### LEAFS HIT TRAIL AT DALLAS TODAY

Canadian Press Decpatch.

MARLIN, Texas, April 1.—The Toronto Ball Club left here this afternoon for Dallas, where they open the training series in earnest, with two games against the remain earnest, with two games against the in earnest, with two games against the remain earnest, with two games against the remain earnest, with two games against the remain earnest who broke camp here today to proceed by easy stages half across a continent to Portland, Maine, where they double back from the coast and proceed in the direction of Providence. In all twenty games will be played on the training tour.

Despite the fact that a heavy rainfall last night left the grounds in anything but good condition, the players had a three-hour grind, Kelley taking advantage of every moment before train time to give his men much needed practice. The weather during the stay here has not been out every day. The ball has been wet practically every day, and so heavy that the throwing arms of the squad are all sore. The weather today was exceptionally fine. The clouds have all rolled away, and it is hoped that the rainy period is over. The men need hot sunshine fo round into shape, and, given this, there will be nothing to be desired in the way of physical condition by the time the players leave the state and proceed thru Tennessee.

Herbert was a trifle better today, and at train time Sneil said his knee was improved. With the exception of these two, sore arms and stiff joints sum up the physical aliments of the team. They will disappear by degrees. Nothing has been heard at the time of departure from McGraw, but other wires have reached Kelley promising players before the league season opens. In at least one important case waivers will have to be asked on the man required, and if these are forthcoming Toronto will be well fortified in certain important respects regarding players of real big league calibre. As at present constituted the team is in need of pitchers, the right-handed hitting outfielder so often referred to, and a classy uti

Fifty-fifty split on all gate receipts, a 16-game schedule with the majority in Vancouver, and the appointment of referees for the season were the most important matters before the schedule committee of the British Columbia Lacrosse Association, at a special session in Vancouver. In arranging the schedule the officials decided to allot six games to New Westminster, giving them the privilege of playing two of them in Victoria if they wished. No application for a franchise was received from Victoria, and it is believed they will not put a team in the league this season.

Dr. McJibbon of Bracebridge is a candidate for the presidency of the Ontario Amateur Lacrosse Association. It is announced that he will contest that office with James Stevenson of Toronto at the annual convention on Good Friday.

The annual meeting of the Western Football Association will be held on Good Friday at Stratford, and Secretary N. R. Fiebig is very enthusiastic over this year's prospects. The junior series will be larger and stronger than ever, as Stratford, Tayistock, Owen Sound, Seaforth, Galt Trinity Club, Galt Caledonia Club and Listowel have already entered, while several others are expected. The intermediates and seniors are in line again also, while a couple of new teams are expected to enter in these series also.

With the Ottawa City League making application to the O.F.A. for affiliation again the only cloud on the D.F.A. horizon has suddenly shown its silver lining, and with President James Muir coming here to represent the league at the semi-annual meeting of the O.F.A., on April 11, the game should take on a new lease of life in Bytown. All those players that were reinstated by the D.F.A. after playing in the Big Six, will now be eligible, and the ten teams are hot foot after them to sign up. Pro. soccer will never get another foothold in Ottawa, it is claimed. Aylmer made am application to join this league, but were refused, as they would play all their games in Quebec, which is out of the jurisdiction of the O.F.A.

such, should make it a point to come Thursday. See the muscular and physical development that is possible in a man who follows this exercise for a few
