TROPON

TROPON contains 5 times the nourishment contained in Meat, 8 times that contained in Eggs, and 40 times that contained in Potatoes.

TROPON represents in a concentrated form the food from which the albumen in the human body is formed, it increases the strength and is therefore especially adapted for weak people, children, invalids, and convalescents

Well-known medical authorities have proved that TROPON, on account of its easy digestibility and its very small volume, is promptly absorbed and tolerated by even the most delicate, and is therefore very effective in such cases where the feeding of the body is difficult or impossible, as, for instance, in diseases of the stomach or intestines, anæmia, gout, tuberculosis and infectious diseases.
