**NOTICE TO BREEDERS**

—OF—

**DRAUGHT HORSES**

At their Annual Meeting, held on Dec.  
14th, the Dominion Draft Horse Breeders' Society  
(Incorporated) decided to extend the time for receiving entries  
for registration, under the original standard of two crosses,  
imported or registered sires, to

MARCH 1st, 1888,

when the volume will close, and be placed in the hands of the  
printers. After that date the standard will be as follows:

"Sec. 11. Every application for registration must show that  
the animal whose pedigree is submitted for registry is the off-  
spring of an accepted sire, and of a dam the produce of an ac-  
cepted sire.

"Sec. 12. Accepted sires are (1), imported stallions of the  
Clydesdale and Shire breeds that stood for service in the  
Dominion of Canada prior to 1886, but are now dead or removed  
from the country, having pedigree satisfactory to the Council.  
These sires the Society agrees to register free of charge and ac-  
cept, and their male produce in Canada with imported Clydes-  
dale or Shire mares may be registered and will be accepted  
sires. (2) Stallions registered in Shire or Clydesdale Stud  
Books of Great Britain, Canada, or the United States. All  
animals so registered of mixed breeding shall be named  
Dominion draught horses."

Further particulars and blanks for entry may be had by ad-  
dressing the Secretary.
