

FIREMEN, POLICE AND NURSES ON DUTY AT FAIR

Value of Emergency Hospital On Grounds Has Been Proven.

EXCELLENT ORDER

Two Small Fires Have Been Extinguished in Early Stages.

Law, order and safety are well provided for in the big exhibition city which bustles with life and activity in Queen's Park this week. Some people may be inclined to think there is not enough fire protection, the big new truck being at the fair grounds mainly for purposes of exhibition, but it is equipped with detachable hand extinguishers, which have already been used with satisfactory results in a couple of small fires earlier in the week, and in the event of a big fire breaking out, the East London and southeast London stations are only a few blocks away. Two firemen are on duty at the grounds throughout the day, and three at night. There are plenty of fire alarm boxes throughout the grounds, and the police and fire departments are instructed to attend to their location and method of alarm.

Inquiry revealed the fact that in the event of any of the diving girls nearly drowning in the fair pond on the Midway, there would be no pump-out available nearer than the central fire station, but according to the firemen, the pump-out is very useful in the event of a fire. The firemen do not think very highly of the efficiency of the pump-out, but the officials of the St. John Ambulance Nursing Division, in charge of the emergency hospital on the grounds, are inclined largely to the same view.

Police Protection.—Police protection is provided by a fairly large division of the police, according to the direction of Inspector Thomas Lucas. Everybody has been ordered and law-abiding on the grounds this year, with the exception of two or three men who are suspected of offering after closing hours at night, deducting small forcible expeditions after everybody else has gone to sleep, and police court proceedings will be the result. They will appear in court tomorrow.

Police protection will be continued until Monday noon, according to a decision of the fair board at its noon meeting today. The gates will be closed on Sunday, no one but exhibitors and passholders being admitted.

The emergency hospital has so far handled about 150 patients, some of them quite seriously injured or ill. The hospital is conducted by No. 51 Nursing Division, St. John Ambulance Brigade, a branch organized by members of the Maitland Street Reorganized Church of Latter Day Saints.

Two women fell on the grandstands yesterday, one spraining her ankle so badly that the hospital attendants for a time regarded her condition, and another woman fractured both her arm and her nose. Six severe fainting cases were handled.

A troupe of tumblers has supplied four or five patients. Their rapid-speed cart-wheel turnings are very entertaining from the viewpoint of the fairgoers, but fraught with the very real danger of seriously sprained wrists from the performer's standpoint, or perhaps one should say the performer's point of view, since they stand still very little.

Not a Pillow Fight.—The ten-mex or wild west show comes next on the list for providing work for the grandstands. The show is a pastime in the same class as pillow-fighting, and broken legs, sprained wrists, kicks and bruises are all a part of the daily routine which the members of the troupe declared that he could not imagine how they would have got along without Mrs. Swindall's emergency hospital.

Irrving A. Kempe, who was suffering from blood-poisoning, following an infected knee, is now convalescent, and also voices his appreciative tributes to the good work of the hospital. Scalds and bad cuts suffered by dining-hall and lunch-counter workers have been treated at the emergency hospital by the scores.

It really seems that there has been a much larger number of such minor accidents this fair week than in other years.

City Briefs

IS VISITING FAIR.—General Superintendent H. C. Groat, of the Ontario line of the C. P. R., is visiting the Western Fair today.

SALVATION ARMY AT FAIR.—On Friday night the Salvation Army will give a concert, accompanied by No. 2 Band, with the exhibition grounds at 7:30. Brigadier A. Crichton will be in charge.

WEEK-END SERVICES.—Adjutant N. Richards of the Salvation Army will go to Petrolia, where she will conduct services over the week-end. Staff Capt. and Mrs. R. Penfold go to Wallaceburg, and Brigadier A. Crichton goes to Sarnia.

JURORS SELECTED.—The annual selection of jurors which, by statute, must take place on September 15, was held at the court house this afternoon, when the number of jurors for the courts for the coming year was decided upon by officials.

POLICE FIND CROWDS ORDERLY.—Police find the crowds at the Western Fair to be very orderly. No pick-pocketing has been reported. It is thought that the vigilance shown in the past year has frightened away the "dips" this year.

MOTHERS THANK LIONS.—The mothers of the Day Nursery wish to thank the Lions Club for the outing and treats on Monday. Expense and time was not spared, and the children returned home happy, waiting impatiently for another London fair.

A. W. HUMPHRIES VISITING HERE.—A. W. Humphries of the provincial secretary's department, Regina, is visiting here. He is in London on business of the A. Talbot Company. Mr. Humphries was formerly engaged in the hardware business in Parkhill.

SEARCHING FOR BROTHERS.—Four weeks having elapsed since she has heard from her brother, Thomas Walker, Mrs. Olga Takovich, 50 Tecumseh street, Toronto, is in London, hoping that she may be able to locate him. Walker was formerly employed here with the Moore Fruit Company.

CHARGED WITH THEFT.—Leonard Hutchinson of Chicago, colored, and Harry Redwell of Winnipeg, were charged with the theft of a pair of shoes from the Western Fair grounds today charged with theft. It is alleged that the two broke into the exhibit of the Hardy Company of Detroit, and stole a pair of shoes. They will appear in police court Friday morning.

ADJOURNED TWO WEEKS.—What disposition of a case in which a one-armed man, who ran away from home because his wife threatened to take him, who is absolutely penniless, and whose spouse refuses to live with him, but wants a separation allowance, is a matter which Deputy Magistrate J. H. Bartlett must decide. He has adjourned the matter for two weeks in order that an arrangement of some sort may be made.

G. T. R. OFFICIALS AT FAIR.—One of the most important and representative gatherings of officials at the Western Fair on Wednesday was the official visit of a number of Grand Central Railway transport agents. Several hours were spent on the fair grounds by C. G. Bowker, general superintendent, Toronto; C. E. Horning, district passenger agent, Toronto; and L. Graybill, general baggage agent, Toronto. They were in charge of C. Forrester, superintendent, and R. E. Ruse, city passenger agent, London.

CITY-BRED TEACHERS MAKE GOOD IN THE RURAL SCHOOLS.—Principal of Normal School Comments On Women's Institute Resolution.

Special training should be provided for rural school teachers who are themselves natives of the city, was the sentiment of a resolution passed at a Women's Institute meeting at Brampton the other day. The speakers agreed that it was a bad policy to have teachers in the rural schools, as they led the children's minds away from home. City girls intending to be rural teachers should have a course in rural education, they contended.

Principal Dearness of the London Normal School, commenting today on this said that there was a reason for this, and that as a matter of practice teachers reared in the city sometimes succeeded far better in the country than country-bred teachers, and vice versa. From the standpoint of experience, a teacher who has a knowledge of both rural and city life is a better teacher than one who is only familiar with one or the other phase of life.

In any event a great deal of emphasis is placed upon the conditions of teaching in the rural schools by the Normal School. The Normal school students in most cases look forward to teaching for a time in rural schools, and are urged to familiarize themselves with rural conditions in every way possible. During their course, they are sent out to rural schools to study and observe the methods of successful rural teachers.

SCHOOL PICNIC IS CAUSE OF DECLINE IN JUNE DEPOSITS.—Penny Bank Savings For the Other Months Show Big Increases.

Public school children of London are improving in thrift, according to figures issued on the Penny Bank savings system in local schools. Deposits in the system during March of this year totaled \$1,456.64, while those of the following month were \$1,887.92. In May of this year, an increase was also noted, the total deposits being \$1,753.58, or \$297.54 more than in March.

However, in June last, deposits of the kiddies fell off to \$904.64. In explanation of this feature board of education officials point out that the children's annual school picnic at Springbank. Instead of depositing their savings the youngsters are a run, hoarded system for the big outing, and in many cases exceeded their allowance so that subsequent deposits during the month were discontinued, parents wishing to retrieve some of the change disposed of by the offsprings on ice cream cones, lemonade and roller coaster rides.

In fact, one public school principal took place at the picnic, where he discovered that 28 members of his class spent a total of \$27 at the school picnic.

CLAIMS \$10,000 FOR DAMAGES FROM CITY AND ST. RY. COMPANY

Three Cases Set Down For Hearing at Supreme Court.

Three cases have been set down for the September session of the supreme court of Ontario.

Samuel J. Prowse is suing the London Street Railway Company and the city of London for \$10,000 for damages alleged to have been caused as a result of an accident in which his automobile and a street car figured on Richmond street at Bathurst street, on October 9, 1920. He claims negligence on the part of the defendants, and says that his auto was completely demolished and that he was seriously injured both externally and internally.

The defendants say that they were not negligent, and that if there was any negligence that it was on the part of the plaintiff, and that if he was not negligent, it was a mere accident case. Meredith & Meredith for the plaintiff; Ivey, Elliott & Ivey for the defendants. The action is a jury one.

Seeks \$1,000 Legacy.—Phoebe Wright is suing the Canada Trust Company as executors of the last will and testament of Christian Lucy Whiskard, deceased, for \$1,000. She claims that when the deceased was ill, she promised that if the plaintiff worked for her that she would bequeath \$1,000 to her. She says that the promise was not kept. The defendants deny the allegations, and put the plaintiff to the strict proof thereof. Meredith & Meredith for the plaintiff; E. T. Esch for the defendants. This case will be tried by a judge without a jury.

Alleges Seduction.—Andrew Watson of Moss Township is suing Murval Cameron of Palmerston for \$3,000 damages, claiming that the latter seduced his 17-year-old daughter while she was in his employ. He further claims that the offense took place in March 1920, and that the child was born on December 4, 1920. He claims damages for loss of service of his daughter. Elliott & Moss of Glencoe for the plaintiff; John L. Whiting of Kingston for the defendant. This action will be tried by a jury.

LIONS' CLUB WILL STAGE CHARTER NIGHT HERE NEXT THURSDAY.—On Thursday evening next, September 22, representative members of the International Lions' Association will gather at the Tecumseh House to participate in a red letter event in the history of the local body. It will be charter night for the London Lions.

Funeral arrangements were announced at the weekly luncheon at noon today. The utmost enthusiasm prevails throughout the association, and present indications the scheduled event will easily measure up to every expectation. The membership committee advise appreciable success in their undertakings while the entertainment committee promise that the evening will not be without a splendid array of oratorical and musical talent.

An impressive incident of the occasion, and the most important one for the local club, will be the formal presentation of their charter to Harry Newman of Toronto, international vice-president of the Lions of America. Local Vice-President Hamilton and Chris Wray, Foster, Charters and a score of others are lending every effort to make charter night a banner affair.

At today's meeting a very gratifying report by Cub Foster was received relative to the activities of the Lions on children's day at the fair. Cub Foster advised that more than two hundred orphans had been taken to the grounds by the club, given a good time, and returned safely. Through the efforts of the various institutions the children have expressed deep appreciation of their treat.

QUESTION OF AUDIT OF CITY GAS BOOKS WILL BE DECIDED.—A sitting of the Ontario Railway and Municipal Board will be held in Toronto on Wednesday, October 12, when the scope and personnel of the board of auditors to delve into the City Gas Company's books here will be decided, according to information received from the board by City Clerk S. Baker this morning. This information comes as a reply to the request forwarded early this week by the clerk for an immediate audit of the company's books.

At the last meeting of the city council members decided to ask for such an audit, which action is permissible under special legislation passed when the company was authorized to increase its rates temporarily from 90 cents to \$1.25 per thousand cubic feet of gas last spring.

Obituaries.—FUNERAL OF MRS. F. HENDERSON. The funeral of Mrs. Flora Henderson, who died on Monday, following a long illness, was held at the Mount Pleasant cemetery, where services were conducted by Rev. W. R. McIntosh of King Street Presbyterian Church at 2:30.

DIED AFTER LONG ILLNESS.—The funeral of Charles Bullen of 307 Dame street, who died in Victoria hospital on Monday, following a long illness, was held at the undertaking parlors of George Logan & Sons, this afternoon at 2:30. The Rev. W. R. McIntosh of King Street Presbyterian Church officiated. Services were conducted by Rev. Capt. G. Pugsley at 2 o'clock. He is survived by his wife, father and mother of this city, and two brothers, James of this city, and George at present in England.

DEATH OF INFANT.—The death of Kenneth L., the infant son of Mr. and Mrs. Charles Johnston, took place at the family residence, concession 6, Westminster Township, Wednesday. The funeral will be held Friday morning at 9 o'clock from the above residence to St. Peter's Cemetery.

IN DANCING IS "THE ROCK", SAY EXPERTS

Toddle, Shimmy and Others Go To Cemetery of Fads.

"When you step out on the floor this season, don't shimmy or toddle. It isn't done any more," is the advice of dancing instructors who attended the sixth annual meeting of the Ohio Association of Dancing Teachers, Inc., at Cleveland this week. "The rock" is the movement for the winter of 1921-22.

The "toddle" and the "shimmy" have gone the way of the turkey trot, the tango, the foxtrot, the kangaaroo dip, and the tango. Reformers did not exactly approve of these movements while they existed, but their demise was greeted with silence, and they were allowed to go to the cemetery of dancing "fads" without ceremony.

Some Londoners may have reputations as "shimmy hounds," but they must make the best of the situation and learn the "rock." The "rock" is said to be the chief of the promenade walks and requires more grace of movement than either of its predecessors.

According to directions given at the Cleveland convention, the new dance is done thusly: A balance, forward and back. Repeat same. Take four walking steps, rock, turn on right foot, holding it stationary as pivot. Do a rock side to side, completing the figure.

Already international and American associations have approved of the new dance. James McCormick and Mrs. McCormick of the Dayton-McCormick dancing academy, who have returned from the convention, say: "We buried the toddle for the dance for this season. It is a development of the 'hesitation,' and is much more graceful than the dances which have held sway this summer. All these dances with short, jerky steps are going. Their places will be taken by more graceful movements, which can really be classed as dancing."

FILTER PLANT WILL REMOVE THE IRON

Some Londoners Object to Mineral Deposits in the Drinking Supply.

Erection of the new filter plant for city water will be started at Horton and Ridout streets in the vicinity of the pumping station next Monday, according to General Manager John A. Baldwin. While the city drinking water maintains a high standard of purity, the filter plant will be installed to eliminate iron deposits sometimes present, which tends to give the water a rusty tinge.

All parts of the filter plant which could be obtained here are London products, although an outside firm was awarded the contract for the plant. Special apparatus could not be obtained in this city, and this was manufactured elsewhere, being forwarded here, and everything is now ready for setting up the plant.

LATE MARKETS

NEW YORK STOCKS

New York, Sept. 15.—Wall Street, 10:30 a.m.—Shorts were active at the opening of today's stock market, directing their efforts mainly toward oil, equipments, motors and copper. Mexican Petroleum, Shell Transport and Royal Dutch, fell 1 1/2 points. Baldwin averaged 1 point decline. Anaconda, Utah and American Smelting sustained fractional losses with American Car and Warehouse Electric. Offsetting features included United Fruit, American Linseed, General Asphalt, Central Leather and Sumatra Tobacco, these gaining fractional fractions to 2 1/2 points.

1.30 p.m.—Wall money eased to 1/4 per cent at midday, but steel, American Locomotive, Mercantile Marine preferred, United Fruit and some of the investment rails reflected their early rise, sure. Baldwin extended its early rise, however, and Pullman, Chase-Robuck and suvans strengthened.
