VIII. EDUCATIONAL INTELLIGENCE.....	94
IX. DEPARTMENTAL NOTICES.....	96

The gross sum apportioned to all the schools this year is the same as that apportioned last year.

The apportionment is made on the supposition that the amount usually placed on the estimates, for the support of Common Schools, will be voted during the ensuing session of Parliament. But according to an intimation made to me by the Finance Department, that part of it which depends upon the annual vote of Parliament, will not be payable until it is voted by the Legislature—Parliament having been prorogued before the details of the estimates were passed. There is, however, I think, no doubt that the whole sum will be voted on the re-assembling of the Legislature.

I shall endeavour to have part of the apportionment paid at this Office, to the Agent of the Treasurer of your Municipality, about the 1st of July, provided that the School Accounts have been duly audited, and that they, together with the Auditors' and Local Superintendents' Reports, have been duly transmitted to this Department.

It is particularly desirable that the amounts should be applied for not later than the third week in July, as it is inconvenient to delay the payment. There are, however, a number of municipalities which have not yet sent in their accounts of school moneys, now several months over due, and in these cases the payment must necessarily be deferred until the law has been complied with.

I trust that the liberality of your Council will be increased in proportion to the growing necessity and importance of providing for the sound and thorough education of all the youth of the land.

I am Sir, your obedient Servant,

E. RYERSON.

Education Office,

Toronto, 16th June, 1865.

APPORTIONMENT OF THE LEGISLATIVE SCHOOL GRANT FOR UPPER CANADA, FOR 1865.

Circular to the Clerk of each County, City, Town and Village Municipality in Upper Canada.

SIR,—I have the honour to transmit herewith a certified copy of the apportionment for the current year, of the Legislative School Grant to each City, Town, Village, and Township, in Upper Canada.

The basis of apportionment to the several Counties, Cities, Towns, Villages, and Townships for this year, is the population as reported in the census of 1861, which was also adopted last year, and I have no more generally accurate statistics of a later date.

Where Separate Schools exist, the sum apportioned to the Municipality has been divided among the Common and Roman Catholic Separate Schools therein, according to the average attendance of pupils at both classes of Schools during last year, as reported by the Trustees.

Apportionment to Counties, for 1865.

1. COUNTY OF GLENGARRY.		
Townships.	Apportionment.	
Charlottenburgh	\$701 00	\$701 00
