Miscellaneous.

Etiquette of Whist

There are certain suggestions and long churning the temperatu notes relative to the manner of playing the modern, scientific game of whist, which we do not find in the dry rules tions go on without agit ting the laid down by our best writers. While cream and if the churn has a crank it they tell us the mechanical operations of playing and how to make the most of the cards held, they do not tell us what the cards held, they do not tell us what the churn, but they are quite enough small talk should be inserted between hands in order to lighten the sombre routine of play. For instance, should the dealer spill the cards on the floor while trying to shuffle them, many has omitted such suggestions as these, face. Men go to him with all sorts of

and admiration of your partner and he would put a bill or two in the out Parlor Suits range in price from other lovers of whist, occasionally ask, what's trumps? and yawn so that the players may admire the filling of your wisdom teeth. This shows your interest in the game and gives your part. would show a United Stater senator. When he was controller Mr. Kelly never permitted a penny of the city's dence in your play.

tence in your play.

The game may be greatly enhanced es. So careful was he of this that he The game may be greatly enhanced by the hesitation of a player when a new suit is introduced, and his bright, crisp and original remark that he'll be hanged if he remembers whether the ace of that has been played or not. This will show everybody that an wise Providence, seeing that wouldn't know what to do with an intellect if you had it, saw fit to give the great of the some money.
