

- Secretin, 425
 chemical nature of, 426
 mechanism of action of, 420
- Secretion (*see under various glands*)
 general considerations, 418
- Segmental distribution of nerves, 837
- Segmentation movements, 463
- Segmented invertebrates, nervous system, 783
- Semicircular canals, 873
 eye movements and, 875
 removal of, 871
- Semilunar valves, 150, 155
- Semipermeable membrane, 1
- Sense, temperature, 791
 touch, 793
 pain, 795
- Sensory centers, 850, 851
- Serine, 603
- Serum albumin, 87
- Serum globulin, 87
- Sex, effect on creatinine excretion, 624
 effect on energy output, 531
- Sheep feeding, 435
- Shell shock, 287
- Shock, 287
 anesthetic, 288
 blood pressure in, 290
 experimental investigations, 289
 gravity, 287
 hemorrhage, 288
 nervous, 289
 recovery from, 805
 secondary symptoms of, 295
 spinal, 288, 803
 surgical, 289
 treatment of, 295
 vasomotor control in, 290
- Sinonuriicular node, 185, 266
- Sinus arrhythmia, 266, 277
- Sinus bradycardia, 266, 277
- Skatole, 501, 632
 in urine, 531
- Skeletal muscle, respiration in, 394
- Skin, receptors of, 790
- Soap, 686
- Sodium ions, 166
- Solution of gases, 336
- Solutions:
 gas laws and, 3
 gram molecular, 5, 22
 hypertonic, hypotonic, and isotonic, 6
 nature of, 3
- Sörensen method for estimating amino groups, 599
- Sounds, cardiac, 157
 recording of, 158
- Specific conductivity, 17
- Specific dynamic action, 538
- Specific gravity of urine, 522
- Sphingomyelin, 689
- Sphygmide period, 273
- Sphygmograph, Dudgeon's, 201
- Spinal animal, 804
- Spinal column, 786
- Spinal cord:
 ablation of, 839
 in laboratory animals, 803
 in man, 803
 hemisection of, 831
 sensory pathways in, 830
 successive degeneration in, 813
- Spinal pathways, afferent, 830
- Spinal shock, 803, 807
- Spirometer, 556
- Splanchnic circulation in sheep, 292, 294
- Splanchnic nerve, 233, 672
- Sponges, nervous system of, 782
- Stadiometer, 65
- Standard of neutrality, 26
- Standard solutions, preparation of, 31
- Stannius' ligature, 176
- Starvation, 566
 acidosis during, 569
 cause of death, 570
 effect of creatinine excretion, 625
 energy output during, 568
 excretion of nitrogen, 566
 loss of weight, 568
 nitrogenous metabolism, 568
 purines during, 569
 secretion of gastric juice during, 676
 sensations during, 655
 sulphur during, 569
 treatment of diabetes, 681
- Statistical method, in diet control, 589
- Stearic acid, 687
- Stokes-Adams syndrome, 193
- Stomach:
 arrangement of food in, 655
 digestion in, 681
 emptying of, 656
 effect of pathologic conditions on, 660
 rate of, 458
 gas in, 662
 miniature, 433
 movements of, 451
 effect on food, 651
- Stroma of red cell, 91
- Stroumahr, 207
- Strychnine, action on reciprocal inhibition, 819
- Subarachnoid space, 116, 248
- Subcostal angle, 321
- Subcostal borders, 321
- Subdural space, 116
- Submicroscopic, 54
- Subst. utri-gelatinosa, 831
- Successive induction, 821
- Successive regeneration, 813
- Sugar, storage of, 662
- Sugar level in blood, 657
- Sugar metabolism (*see Carbohydrates*):
 relation of pancreas to, 678
