Markets for Staple Goods Are Firmly Held.

FAIR AMOUNT OF ACTIVITY

Reported at Dominion Trade Centers -Crop Prospects Excellent-Manufacturers Busy.

Toronto, June 14.-Bradstreet's trade

review, weekly summary: In London there has been a fair inquiry for sorting parcels considering the cool weather this week. In retail circles in the city and country, while the demand has been rather backward, generally throughout the east.

Seasonably warm weather has natsingle. the sales have been fair. Values are be-

orders are coming in nicely now. The outlook for trade is very promising.

There has been a fair amount of ac-

tivity in wholesale trade circles at Toronto, considering the cold weather. fall orders are coming in well, and in a good many lines are well up to those booked at this time last year, and in some cases are haps a little ahead of last year. Trarelers in the west report a fair amount of business, and the western business the coming season will largely exceed that of previous years. The fine crop prospects are encouraging retailers to lace liberal orders, while the absence of job lots of goods from the markets and the firm tone of nearly all classes of manufacture add to the feeling of confidence which pervades mercantile

Business at Ottawa is fairly active for this time of the year. Values of staple goods are firmly held.

Wholesale trade has been fairly active at Montreal. The trade being done in fall goods is very satisfactory. The markets for stable goods, both imported and of domestic manufacture, are very firmly held. Owing to the excellent crop prospects in the eastern part of the Dominion, as well as in the west, the growth in the live stock industry and the activity in the various manufacturing industries, the outlook for trade is very bright. Country remittances are very fair for this season.

At Quebec the cool weather has somewhat retarded sales in retail circles. Wholesale trade is reported satisfactory and country remittances are fair. The rain of the past few weeks has been a great benefit to those en-

gaged in getting out logs.

At Winnipeg there has been an increasing demand for fall goods. large influx of settlers and the fine water, and not slippery. The aldercrop prospects have persuaded retail- men of Houston argue that their city ers and jobbers that the turnover is peculiarly adapted to this process. should show a large expansion the coming season, and are making larger are to be found at the mouth of the preparations to meet the expected demand. The crops are coming on nice-

county.

MOTHER AND SON DROWNED. Ottawa, June 14.-Mrs. D. McCallum and her little son, aged about 8 years, were drowned at Portage du Fort yesterday morning at 7 o'clock. It appears that the little fellow had been playing in a boat, and was out on the water with it, when he fell out. The mother hearing his cries, went to his essistance. She waded into the water beyond her depth and lost her footing. A 13-year-old son put out a pole for her to catch, but she did not appear to see it. The bodies were found about an hour and a half afterwards. The father, David McCallum, is at present working on the sweep at Snow Boom for the Upper Ottawa Improvement Company. The McCallums lived on the bank of the river.

DIGGING IN FARE BOXES!

Toronto Street Car Conductors On Trial.

Detectives Describe How They Dissovered the Crooked Work.

Toronto, June 14.-There was great interest manifested at the police court crowded when the case against the street car conductors charged with robbing the company's fare boxes came up. The first of the seventeen prisoners called was H. W. Rummans, who, when arrested by Detective Davis, threw away a "digger," one of the little instruments used to extract tickets and coin from the box, which was found by Davis, who stopped the car and took his prisoner him while he searched for it. Detective Davis gave his testimony in a few words, telling about the raid on the cars on the night of June 5, and the arrest of the prisoner on his car near Church and Front streets. He described the finding of the "digger," and said that the prisoner, when it was discovered, said: "For God's sake don't say anything about this." When searched, the prisoner had in his inside pocket 43 detached tickets. No two of the tickets were found to be numbered consecutively, which was conclusive evidence that Rummans did not get the tickets from the company. The condition of the fare box was next taken up, and evidence presented to show that the "digger" of the box as were found.

Modern conditions of life, more espe-

MET HER WATERLOO Busybody of the Peachblow Flats Has Something to Talk About.

The maiden lady on the second floor of the Peachblow flats in Brooklyn having disposed of everybody else in the building, started after Mr. and Mrs. June Bride. Mr. and Mrs. June Bride had just moved in, had declined to tell the maiden lady all about their private affairs and so had mortally

HOW THE MAIDEN LADY

offended her. Mr. June Bride used to be a commercial traveler, and something of a sport. The ways of the maiden lady amused him. He resolved to give her

something to talk about. at night the maiden lady would peek out of her door at him. Mrs. Bride realized that she was being watched every time she made a move.

Mr. June Bride completed his arrangements for giving the malden lady something to talk about last week. By arangement, his wife went quietly down to the front stoop of the Peachblow flats at exactly midnight, and stood there in the shadow of the door. Bride was around the corner wearing a raglan coat with the collar turned up, and a slouch hat pulled down over his eyes.

At ten minutes after midnight he approached the Peachblow flats their wives and families were on the stealthily. Mrs. Bride made a sign to agent. him from the front stoop to let him know that the maiden lady was watching from her parlor window. Brushing forward suddenly, he seized

his wife in his arms and said in a loud "My darling! my own darling!" A gasp could plainly be heard over-

"Is he home?" asked Bride.

"He is out of town for the right," replied Mrs. Bride, putting all the tenderness possible into her voice. "Then it is safe for me to come up?" "Yes, sweetheart," replied Mrs. Bride, and then she and Bride went in and upstairs to their flat.

After they had passed the maiden lady's door they heard it open, and although they didn't look back, they felt her taking a last look at them. The maiden lady was up at daybreak to begin the disemination of her news. For once in her life she didn't have to invent. This time she could tell things that she had seen with her

She hastened from flat to flat with the news, and so that there should be no mistake, she advised everybody to watch the stranger leave the Bride flat. She was sure that he had not already left.

Now no one in the house believed anything that the maiden lady said. but out of curiosity the tenants watched the Bride flat with more than the usual amount of interest that morning. Promptly at 9 o'clock Mr. Bride came out and started for business. The maiden lady almost fainted Her neighbors retired to their apart-

ments, very much ashamed of themwere instantly killed and about a The maiden lady has been trying to explain ever since. She is still conthem probably fatally, by the falling vinced that there is a scandal in the

The other tenants will not be surprised to see the furniture van back up at the maiden lady's flat any time now .- New York Sun.

An Operation Not Necessary

Itching Piles of Twenty Years Standing Cured Permanently

Dr. Chase's Ointment.

Is it necessary to undergo a surgical operation with all the accompanying risks, expense and suffering in order to be freed from the suffering of itch-

ing piles?
Very many people ask this question and too frequently the medical advisor answers yes. But there are scores and hundreds of people throughout the length and breadth of this land who know differently. These are people who have been actually

cured by Dr. Chase's Ointment. Among others is Mr. Alex. Mc-Laughlin, of Bowmanville, Ont., a man well known and highly respected in this town, of which he has been resident for about 30 years. In a letter to us Mr. McLaughlin describes his case as follows:

"For twenty long years I suffered from itching piles, and only persons who have been troubled with that annoying disease can imagine what I endured during that time. About seven years ago I asked a druggist if he had anything to cure me. He said that Dr. Chase's Ointment was most favorably spoken of, and on his recommendation I took a box.

I continued the treatment until thoroughly cured, and I have not suffered any since. I am firmly convinced that the ointment made a perfect cure.
"I consider Dr. Chase's Ointment an invaluable treatment for piles. In my case I think the cure was remarkable when you consider that I am getting

surgical operation as the only cure for piles. Scores of people are being cured every day by Dr. Chase's Ointment. Not merely relieved—though relief itself is a great thing to the sufferer from piles-but cured thoroughly and permanently, as Mr. Mc-Laughlin has been. Dr. Chase's Ointment has no worthy rival. It stands alone as an absolute cure for piles of every form. 60 cents a box, at all dealers, or Edmanson, Bates & Co.,
