### COMPANIES CLAIM BIG RETALIATION

Dominion Steel and Scotia Ask For \$17,000,000 From Germany.

Montreal—Nearly \$17,000,000 is to be asked from Germany by the Dominion Steel Corporation and six of its subsidiary companies, and the Nova Scotia Steel and Coal Company, to cover losses sustained owing to operations of the Great War. Torpedoed vessels under charter; chartered steamers requisitioned; costs of substituting requisitioned vessels; losses of contracts; and war risk premiums, are the headings under which the claims are listed.

Hearing of these claims the largest aggregate by far of all the Dominion applications of this character, began here before the Hon. Dr. William Pugsley, Commissioner, appointed by the Government to investigate and report on all Canadian war reparations claims. The actual total is \$16,711,170.

The legality of an item of \$1,132,667 claimed by the Dominion Coal Company in respect of chartered steamers, requisitioned by the British Admiralty was discussed. Hector McInnes, K.C., of Halifax, for the company, explained that these ships had been specially constructed for the purposes of the trade and the company had been forced to buy substitute ships of inferior type. As a result the whole business of the company fell off.

Hon. Dr. Pugsley questioned whether it was a direct damage when Britain intervened and exercised her discretion in requisitioning the ships. "Can you say that is a direct charge against Germany?" he asked. He concluded that unless authorities were found to change his opinion, the applicant could not hope that he would favorably recommend award in the case. Counsel promised to look up authorities to support the claim.

### CASH IN ADVANCE

We wish every subscriber would pay up his subscription in advance. Some do, but some do not. We think a great deal of our subscribers. There is nothing in reason we wouldn't do for them. But some thoughtless people forget that it costs money to print and publish and mail and address the paper for you, and this all costs money and time and work. Some of our subscribers pay up cheerfully and promptly in advance always, and every year. Others pay during the year, and still others owe for more than one year. Now we have been pleased to extend credit to subscribers who needed credit. But we can't believe that all who owe us for the paper need credit. Many of our subscribers have been on the list for years and years. They are like old friends of the editor. We are trying and we think you will agree, furnishing every week a good paper for the home, so we ask your co-operation in the matter of paying up what you owe for your subscription. It will do you good, and we will pay it over to the printer for what we owe him.

Crushed slate is the ideal outer-resistance material for roofing. Shields the wood and rain, and harmonizes beautifully with nature's outdoors.

## Protection—Beauty Crowned

Brantford Roofs guard thousands of homes from the ever-present menace of fire. Embers from fires beyond your control fall harmlessly on their fire-resistant slate surface—and those household treasures which no money can buy and no insurance replace, are safe, as are the lives of those within.

Protection to all that lies beneath the roof and the charm of nature's colors above the home—a blending of practical safeguarding with beautiful effect.

Unfading Colors—Brantford Asphalt Slates are built for unusual endurance. Faced with Blue-Black, Red, Tile-Red or Green slate—may be used in any desired combination of these colors.

Brantford Asphalt slates in 4 in 1 slabs; Brantford Tapered Asphalt Slates with the heavy butt; Brant-

ford Arro-Lock slates (red or green) may be laid over old roofs and give diagonal effects.

## One Package Free in Three

—that's the effect when you adopt the new Rakwana Golden Orange Pekoe as your favorite drink. For, believe it or not, you can get more than 450 cups to a pound, instead of 300 as in the case of the best of other teas.

Try it: Over a scant spoonful pour violently boiling water. Let stand three minutes, stir well, and steep a minute or so more.

And you can pour out three (3) cups from the one spoonful. And there are 100 spoonfuls to the pound! The best costs less in the cup:
