartlett on Thursday.

To Fight Prohibition.

Windsor, Oct. 21.—Windsor hotelmen held two meetings on Friday for the purpose of hearing addresses from James Haverson, K.C., Toronto, legal adviser of the Ontario Licensed Victuallers' Association, and Edward Freysinger, the Toronto organizer of the association, regarding organizing for the referendum vote. The Windsor hotelmen are divided on the question of organization. While a number are willing to do their share towards defeating prohibition, others are opposed to doing any work, and say that if the people of the Province wish temperance by the decision the same as other business men. The majority, however, want to fight.

Woman's Wealth Is Health.

PAINE'S CELERY COMPOUND

Gives Vitality, Vigor and Strength to Debilitated and Run-down Women.

It is maintained by many writers that the greatest of a nation depends much upon the physical condition of its women. The general conditions of which contribute to health and long life, are those which do not imply a rapid and unequal exhaustion of those powers by which life is maintained. While we assert that the women of our land stand peerless for beauty and the virtues that make them lovable, we cannot hide the fact that there are thousands in our midst who, owing to overwork, worry, household cares, and unequal exhaustion of life-power, have become weak, nervous, sleepless and debilitated.

We bring to the attention of all weary, despondent, hopeless and sickly women earth's great rescuer and health-builder, Paine's Celery Compound. Thousands of healthy women around us owe their present vigor, activity and robustness to Paine's Celery Compound. No other medicine has done such a work for women, and no other has ever received such strong and grateful letters of testimony. Mrs. W. B. Phelps, of Philadelphia, Ont., writes:

"For two years I was in a miserable state of health, and so nervous that sleep went from me. In my anxious condition, I was no pleasure to live. After use of Paine's Celery Compound for ten days I found myself very much improved, and I was enjoying rest and sleep. I have since taken Paine's Celery Compound from time to time, and find that it keeps me well and strong. I recommend Paine's Celery Compound at every opportunity."
