in his hands to prevent this panic. This is the real cause of these hard times. At the close of the war the people were compara-tively free from debt. There was more prosperity then among the farmers in the North, in spite of the loss of those near and

dear to them, than ever has been sin reason of this prosperity and good feeling was because there was an immense volume

of paper currency in circulation. The fin-ancial system which contracted the currency is responsible for the loss of thousands of homes, innumerable suicides and corruption of the morals of the people. As a result of that crime perpetrated on our people from 1866 to 1873 British capital has come in and leries of the House of Commons were got control of factories, railroads and finances. Scarcity of money is what is the matter. When the farmers come into power, and they are going into power, they
