CROWDS PEACE TALK OUT

Labor's Support Paves Way for Mobilizing All Industries.

SIX DISTRICTS CREATED

From Bases War Work Will Be Pushed to Limit of Production.

New York, Jan. 25.—The Sun this morning publishes the following special cable from London, under yesterday's date:

"The first steps toward civil mobilization, indicating Great Britain's adamant determination to fight to a finish and to victory, have crowded out any discussion of the attitude of the United States toward distant peace league schemes.

Labor's support, expressed at the Manchester conference, has greatly gratified the Government, and will pave the way for Neville Chamberlain's fast-maturing plans for mobilizing all industries and cutting down the number of men working in non-essential trades to the minimum and increasing to the maximum the efficiency of all the vital trades.

Mr. Chamberlain's schemes contemplate dividing Great Britain into six districts, Wales and Scotland each constituting a division, the other centres being Leeds, Manchester, Birmingham and Bristol. With these points as bases, he intends to push all the war work and food production to the limit of the laborers' capacity and maintain high speed until the war ends.

The first call for volunteers under the national service rule was made a few days ago. There is no age limit, and both men and women are accepted. Speakers are spreading all over the country to carry out a campaign of recruiting similar to the early days of the war, when such recruiting was done by the Government. As far as recruits are gathered they will be drafted into battalions, according to their fitness for various kinds of work, the strongest women becoming members of the land service corps, and the weaker ones joining the munition-making army.

Spanish Paper Brings Analogy of President's Stand To Light.

Madrid, via Paris, Jan. 25.—The Epoca recognizes in President Wilson's speech the reflection of generous and noble sentiment, but asks what confidence can be placed in his own words if, at the same time, he encourages bills for an increase in the country's military and naval forces.

"The message," says the Epoca, "is at once an expression of its author's idealistic sentiments and an announcement of greater intervention by the United States in European politics."

**\$50,000 BOYD FOR
HUNGARIAN CHEMIST**

Service Essential, Says Mining Company, in Asking To Have Him Enter Canada.

North Bay, Ont., Jan. 25.—The Dominion Government will be asked to allow a Hungarian chemist, a resident of the United States, to enter Canada, as reported by the Ontario Mining Company of Rutherglen. The company claims that the Hungarian is the only chemist on the continent who has knowledge of the proper treating of the Rutherglen ore. They are willing to deposit a bond of \$50,000 to guarantee his conduct, and the town council will make the application.
