Adjustment of Accounts.

A meeting of the Board of Works was held to-night, Ald. Doran presiding. Those present were Ald. Ross, McDonald, Miller, Findlay, Teneyck, Donald and the Mayor. The Hamilton Electric Light Co. got an adjustment of its accounts on the basis of 2 cents per lamp being deducted for the failure of the lights during 2½ hours. The Simpson Light and Power Company's request to be allowed to erect some 40 poles and string wires on the streets in place of having them strung across the buildings as at present, will be granted if the city has such power. The insurance companies threaten to cancel risks.

The city work on the roads approaching the high level bridge has received the endorsation of the city solicitor, F. Mackelcan, and the protest of the Hamilton and Milton Tollroad Co. was accordingly filed.

OF INTEREST TO BICYCLISTS. Monday Night-The C.W.A. Nomina

tions Punctures. The annual meeting of the Royal Canadian Bicycle Club was held at the clubrooms Monday night and the newly-elected officers were installed by ex-President Walton. A very satisfactory financial statement of the year was received and 20 new names were placed in the membership roll.

A pleasing incident of the meeting was the presentation to Mr. A. E. Walton of a gold-headed umbrella. President W. P. Sutton, in making the presentation, on behalf of the club referred to the good work that had been done for the institution by Mr. Walton during the four years he had been president.

At the conclusion of the meeting the new officers provided a spread in the gymnasium,

ing Desirable Men.

A Napanee correspondent writes The Canadian Wheelman regarding the coming elections of the C.W.A., as follows: Are we destitute of good material or why do we have to fall back on commercial travelers or bleycle salesmen for officers? I would suggest that the presidency should fall to either George H. Orr or A. F. Webster as deserving of the honor, or possibly Dr. Balfour, but we old members do not know as much about him. One or the aspirants claims that his business allows him to boom the association more than others. Well, he claimed to have organized a club of 20 members here last summer; while the facts are that no club was organized at all, no officers appointed. A few of us met together for the purpose of joining the association and we obtained about 12 members. He was not present at the meeting, although in town, and obtained all his information from a wheelman who is not a member. Is that the way to boom the C.W.A. Then bicycle agents being officers has killed our club, so I hope they will be kept out of office in the C.W.A. Glve Mr. Wells the vice-presidency. Give Peterboro the meet if they want it. tive leader in the Manitoba Legislature and it is understood he has been waited upon by prominent provincial leaders in this connection. Winniper Conservatives are unwilling that Hugh John should accept, because they want his as representative in the Dominion House. However, it is pointed out to them that very little is gained by carrying the Winniper seat with a Liberal Government in power at Ottawa, while Hugh John would be a source of great strength to the Conservative opposition against Mr. Greenway. What the provincial Conservatives have lacked is a strong leader, and with Hugh John they would go into the next provincial election with confidence. It is said that Mr. Machanda has asked time to consider the matter. R. P. Roblin, the present leader of the provincial Conservatives, is one off the most eager to secure; Hugh John for the position.

The provincial Conservative convention assembles here to-morrow, with delegates present from all sections. This subject will likely be discussed. It is also the intention to elect two members representing Manitoba for the Dominion Conservative organization, and also to choose a permanent organization, and also to choose a permanent organization.

Rev. T. S. Craig, a well-known Single Taxer of Oakville, opposed Mr. Maedonaid in the view that preachers should not touch in the pulpit on the issues of the day. He thought preachers might better be studying sociology than higher criticism. The conditions of the time were driving thousands of young girls to ruin in order to live. "Has the pulpit any remedy for this?" he asked.

"Do we believe in the commandment. "Thou shalt not steal?" What is stealing? To gain wealth by wrong. Gambling is one form of stealing, and yet many clergy men in Toronto gambled in land values at the time of the boom.

Mr. Maedonaid, in replying, said that one might be convinced of such wrongs, yet to advocate a solution in the pulpit was to make a preacher narrow and affected. A debate on economic questions was not a good thing in the pulpit.

ling is also of interest to the prospective prospector.

It is a well-known fact that one of the most difficult things in the world is to be able to return to a certain spot in the woods, where something may have been discovered, which something we will suppose is the outcropping of a gold-bearing lode. The Golden Gate Mining Company have men in the woods all the time exploring. It was by this means that this company recently declared a 50 per cent. dividend—finding prospects and selling them—for it is a well-known fact that this company have not any mine at present operating on the Lake of the Woods or anywhere else. Usually this company, of which Mr. R. H. Ahn is manager, send out three men, an explorer, a surveyor and a practical miner, but if a prospectors comes into the town office and informs the manager that he has found a proposition, a practical miner and a surveyor are sent out with the prospector to the location, the which, if turning out to be 0 K. MISDIRECTED EFFORT.

On the other hand, though educated ministers were necessary, the pulpit was not the place for political discussion. He thought a great deal of misdirected energy was spent in pulpit addresses, and he questioned the right to advocate prohibition and such schemes from the sacred deels.

Rev. Dr. Milligan spoke of pomposity in the pulpit. With some preachers inflated self was so dominant that the gospal did not get a show. He advised the students present to be natural and avoid airs.
