Liverpool Wheat Market.

LIVERPOOL, July 28—Wheat—The market displayed a firm undertone at the start with values %c higher and following the opening further advanced \(\frac{1}{2} \) to to to the opening further decline in consols, caused shorts to become nervous and also encouraged speculative support. During the morning there was some little realizing on the larger Argentine shipments than expected and the fact that a local mill closed owing to labor trouble, and a generally quiet demand for both cargoes and parcels. Later the undertone again became firm on less favorable reports from India, and forecast of light world's shipments with a liberal decrease afloat to the United Kingdom.

Milifeed Manitoba bran, \$21 per ton; shorts, \$23; Ontario bran, \$22 in bags; 37% shorts, \$24, car lots, track, Toronto. World's Estimates.

Broomhall estimates the wheat and flour shipments for the week (exclusive of North America), at 6,800,000 bushels, against 8,576,000 bushels last week. Of this total Europe will take about 6,000,000 bushels. Total shipments last week amounted to 10,003,000 bushels, and last year 9,872,000 bushels.

Arrivals of breadstuffs into the United Kingdom will aggregate about 4,800,000 bushels. He predicts that there will be a good decrease afloat to the United Kingdom.

We have audited the accounts of the COLONIAL REALTY & SECURITIES CORPORA-TION, LIMITED, from incorporation to June 30th, 1911, and certify that the foregoing Balance Sheet is a full and fair statement of the Company's affairs, the books conforming therewith. (Sgd.) Edwards, Morgan & Co., Toronto, July 22, 1911.

Although the Company was organized early in the year it was about the 1st of May before the necessary surveys could be made to enable the Company to begin selling its lands. It is most gratifying to the Management at the end of the first half year of the Company's existence, after paying off all expenses of organization, to be able to report a handsome net surplus. The Auditor's Report shows a net profit of \$7,725.66 or 30 per cent on the average paid-up capital stock. Nothing is included in the assets that could not be readily converted into cash, if so desired. All such items as office supplies, legal forms, Company's books and expenses of organization do not appear in the assets. The real estate owned by the Company is put in at cost price in the ledger. Only sales completed before July 1st are included in the statement, while sales on which the purchasers are in arrears are omitted; thus the assets are brought down on a bedrock basis.

At the closing of the half year there were sales pending, which have since been completed, that give a net profit of \$4,581.25. This with the profits previously mentioned makes a total profit of 49 per cent on the average paid-up capital stock.

There are still under way applications accompanied by deposits for the Company's lands

mounting to \$21,600, which it is expected will be completed in due course of time. The results already attained are greatly in excess of what was estimated for the whole year,

and the prospects for the future of the Company are certainly very bright. The matter of dividends to Shareholders was deferred until the Company shall have been in operation for one year.

Broomhall's Cables.

Broomhall cables as follows:

Russia—Our agent at Nicolaieff cables that the weather is fine and that the harvesting is progressing rapidly. Arrivals of barley are increasing.

England—New English wheat was threshed in the midlands yesterday and milled to-day. If the hot weather continues native wheat will be plentiful in ten days.

Argentine—A disquieting feeling exists thruout the country, regarding the disposition of holders of corn to force prices higher, cwing to startly, corn having advanced at cents during the season. There is a fear that the attractive prices would permit of importation, and this they wish to avoid.

Farmers Hold for Higher Prices.
