> BANK OF ENGLAND. [Canadian Press.] ment of the Bank of England shows the following changes:

later as the Government weekly crop weather report was not so bad as expected. Wall Street renewed its selling and New Orleans also sold so did Liverpool. Wall Street was a seller of October and January. The Government report showed that weevil are less numerous in Texas and states that the crop is in excellent condition east of the Swanee River. Florida has improved. The highlands of Alabama made fair progress. In North Carolina conditions are generally very promising. In Tennessee and northwestern Mississippi they are favorable. In Arkansas except on some highlands where rain is needed it is

ousness-they are constipation and de fective liver action. they are not only to correct constipated bowels, but act upon the liver as well Quite unlike ordinary medicines he lief.
