London, Ont., Aug. 15, 1906. Water Consumers: Ever since last May the Water Commission have been face to face with a supply of water at Springbank which is inadequate to the city's needs. We are now pumping all the water there is at Springbank. Unfortunately, for some unknown reason, the supply is short this year, and we have been receiving only 3,430,000 gallons a day during the last two weeks of July, whereas, in July, 1904, there was pumped a daily average of 3,630,000; but

only 3,160,000. We hope to take in additional supply of water before next summer, so that the citizens can have all the water they need, but at present we are compelled to ask you to be economical.

It is absolutely essential that a certain
