

**WATER BOARD
IN TESTING MOOD**

Took No Notice of the Complaint of Mr. Judd Regarding Wells Bylaw.

THE PROTEST WAS FILED

Engineer Moore Makes Suggestion for Protection of the Extra Pumping Plant.

At the meeting of the water commissioners held at noon today, a protest was received from Mr. J. C. Judd, K.C., representing the waterworks against the commissioners' tacking \$25,000 on to the Beck scheme for mains to distribute the water. Mr. Judd suggested that consideration of the bylaw be left over until the return of Mr. Beck from England, some day next week.

The commissioners did nothing with the communication of Mr. Judd. "We have dealt with the matter, and it is now in the hands of the council," said Mayor Stevely.

"We have done the right thing," said Chairman Jones. "The mains are necessary."

"I cannot see how we could have done differently," said Mr. Darch. The letter was filed.

Waterworks Improvements. Engineer Moore suggested many improvements to the waterworks equipment. He advocated that a temporary frame building be constructed to protect the temporary pumping plant on Thames and Horton streets, and a fence around the Summers property recently purchased by the commissioners. He also suggested a regulator for the Springbank engines, to cost \$100, and a vacuum gauge to cost \$10. These recommendations were accepted, and he was ordered to do the work necessary.

The turbine wheel at the pump-house is worn out, and Mr. Moore suggested that a Barber wheel be purchased at an estimated cost of \$1,500. He was instructed to obtain prices on this wheel, and report back to the commission.

Want the Plans. The provincial board of health asked that the plans of the proposed waterworks extension be submitted to the provincial board of health as required by law.

Engineer Moore was instructed to send all the plans he had in his possession to the provincial board, and if more were needed to notify Hon. Adam Beck to supply them.

The Charities' Organization Society asked the commissioners to supply free water for their new drinking fountain. The request was granted.

Thomas Baker asked for a main on Rathgar street. His request was granted.

The plumbers, through Mr. J. L. O'Dell, complained that it was impossible to get into Secretary Elliott's office before 10 o'clock in the morning, and it was thus impossible to obtain plans except at a considerable loss of time.

Commissioner Darch stated that if they would obtain a supply ahead of time, there would be no cause for worry. The communication was filed.

Water Consumption. The average daily water consumption was found to be 4,222,885 gallons.

"This is a considerable amount of water," said Mayor Stevely. "Since we have put in the new conduits, the supply has been increased by a considerable amount."

Mrs. Sherry applied for a service on Orchard street. The request was granted.

Those present were: Mr. William Jones (chairman), Commissioner Fred J. Darch, Mayor Stevely, Engineer Moore and Secretary Elliott.

**U. S. PUTS STIFF DUTY
ON PRINT PAPER**

Washington, June 19.—Following on its action in keeping up the duty against Canadian pulpwood the Senate decided yesterday that a duty of 4 per cent should be placed on print paper in an effort to keep American mills in the United States and to give them a chance to compete with the paper-makers from Canada.

A MOTOR CAR ROMANCE

How a Young Spaniard Won His Bride.

New York, June 19.—A cable dispatch to the Herald from Pontevedra, Spain, says: A romantic elopement, the central figure of which is the daughter of wealthy parents, of Madrid, who were spending the summer here, took place today. The family was about to return shortly to the capital, where the young girl was to be married to a Castilian noble.

During her stay here, however, she fell in love with a young man of this town and they planned to elope. The parents of the young woman warned of their preparations and determined to prevent it, and for that purpose hastened their departure for Madrid. Three automobiles were on hand this morning for the purpose.

The girl's sweetheart turned these preparations to his own advantage, however. In the garb of a chauffeur he appeared at the house and begged the young woman into one of the machines. Then he jumped on the seat and pulled the lever and the machine rapidly sped away. The angry father, on trying to use the remaining automobiles for the purpose of pursuit, found that they had been rendered useless, the motors refusing to work. It is supposed the runaways made for the Portuguese frontier. The police have been informed and asked to aid in recapturing them.

GEORGE AT TULA.

Tula, Russia, June 19.—Henry George, Jun., is at present the guest of Count Leo Tolstoy at Yasnaya Polyana. The count welcomed his visitor most cordially on account of his former economic ideas he admires greatly.

**LAST FIVE WELLS
ARE PURE WATER**

Provincial Analyst Gives Certificate of Character to the Beck Additions.

The water commissioners will obtain the opinion of the Underwriters' Association on the Beck water scheme. Next week Mayor Stevely and Commissioner Darch will be in Toronto on other business, and it was decided that they should interview the Underwriters and find out the opinion of that body on the proposed scheme.

"I think it is proper that we should get their opinion on the scheme," said Mayor Stevely. "This is customary, and we should know whether or not it will make a difference in our insurance rates. They are very high at the present time, and we should endeavor to have them lowered."

"We should get their opinion in any event," said Mr. Darch. "We will lay the whole proposal before them, so that they should know what it means."

It is likely that the conference will take place on Wednesday next.

**LADY ABERDEEN IS
ONCE MORE PRESIDENT**

Results of Elections of the International Council of Women.

Toronto, June 19.—The International Council of Women elected officers at noon today, as follows: President, Lady Aberdeen, Ireland; first vice-president, Mrs. O'Connell, Scotland; second vice-president, Countess Spilletti, Italy; third vice-president, Frau Hainstie, Australia; honorary corresponding secretary, Dr. Alfie Salomon, Germany; honorary recording secretary, Dr. Alexander Sjoglund, Denmark; honorary treasurer, Mrs. W. E. Sanford, Hamilton, Canada; honorary president, Mrs. May Wright Sewall, United States.

**SOUND UNDERWRITERS
ON BECK SCHEME**

Mayor and Water Commissioners Will Interview Insurance Men Next Week.

The last five wells of the Beck scheme are hygienically pure. At the meeting of the water commissioners, held at noon today, the report of Dr. Alfie Salomon, provincial analyst, was read, in which he stated that the wells contained no colon bacilli.

He pointed out that the bacteria content was rather high, but this was owing to the fact that the samples were delayed by the express companies and did not reach Toronto until many days after they were shipped from London. Consequently the bacteria would increase rapidly, especially in warm weather. This fact, however, did not affect the purity of the water at all. The bacteria content of water varies, and as a rule the Beck wells have shown a low count.

The special reports were not presented, and Commissioner Darch suggested that they be asked for. This will be done.

**JUNE PERMITS TOTAL
HUNDRED THOUSAND**

Building Goes Steadily on in London—The Latest Crop.

Building continues to boom, and it is more than probable that the month of June will show \$150,000 worth of building.

As a matter of fact, 75 permits for a total value of \$93,109 have been issued by City Engineer Graydon so far in June. The month is little more than half through, and at least \$50,000 worth more permits should be taken out before Dominion Day.

The number of permits issued last June were 22, with a value of \$61,000, so that the month shows an increase of 50 per cent.

"There are a number of permits being issued," said City Architect Nutter. "A large part of these are for residences, and they will add greatly, not only to the appearance of the city, but to its assessment."

NEW PERMITS.

Among the permits issued today by City Engineer Graydon were the following: Merchants' Bank, alterations to building on Richmond street; Mrs. Mills, one-story brick, on Dufferin avenue; McCormick Manufacturing Company, alterations to their plant; W. T. Kelly, verandah, on English street; Joseph Cartier, verandah, on English street; Joseph Nolan, alterations to two-story brick on Queen's avenue; M. Rapsey, story and a half brick veneer residence, on Glebe street; J. H. Phillips, story and a half brick veneer, on Glebe street; J. J. Scott, frame addition to house on Becher street; Mrs. B. Barkwell, two-story and attic residence on Brick street; J. Tanton, three-story building, York street; W. Gray, two-story brick house on Richmond street, and W. H. Nichol, story and a half brick veneer on Princess avenue.

SHOPLIFTERS CAUGHT.

Toronto, Ont., June 19.—A woman and her daughter were sent to the common jail for fifteen days by Magistrate Kingford in the police court this morning for shoplifting from the T. Eaton Company's store.

Mrs. Marty Varty, of avenue road, and her daughter, Mrs. Minnie Johnson, of Rainy River, were the culprits. Both pleaded guilty. The women were both extremely well dressed and when arrested and searched had \$90 in money between them.

**A TRUNK MURDER
IN NEW YORK CITY**

Awful Deed Laid at Door of Chinese Mission Scholars.

VICTIM A WHITE GIRL

Strangled and the Body Placed in a Trunk and Not Discovered for a Week.

New York, June 18.—The dead body of Elsie Sigel, a young Chinese Sunday school teacher, was found tonight in a trunk in the room occupied by a Chinaman named William Leon, at No. 782 Eighth avenue. The girl, who apparently was dead strangled to death, was 20 years old, and a grand-daughter of Gen. Sigel, a noted civil war commander.

Miss Sigel disappeared from her home on June 9, and her father went to the Chinaman's room late tonight, in an effort to identify the body.

One of the odd phases of the case is the failure of the murdered girl's father, Paul Sigel, to identify the body as that of his daughter, while the girl's mother has declared that the articles of jewelry found in the room with her body belonged to Elsie Sigel.

Acquaintances of Miss Sigel who have seen the body of the murdered girl assert that it is that of Miss Sigel, and a number of persons have been found by the police who declare that the young woman had been a friend of the Chinaman, William L. Leon, in whose room the body was found.

Notwithstanding these identifications it was stated at the home of Mr. Sigel at 209 Woodworth avenue today that Paul Sigel, the girl's father, had gone to Washington to "bring Elsie home."

Can't Find Leon. Wm. L. Leon, the Chinese, who was also known by several Chinese, was still unknown today, as was also another Chinaman, Chung Sin, who occupied a room adjoining that of Leon. Both rooms are on the fourth floor of 782 Eighth avenue, between Forty-seventh and Forty-eighth streets, over a Chinese restaurant conducted by Sun Leung. The police are searching for Leon, but with scant hope of finding him, as it is believed that the murder was committed possibly as early as last Thursday.

Today the girls gave out a report that Leon and Chung Sin had sailed on Friday for Vancouver on a steamer going by way of the Isthmus of Panama. Precautions have been taken to prevent the steamer at an intermediate port if possible.

The police of Washington, D.C., have been asked to alert the New York police by having the original copy of a telegraph message, which was received by the girl's parents from that city last Saturday, saying: "I will be home by the end of the week. Don't worry." It was signed with the name of Elsie Sigel.

Leon Was Infatuated. Mrs. Florence Todd, one of the missionary workers in the Chinese section, who identified Miss Sigel's body, told the police that the girl and the Chinaman had been thrown much together for years, and that she was greatly enamored of the girl, that he was intensely jealous of her, and disliked her to receive the attentions of other men. This had caused Miss Sigel to fear Leon, Mrs. Todd said. That Leon had other correspondents than Miss Sigel was discovered when between 1,500 and 2,000 letters, mainly from various women in New York and other cities, were found in his room. Among the number were some signed "Elsie," which were described by the police as love letters. The contents of most of them was not revealed by the police, but in one of them "Elsie" preached Leon for causing trouble between her father and herself.

"Just think of the sacrifice I have made for you," she wrote in one letter.

A notebook belonging to Leon and containing the names and addresses of hundreds of women and girls, was found in Leon's room. One of the discoverers regarded by the police as significant in the case is a shoe and stockings were not found in the room where her body was discovered, and it was inferred from this that she had been kept prisoner over a period of fifteen hours before the body was taken from her to prevent her from leaving the room.

**MILLIONAIRE'S FATE
NOW IN THE BALANCE**

Famous 'Frisco Bribery Case Goes to the Jury.

San Francisco, June 19.—Concluding the greatest issue in the history of the San Francisco graft scandal, the case of Patrick Calhoun, millionaire president of the United Railroads, charged with bribery, was given to the jury shortly before noon today, a trial that dates back to January 12, 1908.

Assistant District Attorney Francis J. Heney, in a session of court that opened an hour before the usual time, added materially to an argument that had already extended to every afternoon before Judge William H. Lawrence, began the charge to the jury a few minutes before 11 o'clock. Every action of municipal politics and every shroud of bitter sentiment that had arisen since the overthrow of "Boss" Abraham Ruef three years ago, was presented in the overwhelming strong evidence of the case.

Mounted policemen had charged into the crowds again and again, and a full company of patrolmen inside the building as the trial was scarcely able to preserve order and regulate admission to the court room.

COLD AT MONTREAL.

Montreal, June 19.—The majority of Montrealers are still wearing overcoats as the result of the cold dip, although today's temperature is an improvement on yesterday's. Yesterday's lowest thermometer reading was 48, the lowest for June since June 8, 1905.

**SOLOMON BRUNT
MUST KEEP PEACE**

Another Chapter in the Story of the Clarence Street Hen.

The case of Solomon Brunt, charged by Wolf Sobel with using threatening language, came up before Magistrate Love this morning, and after hearing the evidence Brunt was bound over in the sum of \$200 to keep the peace towards Mr. Sobel for one year.

Both men were up in court last week over the alleged stealing of a Plymouth Rock hen, and on that occasion started fighting among themselves in the court room and the court dismissed the case altogether. Mr. Sobel testified this morning that when he was down the stairs Mr. Brunt threatened to do all sorts of things to him. The court found Brunt guilty and bound him over to keep the peace.

Four first-time drunks were let go, and another man who has been up several times was again allowed to go on the understanding that if he comes up again he will be placed on the Indian list.

Joseph Firstbrook, charged with encumbering the street, was fined \$1.

**HORSES CONSPIRED TO
MAKE RIDE UNPLEASANT**

Unpleasant Action of Two Pairs of Equines Towards Fair Passengers.

Miss M. Ginge and Miss Dora Labatt, well-known young society ladies, were in two runaway accidents yesterday afternoon, and within the space of an hour had rather an exciting time.

The ladies were making an afternoon call, and while driving down Queen's avenue in a carriage the driver lost control of the horses and the horses were about to run down William street to Richmond street.

The ladies were considerably frightened and got out of the carriage and secured another one. They were driving down York street when the second team also got frightened and bolted.

The horses were stopped near the corner of York and Tait streets, and the ladies got out altogether and continued their journey on foot.

**MONDAY WILL BE THE
LONGEST DAY IN YEAR**

After June 21st the Days Will Gradually Grow Shorter.

The man who gets up at sunrise on Monday morning and stays up till sunrise tomorrow will have the experience of sitting through the longest day in the year. Since January the days have gradually been getting longer, as the earth gradually drew nearer to the sun. Every morning the busy robin has been called to get up a few minutes earlier if he was to acquire the proverbial worm, and every night sweethearts have been able to sit out a few minutes longer on the benches in the park. But after Monday the change will begin. The robins and sparrows, who delight to carol under a starry sky, will have to be content with the morning, will start to sleep in a little later every morning, and the fond farewells in the park will be called to get up each night. All of which goes to prove that the corner of the year has been turned, and little as it would be thought, the old world has begun its journey back to winter again.

**CANADIAN CADETS
WON AT SHOOTING**

Kingston, Ont., June 19.—In a shooting competition between the cadets of Sandhurst, England, and the Royal Military College, Kingston, Ont., held last week, it is learned that the Canadians won the first time won out by 50 points.

PLAGUE AT ST. PETERSBURG.

St. Petersburg, June 19.—The cholera in St. Petersburg is assuming rapidly the proportions of the epidemic of 1908. Fifty-three persons were removed to hospitals today, making the total number of cases 1,700. Sixteen persons have been sent to hospitals. Ten deaths occurred during the twenty-four hours ended at noon today.

TRIED TO SUICIDE.

Montreal, June 19.—Charged with having attempted to commit suicide in Notre Dame Hospital by tying a towel round her neck in an effort to strangle herself, Mrs. Robina Howard, a young French-Canadian woman, who came here a few weeks ago, from Cobalt, Ont., and entered the hospital to undergo an operation, was taken to police headquarters last night. She is believed to be insane.

THE WEATHER.

TOMORROW—FINE AND WARM.
Moderate to fresh west to south winds and warm today and on Sunday.

TEMPERATURES.
Stations. Max. Min. Weather.
Calgary. 64. 50. Clear.
Winnipeg. 74. 60. Clear.
Port Arthur. 72. 58. Clear.
Perry Sound. 54. 40. Clear.
Toronto. 60. 46. Clear.
Montreal. 58. 44. Fair.
Quebec. 48. 38. Cloudy.
Faber. 60. 42. Rain.

WEATHER NOTES.
Pressure is low in the Lower St. Lawrence valley and in the northwestern portion of the continent. Elsewhere generally high.

MINIMUM AND MAXIMUM TEMPERATURES:
Toronto, 48-60; Oshawa, 50-60; Vancouver, 48-62; Kamloops, 54-66; Port Arthur, 52-72; Battleford, 58-74; Edmonton, 52-72; Winnipeg, 64-76; Moose Jaw, 52-64; Regina, 54-66; Parry Sound, 48-60; Toronto, 48-60; Ottawa, 48-62; Montreal, 48-60; Quebec, 48-58; St. John, 54-62; Halifax, 52-62.

**MILITIA CAMP
COMES TO CLOSE**

Soldiers Have Left Carling's Heights for Homes in Different Places.

TARGET PRACTICE SCORES

Splendid Programme of Sports Carried Out Yesterday—Many Citizens Were Present.

Everything was bustle and stir at the camp this morning from daylight until noon. All morning the troops, who have spent the last twelve days under canvas on Carling's Heights, were busy getting back to their homes in various parts of the district.

By noon only the parties that remained behind to take down the tents and look after their removal were left on the heights.

The work of looking after the transportation of such a large number of men and horses and all their supplies and accoutrements involved a very great deal of detail, but it was all accomplished without a hitch, and the men got away exactly on schedule time.

Neat and Orderly. A feature of the departure of the men from the camp was the care taken to keep everything neat and orderly, and a special order was issued yesterday to the effect that no commanding officer would be allowed to march his men off his lines without first receiving a certificate from the chief staff officer that his lines were left clean and in good order.

Captain Gibson, R. C. R., Wolseley Barracks, and Major McCormick were the transport officers.

Target Practice. The results of the target practice at the different ranges were made known yesterday and show that the standing is one of the highest ever taken by troops encamped in London. The following are the results:

Regimental Figure of Merit.
First Hussars, 3.40; Twenty-Sixth Regiment, 3.43; Twenty-Seventh Regiment, 3.25; Twenty-Eighth Regiment, 3.25; Twenty-Ninth Regiment, 3.24; Thirty-Third Regiment, 3.36.

Highest Squadron or Company Figure of Merit.
C. Squadron, First Hussars, 3.59; B. Company, Twenty-Sixth Regiment, 3.80; B. Company, Twenty-Seventh Regiment, 3.76; B. Company, Twenty-Eighth Regiment, 3.88; B. Company, Twenty-Ninth Regiment, 3.88; A. Company, Thirty-Third Regiment, 3.89.

Best Shot in Each Regiment.
First Hussars, Q. M. S. Livermore, 62; Twenty-Sixth Regiment, P. J. Waddell, 63; Twenty-Seventh Regiment, Col. Sergt. J. C. Reid, 66; (continued on Page Ten.)

**FARMER'S TEAM IN
RIDOUT ST. RUNAWAY**

Made Record Time Until They Finally Wound Up.

There was a lively runaway on Ridout street shortly after 9 o'clock this morning when a team belonging to Mr. A. Dunaw, of Belmont, suddenly bolted from the Saulty mill where they were standing, and started on a record run down Ridout street.

Mr. Dunaw was in the mill at the time, and in some way the horses became frightened, and making a quick turn started cityward.

Just in front of the court house sewers were being put in, and the road is badly cut up. When the foreman in charge of the work saw the horses coming down the street at a terrific pace, he called his men out of the drain and had them hold planks across the road at Dundas street. By this means the horses were tripped up, and the team slid along till they were just over the deep ditch. The cut over ten feet deep at this point, and it was only the prompt action of the men engaged there that prevented both the horses being killed. As it was, practically no damage was done.

**WEEKLY SITTING
OF HIGH COURT**

Several Cases Were Heard Today by Justice R. M. Meredith.

The usual weekly court was held this morning, with Mr. Justice R. M. Meredith presiding. The following cases were heard:

James Smith vs. Agricultural Savings and Loan Company—Mr. R. Bayly moved ex parte for an order for payment out of court of \$47 22 to T. H. Hamilton, being the amount owing by the mortgagee, James Smith, and for the payment of the balance of the moneys in court to the mortgagee, James Smith, and to his wife equally. Order to go upon filing affidavits showing that no claim exists against the mortgagee or his wife in the registry or sheriff's offices.

Re the John Weir estate, Alex. A. Stuart, K. C., obtained an order ex parte for the payment into court (the consent of the official guardian having first been obtained) of the infant's share of the personal estate of the deceased, being \$395 15. The costs to be borne by the estate.

Re D. G. Cuthbertson vs. Royal Bank of Canada—An application on behalf of D. G. W. Crocker & Son, bringing an action in the name of the assignee, Cuthbertson, to set aside the mortgage made to the defendants. The motion was granted for one week in order that the assignee be served with notice or that his consent be obtained. Mr. F. E. Perrin for the motion.

Next Saturday's weekly court will be the last till the end of the long holiday, unless it should be necessary to call one for some particular reason.

**VERY MANY CASES
IN VICTORIA HOSPITAL**

Superintendent Heard Reports That There Are Now 128 in Institution, Mostly Surgical.

"There are 128 patients in Victoria Hospital at the present time," Superintendent Heard told The Advertiser, this afternoon. "This is a greater number by fully 25 per cent than we have ever had in the month of June. The cases were largely of a surgical nature and there are hardly any cases of contagious diseases."

**COUNCIL MAY NOT
DEAL WITH BYLAW**

Water Scheme Not Likely To Be Advanced Until Mr. Beck Returns.

The Beck bylaw may not come up at the council on Monday night for two readings.

A request was received from Mr. J. C. Judd, K.C., asking that action be delayed on it until such time as Mr. Beck is in a position to give his views on the addition of \$25,000 to his scheme.

"The bylaw will not be dealt with at the meeting of the council on Monday night," said a prominent alderman this morning. "The council would probably pass the bylaw as it stands had Mr. Beck been consulted by the commissioners regarding the change, but it is not at all likely that the bylaw will pass until Mr. Beck has had a chance to clear up his side of the matter."

**CLERGYMEN MOBBED
BY ANGRY PARISHIONERS**

Catholic Bishop and Priest Were Roughly Treated by Nebraska Village Folk.

Ulysses, Neb., June 19.—Right Rev. Bishop Bonneau, of the Catholic diocese of Lincoln, Father O'Brien, of Seward, and Father Kilne, of Brainard, were driven from this village by an angry mob of some 200 persons last night. The bishop and his priests came to Ulysses to take possession of a church over which Father Murphy had charge. Sympathizers of Father Murphy, both Catholics and others, joined the mob, and would have done violence to the bishop and the priests had it not been for the strenuous efforts of Father Murphy, who counselled the mob to do no violence and requested that the visitors be left alone. So threatening, however, was the aspect that Father O'Brien got a lively rig, and with Bishop Bonneau and Father Kilne, left in the direction of David City.

The rig was followed by an automobile full of church enemies of the bishop. The rig was overtaken three miles from town and the bishop and the priests were forced to get out and walk while the Ulysses men were made to drive back to Ulysses without his fare.

When last seen the bishop and the priests were walking along the road toward David City. They were not harmed, but threats were made to "egg them," "mob them," and to treat them to various indignities.

**THE MOUNTED POLICE
ON BAD MAN'S TRAIL**

Ex-Convict and Montana Outlaw Horse Rustling in Saskatchewan.

Humboldt, Sask., June 18.—The Humboldt detachment of the Royal Northwest Mounted Police are having a hot chase after a Montana bad man, who is working the country to the north of here, literally armed to the teeth. The man is an ex-convict with a bad record, a crack shot and horse master. He swears he will not be taken alive. A few days ago he rode into Viscount, Sask., and posing as a sheriff, "lifted" six valuable horses, which he drove northwards with him. The Mounted Police were notified, and a general order sent out for his arrest. Momentarily word is expected of a fight which will last until the rustler is either killed or put out of business. As far as can be learned, this man, "Red" Murphy, alias Ryan, escaped from the provincial jail in Winnipeg some two years ago, and has since made his headquarters in the vicinity of the Big Muddy River, Montana. It is understood the State of Montana has offered a big reward for his capture on account of his rustling operations in that state. When he escaped from Winnipeg, jail he was awaiting trial on a charge of horse-stealing, and the Montana authorities were also after him at that time on a similar charge, but he has since added to his crimes many times over.

STEAMERS ARRIVED.

May 18.—At New York—Lithuania, from Lithuanien, from Liverpool, from Manchester—Lithuanien, from Boston. At Plymouth—President Lincoln, from New York.

At London—Lake Michigan, from Montreal; Pomoranien, from Montreal; At Cherbourg—Prinz Friedrich Wilhelm, from New York.

At Cadix—Montevideo, from New York; At Genoa—Prinzess Irene, from New York.

At Father Point—Manchester Shipper, from Manchester.

At Cape Magdalen—Victorian, from

**COUNTY IS NOT
RIGID ENOUGH**

Camp Was All Right, Says Mr. McDermid, But Oh! You County.

WILL STOP BLIND PIG

Which He Alleges Did Business Across the City Line—A Quiet Camp.

Secretary McDermid, of the Temperance League, stated to The Advertiser this afternoon that if the camp is held here next year the temperance people will take steps to see that a more rigid inspection on the part of the county authorities takes place.

"We are satisfied that as far as the camp itself was concerned," he said, "there was very little, if any, liquor on sale, but from what we have heard it should not have been hard work for the county inspector to have found liquor for sale in the vicinity of the camp. We intend to take the matter up with the authorities next year and try and have this blind pig selling stopped."

"It was a very quiet camp," said Inspector Galpin. "It was reported to me that liquor was on sale on a couple of occasions in the tents of both the Twenty-seventh and Thirty-third Regiments, but although I investigated closely I was unable to find that the law was being broken."

**ARCHITECT NUTTER
IS NOT WORRYING**

Chairman Jones and Others Gather With Him and Extend Sympathies.

City Architect Nutter is not worrying because
