

WEI-HAI-WEI CAPTURED.

Japanese Attack on Chefoo—A Severe Engagement Still in Progress.

No Trouble Between Chinese and U. S. Naval Officers—Great Excitement.

LONDON, Feb. 8.—A dispatch from Chefoo this afternoon says the Japanese have carried the positions at Wei-Hai-Wei and have captured or sunk the whole of the Chinese northern fleet. The Japanese during the night of Monday last, February 4, cleared Wei-Hai-Wei harbor of all torpedoes and submarine mines by the skillful use of small torpedoes and steam launches from the warships, with which the small craft grappled for and out the wires connecting the submarine mines with the shore. When the dangerous obstructions were removed the Japanese torpedo boats made a splendid dash for the harbor and attacked the Chinese fleet with such skill that the battleship Ting Yen was sunk. Three destroyers were captured during the night of February 5, and, as reported, the Chen Yen, Lai Yen and other Chinese warships were blown up and the remainder of the Chinese fleet was captured. Following up this splendid success, the Japanese completed the capture of Wei-Hai-Wei yesterday by landing a large force and seizing the island of King Tao, which has made a gallant defence against heavy odds.

FEDERAL MINISTERS AT TORONTO.

TORONTO, Feb. 8.—Sir Charles Hibbert Tupper, minister of justice, last night formally opened the new rooms of the Toronto Young Men's Liberal-Conservative Club. With him were Premier Bowen, Hon. N. C. Wallace, Hon. J. C. Patterson and Hon. John Wood. The Premier spoke but briefly, explaining that the state of his throat prevented him from making a speech on the political situation.

CAPITAL NOTES.

Marine and Fisheries Department to Be Reorganized—Samuel Wilmut Superannuated.

Additional Honorary A. D. C.'s—Col. Prior on the List—Tremendous Snow Storm.

OTTAWA, Feb. 8.—The task of reorganizing the Department of Marine and Fisheries, which Sir C. H. Tupper had in view during the few last months of his tenure of office, is being energetically talked by Hon. Mr. R. Costigan, and within a little while it is expected that its reorganization will take place. The contemplated changes will involve the retirement of Samuel Wilmut, the present superintendent of fish culture, and S. P. Beaumont, chief clerk in the fisheries department. Mr. Wilmut's office will be abolished, the duties being performed by Prof. Prince, commissioner of fisheries.

U. S. MINISTER STEVENS.

ACQUITA, Me., Feb. 9.—John L. Stevens, ex-minister to Hawaii, died yesterday. On January 14, 1893, the Hawaiian legislature was prorogued, and Queen Liliuokalani at once signed the letterly bill, which Minister Stevens denounced as a direct attack on the government. The Queen having threatened to set aside the constitution, her ministers prevailed on her not to do so, but the committee of safety was formed. That committee requested that troops be landed from the warship Boston, then in the harbor, and Minister Stevens gave the necessary orders, a detachment of 150 marines being landed. After the troops had been landed the committee of safety, the Queen's minister of foreign affairs and the governor of the island requested that the troops be sent back to the ship. Mr. Stevens refused. On January 17 the committee of safety met and declared the monarchy abolished and a provisional government formed to exist until the United States annexed the islands. The committee of safety took possession of the government buildings, and the de facto government was promptly recognized by Minister Stevens and Capt. Wilkes established a protectorate over the Hawaiian islands, holding the American flag. The Harrison administration at once disavowed Stevens' action in regard to the protectorate, but the American flag was kept flying and troops stationed on the shore until the Cleveland administration took charge of the American government. Under President Cleveland the U. S. flag was hoisted and Minister Stevens being removed in May, 1893.

SWEEP BY THREE STORMS.

The Eastern and Middle States and Atlantic Provinces of Canada Affected.

Tuesday's Gale has a Precedent Only in the Terrible Storm of 1888.

NEW YORK, Feb. 8.—Save for the lesser fall of snow, the blizzard which struck the metropolis last night and has not yet taken its departure will rank with that of March 12, 1888. The increasing severity of the storm, the wind reaching a velocity of 70 miles an hour at noon, and the accumulation of ice in the rivers during the day, brought about a condition which has probably never before been known in this city. The telegraph and telephone wires were not down, have been brought into play to quiet anxiety in numberless out-of-town homes, and the hotels are crowded by unwilling guests. Nearly all of the ferries are down, and attempts to force the ice blocks, and the enormous portion of Brooklyn's population which moves to New York every morning by the homeward journey to the East River bridge. The streets had been deserted all day. To walk it was heroic work, yet great crowds essayed the task. No tugs ventured below the Narrows. Vessels were ordered to the lower bay, and the upper bay for more favorable sailing conditions.

PHILADELPHIA, Feb. 8.—Not since the March blizzard of 1888 has the storm swept Eastern and Central Pennsylvania as that which began yesterday evening. Railways were taught a lesson by the '88 storm and were better prepared to meet such a flooding. The Pennsylvania had been snowed out and abandoned by their crews. In this city the snow ceased falling about 4 m., after about seventeen inches had fallen. In Central Pennsylvania the storm is still raging.

CHICAGO, Ill., Feb. 8.—There was a general improvement in the weather conditions Tuesday's storm says that McLeod's job, a factory at Little River was blown down. Several boats were wrecked and several fishing houses destroyed on the north shore of St. Ann's. No loss of life is reported.

ST. LOUIS, Feb. 8.—The coldest weather ever recorded by the signal service here in February had the city in its grip last night. Evening temperatures below zero. A high wind drove the dry snow in a blinding storm.

NORTH SYDNEY, Feb. 8.—Further reports of Tuesday's storm say that McLeod's job, a factory at Little River was blown down. Several boats were wrecked and several fishing houses destroyed on the north shore of St. Ann's. No loss of life is reported.

SOUTH INGHAM, Feb. 8.—The telegraph wires are all down and buried in the snow. The poles are broken for half a mile. Trees are blown over and have been washed off the beach. Nothing was saved. At Middlehead all the fish stores and dry goods stores are gone, as a result of Tuesday's storm.

PORT MORRIS, Feb. 8.—A heavy easterly gale prevailed here all day and the breakwater is literally out in two. The water is flooding the warehouses and doing great damage.

CHARLOTTE, N. C., Feb. 8.—The most disastrous of the year raged here Tuesday and Wednesday. The water is flooding the warehouses and doing great damage.

PITTSBURGH, Feb. 8.—Pittsburg experienced the coldest weather in the past 24 hours it has had for over five years. The mercury fell to 20 below zero and the storm was blowing. A terrific wind and snow storm has been raging all night.

MONTREAL, Feb. 8.—The snowstorm here has completely demolished the street service, although an effort is being made to keep the various lines open. The storm is the heaviest of this winter. It will take several days before the snow can be cleared from the streets and the college went to the lowest mark since 1876.

TORONTO, Feb. 8.—A severe blizzard prevails all over Ontario. The street car service in Toronto is paralyzed.

WINNIPEG, Feb. 8.—An unknown man was found dead on the prairie at Souris. He had been in the town drinking last night and was frozen to death.

SHIP CANALS.

WASHINGTON, Feb. 8.—The senate committee on commerce to-day reported favorably on the amendment to the sundry civil bill of Vilas authorizing the President to appoint a commission to confer with a like commission to be appointed by Great Britain and the Dominion of Canada as to the feasibility of building such canals as will enable vessels engaged in ocean commerce to pass to and from between the great lakes and the Atlantic coast with an adequate and controllable supply of water for continual use.

NEWS OF THE PROVINCE.

Mr. Magistrate Plants Again Declines Bail—Serious Accident at Langley.

Improvements at the Terminal City-Ratepayers' Association—Latest From the Mines.

VANCOUVER, B. C., Feb. 8.—Vanouver's citizens were astounded yesterday by the arrest of J. E. W. MacFarlane, manager of the British Columbia Iron Works, on a charge of attempting to bribe Alderman McCraney. Tenders were recently called for by the city for the construction of an electric light plant, and the contract was awarded the British Columbia Iron Works. Their tender was not the lowest, and at the time the council announced they had awarded it to them on account of their being a home industry. Now it is charged that hoodlum MacFarlane had offered Alderman McCraney \$1,000 to secure the contract. MacFarlane was released on \$2,000 bail, his case coming up Saturday. Both MacFarlane and McCraney are in custody. Leonard says he is acting under instructions from his firm. He also stated that the action never would have been taken if MacFarlane had done the right thing. It is thus suggested that the company was interested in MacFarlane's tender and that disarrangements have arisen between the firms.

PROMINENT AMERICANS.

Are Among Those Sentenced to Death For Complicity in Hawaii's Latest Uprising.

Their Government Will Fully Investigate the Evidence Before Permitting the Execution.

WASHINGTON, Feb. 8.—President Cleveland to-day transmitted to congress the appended important communications on the latest development of the Hawaiian situation. The documents referred to show a most serious condition of affairs than revealed by the press telegrams. Minister Willis says: "The revolt was over on the 9th January, the casualties being—Government, one Royalist, two. The court-martial convened on the 17th has tried 38 cases, and there are 500 more to be tried, with further arrests are being made daily. Galtier, a former minister, and Seward, minister and major in the Federal army, both Americans, and Blockard, an Englishman, have been sentenced to death; all have heretofore been prominent in politics. Thomas B. Walker, formerly in the United States army, has been sentenced to imprisonment for life and \$5,000 fine. The other sentences are not disclosed, but will probably be death. I have requested copies of the record for our government to determine its duty before final sentence, but have received no answer yet. There has been much bitter feeling and threats of mob violence since the arrival of the Philadelphia yesterday may prevent.

LILIOKALANI WAS MADE PRISONER ON THE 16th JANUARY, AND ON THE 26th RELINQUISHED ALIANCE, AND SWORE ALLEGIANCE TO THE REPUBLIC, IMPLYING CLEMENCY FOR THE HAWAIIANS.

THE GOVERNMENT REPLIES TO LILIOKALANI, THAT THIS DOCUMENT CANNOT BE TAKEN TO EXCEPT IN THE SLIGHTEST DEGREE FROM PERSONAL AND INDIVIDUAL LIABILITY FOR COMPLICITY IN THE LATE CONSPIRACY.

IT DENIES THAT SHE HAD ANY RIGHTS SINCE JANUARY 14, 1893, WHEN SHE ATTEMPTED THE NEW CONSTITUTION, FULLY APPROVED BY THE PEOPLE, AND TO RECOGNIZE THE REPUBLIC, AND WILL GIVE FULL CONSIDERATION TO HER USEFUL APPEAL FOR CLEMENCY FOR THE PARTICIPANTS.

TO THE SECRETARY OF STATE:

"If the American citizens were condemned to death by a military tribunal, not for actual participation in the reported revolution but for complicity only, or if condemned to death by a military tribunal for actual participation, but not after an open and fair trial with opportunity for defense, demand a delay of the execution, and in either case report to your government the evidence relied on to support the death sentence."

U. S. S. "CONCORD" TROUBLE.

LONDON, Feb. 9.—A Hiroshima dispatch says: "Official—The Japanese Admiral says the Japanese lost no boats or men during the night attack at Wei-Hai-Wei on February 5, but on February 4 the enemy struck and sunk a torpedo boat, killing all on board. Another boat, after having exploded a torpedo against a Chinese ship, ran into some obstruction and was practically sunk under the enemy's fire. The Japanese lieutenant and two men were frozen to death on February 4."

THE U. S. CONSUL AT CHIN KIANG, IN A REPORT CONFIRMED BY THE UNITED STATES DISPATCH ABOUT THE DETENTION OF SEVERAL MEMBERS OF THE CREW OF THE CRUISER CONCORD BY CHINESE AUTHORITIES NEAR CHIN KIANG.

THE REPORT SAYS THAT THE WHOLE TROUBLE AROSE FROM THE ACCIDENTAL WOUNDING OF A CHINESE BOY BY ONE OF THE CONCORD'S APPRENTICES, AND THAT THE MATTER WAS SETTLED BY THE PAYMENT OF A SMALL SUM TO THE WOUNDED BOY.

A CHINESE DISPATCH SAYS THE LIEUTENANT AND TWO MEN WERE FROZEN TO DEATH ON FEBRUARY 4.

WASHINGTON, Feb. 9.—Admiral Carpenter is in a cable to the navy department dated Chin Kiang, Feb. 7, says: "The Japanese have taken possession of Wei-Hai-Wei. Three vessels of the Chinese fleet were sunk in the harbor by torpedoes. The Charleston has left for the purpose of going to the rescue of the distressed people beyond Hung Chow."

URGENT ACTION WANTED.

WASHINGTON, Feb. 8.—President Cleveland to-day sent a message to congress which says: "The business situation is so critical and the legislative prospect so unpromising as to enjoin immediate legislative action. Therefore the details of an arrangement to have this day been concluded with parties abundantly able to fulfill their undertakings whereby the bonds of the United States, payable in thirty years after date, with 4 per cent interest, are to be issued for the purchase of gold to a sum slightly in excess of \$65,000,000, which sum, added to the gold now held in reserve, will restore such resources to something more than one hundred millions. The premium offered from the rate of interest at 3 per cent. At least half of the gold will come from abroad."

arrive, and that they have acted in the best faith at all times with the ferry company. Oliver Barber accidentally inflicted a serious wound on the arm of Alexander Holding, a rancher at Langley, by the axe he was using slipping from his hand when repairing a bridge at Langley. Mr. Holding's friends were so concerned at the seriousness of the accident that they persuaded the steamer Bon Accord to turn in her route and proceed with all haste with the wounded man to Westminister. Barber has been accused by some of intentionally grasping his axe so that the axe would slip. He is believed to be of unsound mind.

NEW WESTMINSTER, Feb. 8.—Dyking schemes are engaging almost the entire attention of the Delta council. In all probability they will erect a dyke from the high land opposite Anacostis Island to the high land at Point Roberts, a distance of about sixteen miles. Part has already been dyked. A system of internal ditches to be cut on a low for the field drains is also contemplated.

NEW DENVER. (From the Nelson Miner.) A serious accident occurred at the Alpha to-day. "Red" George Clark was preparing a fuse when the cap exploded in his hands. Dr. Brown is attending him, but so far the extent of his injuries is not known. At the same claim ore has been struck in the lower tunnel. Reports vary as to the bulk of the ore body. Seven feet is the last report. L. Alexander has taken a lease of Idaho No. 2, and will work the same during the winter with a small force. The Colorado Star is shipping 28 tons a day to the depot. The concentrator has about 300 tons of concentrating ore in the bins and expects to start work at this next week.

From the News. Fifteen pre-emption notices were recorded at the government land office during the month of January. The sale of the steamboat Fenitron will be held at the Coldestreem hotel on Wednesday, 13th inst. Mr. W. H. Herron is building a new frame house on his property in the Mileston valley, recently purchased from Mr. J. Conroy. A healthy sign of the increasing interest taken by the ratepayers in municipal affairs was the attendance at the council meeting Monday evening. Mr. C. O'Keefe was unfortunate enough to lose ten head of cattle this week on the range near Mr. Trosbroke's ranch. The animals got into a patch of ice, and their death resulted from feeding on this poisonous plant. Rabbits are extremely plentiful this year, and some of the city spermens have recently secured large bags. Messrs. D. McNeil and Jack Martin brought in 42, one day last week, the result of a few hours shooting. A Postill brought in a car-load of beef on Tuesday for shipment to the coast, but owing to the uncertain condition of the traffic on the main line consigned by recent snow slides, he was compelled to hold them over for a few days.

Mr. E. O'Neill, of Endorby, has expressed himself as willing to accept the challenge issued last week by Mr. A. Bridges, as soon as the conditions are more definitely named. The race will probably take place on the 16th inst., and will prove an interesting contest. The long expected pump for the Artesian Well Company arrived on Monday, and Mr. Highton is busily engaged getting it into position. The well is being deepened two or three feet preparatory to making a test. Mr. Highton feels confident that the supply of water will be found ample for all purposes. On the 5th inst. the last will and testament of the late Leo Gunaron was duly proved before His Honor Judge Specks. The personality was sworn as under \$10,000. The little steamer Fairview, built last summer with the object of carrying freight down the Okanagan river to the terminus of navigation at Okanagan Falls, has recently passed into the sole control of Mr. W. B. Connor, who contemplates making extensive changes in her make-up which will render her more suitable for this purpose. The weather for the past few days has been such as to cause great concern among the farmers whose prophets predict that the winter is over and spring has struck us in serenity. While little snow we had has entirely disappeared, the roads and mud ridges supreme. The farmers would be glad to see an exceptional downfall of snow as, unless we get an exceptionally wet spring, the crops are liable to suffer from scarcity of moisture. On Saturday the owners of the Caribbo claim, Camp McKinney, forwarded a load of ore and concentrates to the Tacoma smelter. The shipment consisted of 240 sacks of concentrates and 80 of ore, and came by socks to Penticton, thence by the steamer Aberdeen and the C.P.R. The company have two four-horse teams engaged in hauling ore from McKinney to Penticton, and they take back provisions, mining supplies, etc., on the return trip. The effect of the money circulated by this richly paying property is already beginning to be felt in the lower country. Kelowna and the immediate vicinity contains a large number of enthusiastic curlers, and the lovers of the "roarin' game" have organized a curling club with the following officers: President, R. B. Bailey; vice-president, T. W. Sterling; secretary, E. Weddel; skipper, Messrs. Bailey, Malr, Rose and Sterling. A good open-air rink has been made near Mr. Sterling's property and several interesting matches have already taken place.

WINNIPEG, Feb. 8.—The workmen of Winnipeg resent the treatment accorded Canadians across the border line. At a meeting of the Trades and Labor Council last night the legislative committee reported recommending the council to petition the Dominion government to pass an alien labor law. This report was adopted.
