### TWENTY THOUSAND HEAR SIR WILFRID LAURIER AT WOODSTOCK MEETINGS

The Visit of Liberal Leader and His Colleagues to Capital of the Oxfords Was Marked by the Greatest Political Demonstration in Years.

#### A DAY OF GREAT ENTHUSIASM AND EXTRAORDINARY CROWDS

Five Big Gatherings Listen to Powerful Addresses in Support of Principles and Policies-Brilliant Tribute to Old Chieftain's Services By Mr. Rowell, K.C.

[By Our Own Man.]

Woodstock, Oct. 4.-Had a Liberal enthusiast ventured to suggest to Sir Wilfrid Laurier and his colleagues this morning that Woodstock's welcome would completely overshadow the wonderful demonstration in Chatham the evening before, the old chieftain would have smiled, indulgently, and probably informed the party that it looked like a pleasant day.

However, that is exactly what did happen. For unbounded enthusiasm for cheering, demonstrative crowds, the proportions of which exceeded these of any political demonstration in recent years in Western Ontario, nothing marriage is under the jurisdiction of could surpass the greeting accorded the great Canadian statesman here today. MANY THOUSANDS THERE.

Thousands of people of both stripes of politics, from Lake Erie on the south to Stratford on the north, from Hamilton on the east and Sarnia on the west, gathered here today to honor the Liberal leader.

Special trains on every line running into the city brought thousands of cheering, enthusiastic Liberals and their friends to pay their tribute to so grades of the G. T. P. The efficiency of the Methodist Church this morning distinguished a gentleman.

A MIGHTY OVATION.

It was a demonstration worthy of a conqueror returning to his native land from a victorious campaign abroad. It was hard to convince oneself tion and their lack of a naval policy, foreign fields. The committees on apthat this was a spontaneous outburst of affection for a great leader, not in the heyday of his power, but one who was for the time being in eclipse. The dressed the people. Ontario had not imagination, after today's outpouring, can hardly grasp what a welcome he would have received were he once again in his proper place, that of Premier of Canada. If ordinary rules of proportion were to be followed, at least 90 led him to believe that in future On- used exclusively in work in the Doper cent of the population of Western Ontario would have been on hand to do him honor.

#### TWENTY THOUSAND PRESENT.

As it was, it is estimated that fully 20,000 people from all portions of the district about Woodstock, came to pay their respects to Sir Wilfrid Laurier, The compliment was not lost on him. It touched the grand old man deeply. and he felt that the time was not far distant when he again would be guiding the destinies of Canada, working for national peace and harmony.

A new spirit has come over the party. It is most apparent that the people of Ontario particularly have come to the conclusion that they were hoaxed in the now celebrated reciprocity campaign, and that a grave injustice was done

#### LEADER IN FINE SHAPE.

The old chieftain carried his burden of three score years and ten without losing any of his sprightliness and good humor. Two speeches a day is a task for any ordinary man, but this septuagenarian spoke no less than five times, twice over an hour, and retired at night, tired physically, but mentally as alert as in the early day. It was a triumph for him, a wonderful demonstration from the physical standpoint alone. More than one keen observer wondered of what stuff was he made that he could do the work of a young man and show so little effect from it.

#### STRONG SPEECHES.

His speeches were masterpieces, clear, logical expositions of his position on the great questions of the day, interspersed with delightful touches of sentiment and good-natured bits of banter. Particularly effective was he when he recited the story of Ned Crane, his Irish friend, who in expressing thanks for a gift from Sir Wilfrid said: "May heaven be your bed, and may

"I want to be kept out of bed until I have had another tussle with the Conservatives," declared the valiant old leader, and the building fairly shook with the cheering that followed this unique challenge.

#### REAFFIRMS POLICIES.

Sir Wilfrid reiterated in stirring tones his faith in the trade policy advoeated by his party. Other things had ministered to his defeat-slanderous things, whispered in the dark. Reciprocity had been defeated, not on its merits. The problem had not yet been solved. It still remained, and the people of Canada would at a day not far distant demand that the problem be settled and settled properly.

#### A COMEDY SKETCH.

Another fine touch to his various speeches was his comedy sketch, it might be termed, of the Borden cabinet discussing the navy question. On the one side were Foster and others demanding a navy, an imperial navy, and on the other hand, Monk, Nantel and Pelletier declaring that they would have no navy of any kind. After listening to the arguments, easy-going Premier Berden would lay the matter over, deferring the exposition of a definite platform on this question. This combination of Toronto jingpes and Quebec Nationalists endeavoring to prepare a naval policy was wonderful in its absurdity. Other questions were touched by the crowd, and the rink was opened,

Mr. Rowell's Tribute. At the afternoon meeting in the opera house, Mr. E. W. Nesbitt presided. He spoke briefly, introducing Mr. N. W. Rowell, the brilliant leader of the provincial Liberals. Mr. Rowell said he was glad to be present to welcome the greatest Canadian of all time, Sir Wilfrid Laurier. His record was brilliant with achievement, and his career was one of service to his country and the Empire. Though eclipsed for the time being, Sir Wilfrid would yet come into his own, and lead the party back to power. Mr. Rowell was enthusiastic over provincial politics, and predicted the return of the Liberals.

The Premier. Sir Wilfrid was given a tremendous ovation on rising. He thanked them for the heartiness of the greeting. Every meeting in this notable tour was better than the last. He expressed his appreciation of the compliments paid him by Mr. Rewell. He could say that during his long career he endeavored to do his duty to all, regardless of class, creed or color. His defeat at the last general election was not compassed by legitimate means, by a frank and free discussion of political questions, but by whisperings and innuendoes. That was not a campaign to be emulated in this or any other country.

"Thousands voted against the Liberal party in the hope that the change of Government would bring about a universal marriage law," said Sir Wil-

for the evening meeting, where Mr. Robert Douglas acted as chairman. The Old Chieftain was in excellent spirits after his ride about the streets in the procession.

Mr. N. W. Rowell, M. P. P., was the first speaker. He felt proud of the magnificent reception tendered Sir leader of Liberalism in the Dominion, and one that he would long remember and cherish. Sir Wilfrid's legitimate place was at the head of the Government, and the day was not far distant when he would again be occupying William Elder Was a Prominent Henthat very proud position. A Great Ovation.

Sir Wilfrid was given an ovation not soon to be forgetten by those who heard it. When he was permitted to speak, he dealt with the great issues before the public, the navy and wider markets. For the former, he advocated as he has always advocated, a navy, built in Canada, manned in Canada so far as possible, and under the control of the Canadian people, but ready to be given to Great Britain should the necessity arise.

Wider Markets.

Reciprocity had been defeated, but wider markets for the West were still needed. He pleaded for no divisions in Canada. The East should deal fairly with the West. The easterner had The West had not the railway facilities needed, and had not the markets goods were finding markets, the Government looking after that very carefully. A market for Canadian-grown goods was just as important, and every effort should be made to procure that for the West. The latter had not been fairly dealt with

It reminds me of a story I once heard of an acrobat, who advertised that he would attempt to jump over St. Paul's Cathedral in London, England," said Sir Wilfrid. "On the day specified, a great crowd was on hand to see this great feat. The acrobat appeared, in full regalia for the occasion. After surveying conditions carefully, he announced to the crowd that the jump would have to be postponed because his assistant had not put straw on the other side for him to alight in. Mr. Borden is going to perform a great feat on the navy question, and he has sent Geo. E. Foster to England to put straw for him to alight in. (Laughter.)

Hon, Mr. Graham compared conditions in Canada, when Sir Wilfrid assumed power, and when he handed over reins of Government to Mr. Borden. When Mr. Fleiding became minister of finance, he found an I. O. U. for half a million in the treasury, left by G. E. Foster. When he left last year there was a surplus of \$30,000,000. "That shows what kind of husiness-
