#### THE GROCERY TRADE

Baldwin, C. H., & Co. Chapman, France & Tyles. Childs, George, & Co. Hutchins, B. & Co. Kingan & Kinloch. Nathewson, J. A.

Mitchell, James.
Robertach, David.
Timn, Bros.
Thompson, Murray & Co.
Terrance, David, & Co.

THE past week has again been one of extreme inactivity, whother as regards the regular trade with the country, or the city trade with the jobbers. 18A8 -No wholesale transaction are reported, the demand being of the merest retail character. Prices are nominally nuchanged.

COFFEE.-The small city demand which has existed has been met at prices varying little from our quotations.

Sugar -Raws have had a small demand, no trans actions of consequence being reported. Really good to bright grocery samples are held at \$51 to \$9; fair to middling SS; to SSj. There has been a steady business in Refined of all grades; prices unchanged.

MOLASSES.—Centrifugal has been chiefly asked for but the enquiry has been of a limited character. We quote for round lots, Centrifugal, 29c. to 89c.; Muscovado 23c. to 85c. The better grades are arriving froely, but pri~ may be considered nominal.

FRUIT.-Rusins have been in fair demand at full rates, but we hear of no larger transactions. Currents have had little enquiry, and prices are unaltered.

RICE-Has been in light request, and difficult of sale even under offer of considerable inducement.

SALT.-Enquiry has not been over active. Arrivals however, have been light and prices are well main-

SPICES-Of all kinds are without any but the most limited enquiry, and in the absence of transactions quotations must be considered to a great extent as nominal.

### THE DRY GOODS TRADE.

Greenshide, R., Son & Co. Lewis, Kay & Co. McIntyre, Depon & French. McKensle, J. G. & Co. Satherland, Force & Co.

Delly & Co. Pilmeoll, Warnock & Co. Roy, Jas., & Co. Reversion, See hen, & Co. Stirling, McCall & Co.

DUSINESS as yet has not commenced to the many symptoms of a renewal of activity; but before ing, the travellers of all the leading houses will be sent out to solicit orders all through the country, and it will be the duty of the trade to lay in stocks for their fall and winter business. As far as we have any means of knowing, stocks of fall goods, as well as of heavy wooliens, are still large, though perhaps noticeably less than they were a year ago, and purchases will still require to be made with caution. iver-trading has brought the commercial interests of Canada into a position fraught with danger, from which recovery must come from movement in the opposite direction, and a taking in of cail, instead of crowding it on. Bayers should buy below and not above what they think they will need. It will be easy for them, and much safer to send down second orders, if they find they have been able to dispose of their first purchases readily; and as stocks in the hands of importers are likely to be fully an average there will borno danger of there not being plenty of goods to fill any supplementary orders that may be rent in.

On the abundance of the harvest will of course to a great extent deposit file trade of far flamediate future. We hope the crops will be large and profitable; but they are not cafe yet, and a continuance of the heavy and often cold rains which have fallen so plentifully, will blast those hopes of an abandant harvest, which a short time since appeared so certain.

# THE HARDWARE TRADE.

🗻 🖃 د مقایلت یک

Crathirn & Cavethin: Evans, John Henry Ferrier & Co. Hall, Kay & Co.

Morland, Watson & Co. Mulhollard & Baker. Robertson, Jane

WE have no improvement to note in this business in which great slackness still continues. . Prices are unaltered, but in the absence of transactions, quotations may to some extent be looked upon as nominat.

The following are the shipments of Iron, Hardware, &c., from Liverpool to Montreal for the week ending July 22:-

23 tons chains; 2 csks 4 cs cuttery; 32 pkgs hardware; 60 tons bar and bolt iron; 133 tons hoop iron; 23 kgs nails, 500 tons pig iron; 10 tons plate iron, 167 tons sheet iron: 7 tons iron ware: 16 casks shot; 125 tons steel; 616 bxs tin plates.,

The shipments from Glasgow for same week were 225 tons bar iron, and 82 tons cast iron.

# MONTREAL PRODUCK MARKET.

Akin & Kirkpatrick. Dawes Brothers & Co.

Mitchell, Rebt.

THE business of the week has generally been rather

quiet. FLOUR.-The want of ocean tennage has despite the favorable British advices checked exports for the present, and with heavy receipts and demand mainly confined to local wants, the market has ruled dull, though prices have undergone very little change. Owing, however, to anxiety to sell at the close, on the leading grades some slight concession would be made. Extras, in the course of the week have sold at \$5 15 to \$5 20, but from scarcity have closed firm at \$5.25. Sales of Fancy may be noted at \$5.10. Little remaining in first hands, \$5.15 is now asked. Strong Supers have been more pressed, and may be quoted lower. Exceptional sales of the choicest brands have been made at £5.30 and up to \$5.40; but very little now in market will command over about \$5.25 Ordinary Canada solls in single hundreds with some difficulfy at from \$5 to \$5.10. There have been large arrivals of Welland Canal, and at the close sales were reported at \$5.05, with rumours of even \$5.00 having been accepted. No recent transactions in city brands. Western has continued to arrive pretty freely, but sellers being less urgent, higher rates have been realized; recent sales at \$5 to \$5.10, but at the close \$5 may be considered the ruling price. No. 2 has been taken to a limited extent at \$4.65 to \$4.70, with sales of choice at the close at outside figures. Fine continues unchanged. Recent sales have been at prices ranging from \$4.40 to \$1.50. Middlings may be quoted at \$4 to \$4 15 according to sample, and Pollards \$3 25 to \$3 20. Bags have been more sparingly supplied, and relatively high prices rule. Recent sales of Upper Canada have been at \$2.45 to \$2.50 for good to choice. Lucal millers are firm at \$2.55 to \$2,00. Osimeal is in small retail demand at unchanged rates.

GRAIN .- Wheat - Little to report in Upper Canada spring. A few car loads have sold in the course of the week at \$1.13 to \$1.15, closing at \$1.14 to \$1.15. No. 2 Chicago is held at \$1.16, buyers at 31 14; no recent transactions. A sale of No. 1 Western may be noted at \$1761. Pease —Little to report. Stock here is in one or two hands, and held at \$1 %. No buyers, except to fill amail orders. A few parcels of Oats have been placed at sic to sic, in the course of the week, very little remaining in stock, and holders firm at 450, to 462. Other grains nominal, in the absence of transactions.

Provisions,-Pork generally unchanged; stocks small and demand restricted to consumptive wants Cutments generally nuchanged. Land inschire at former prices Buttet.-Adverso udvices from Britain together with heavy receipts, and the generally defective condition in which butter has arrived, serve detective condution in region butter has arrived, serve to force prices down. Any recent transactions have been at 16a to 175c, with occasional substraining up to 10c. There is a general anxiety to sell, and prices have arrived plowward tendency.

ACMENTAL have have engaged little attention, and rates any barly maintained. Results are in before request, and from searchly command some advance closing at \$5.1,5 to \$5.70.
