Canada's Prosperity Depends on the Success of the Victory Loan

Canada has been prosperous during the past four years largely because of orders from Great Britain and our Allies.

These countries are again prepared to place large orders in Canada if Canada is again prepared to give them credit.

Canada can give the credit only if you are again willing to buy Victory Bonds.

In so far as finance is concerned, the war did not end with the Armistice. Over 350,000 Canadian soldiers had to be transported home—they had to be paid and maintained until demobilized—they had to be re-established into civil life—the sick and disabled and the dependants of those who have fallen must be taken care of.

Furthermore, capital is needed to carry out Canada's reconstruction programme—bridging the period between war and peace.

Realizing that Canada's prosperity can only be maintained if all do their utmost to make the Victory Loan a success, the undersigned banks have decided to make it possible for everybody to buy Victory Bonds.

Ask the canvasser how you can buy Victory Bonds through the banks on the instalment plan. By paying ten per cent down and ten per cent a month you can buy all the Victory Bonds you can pay for in ten months.

No business man or woman will neglect this opportunity to insure continued good times for Canada.

Canada's Prosperity will be in Proportion to Your Purchase of Victory Bonds
