TOM MOORE'S LATEST—"OFFICER 656"—AT ALLEN'A THURSDAY.

The great comedy artist, a famous comedy stage success, a perfect combination of star, director and story, and you have Tom Moore in his latest romantic comedy achievement. "Officer 666," which is to be shown at the Allen next Thursday. Friday and Saturday.

You have most likely seen the play, or if not, you have read about it, how for year after year it held the boards, and caused the theatresoers from Montreal to San Francisco to rock with aughter at its sidesplitting situations. Of all stars, none are more well suited to play the part of this exceptional member of the New York police force than our favorite Tom Noore. You have seen him in "Stop Thief," and considered that to be the perfection of legitimate comedy, but Just wait until you see that famous smile start the fireworks in "Officer 666," just wait.

Paris, Sept. 30.—The alleged "Blueheard" of France has made the name of Landru unpopular, and no less than four French families bearing this name, but in no way related to the Landru who is in prison here charged with murdering a dozen or so of his flancees, have applied to the authorities for permission to change their names.

Landru was arrested several months ago on the charge of having killed women he had promised to marry, the theory of the police being that he promised to marry them in order to obtain their money.

That Landru is not averse to his name, however, was shown when he was told of the action of the other Landrus in wanting other names.

"What contemptible people," he declared. "who thus avow themselves to be ashamed of a good honest name!"

AGAINST CHANGES IN SPECIFICATIONS

St. Thomas Committeemen Altered "Vitrified Brick" To "Asphalt."

WANT DISPENSARY PLAN

St. Thomas Magistrates in Favor of New Liquor Sales System.

ST. THOMAS, Oct. 1.—Mayor Brinkman protested tonight against a change in a specification of any contract being made by any member of the board of works without first consulting the members of the committee. The mayor was moved to interfere by the change made in the parts of the roadway between the tracks on Talbot street from vitrified blocks to asphalt by the direction of a member of the board and forgetting to give notice to the members of the committee.

The engineer explained there was a saving in the substitute material, but the mayor was not satisfied, whether there was a saving or not, that a liability should be undertaken by any one member independent of the members of the board.

bers of the board.

Notwithstanding objections raised by the property-owners on Ann street to other connections being made with the sewer on that street by the owners of households on William street, permission was given by the board to a property-owner to connect with a private sewer on William street which now empties into Ann street sewer.

It was explained by the city engineer that the work on the sanitary sewer ordered to be put down on William street to Wellington would be commenced this fall.

Permit To Build Area.

Porter & Nelson were given permission to construct an area on Talbot street to allow them to get their supply of coal into the ceilar. Mr. Porter explained that the parties owning the right-of-way in the rear of his premises asked \$500 for the privilege of reaching Hiawatha street, but it was more than he was willing to pay.

Wants Sewer Connection.

Mr. Woodworth, 70 Moore street, asked that he be given sewer connection on Moore street. His request was given the chairman and engineer to investigate.

The change in the personnel of the company has been under consideration for some months, and negotiations to that end between the promoters of the new company, and the old were brought to a head a couple of weeks ago, when, at a conference with the council, the president of the American company arranged that there would be no break in the operations of the industry and that on the retirement of the old company the new would assume all liabilities and carry out all contracts entered into by the American house.

The executive committee elected were: Comrades Waller, Little, Perfect, Hussey, Karns, Eseltine, Newton, kew, Bowers, Thompson.

Further kite flying of Charles McDonald was again very much in evidence today, both by people fooled on the genuineness of checks negotiated by McDonald and those whom the young man endeavored to accept his paper. Some of his victims visited the jail today to identify McDonald, and when accused of the offence he offered no excuse, nor did he appear to be disquieted by the charges of his visitors.

RUPTURE KILLS 7,000 ANNUALLY

Seven thousand persons each year are laid away—the burial certificate being marked "Rupture." Why? Because the unfortunate ones had neglected themselves or had been merely taking care of the sign (swelling) of the affliction and paying no attention to the cause. What are you doing? Are you neglecting yourself by wearing a truss, appliance, or whatever name you choose to call it? At best, the truss is only a makeshift—a false prop against a collapsing wall—and cannot be expected to act as more than a mere mechanical support. The binding pressure retards blood circulation, thus robbing the weakened muscles of that which they need most—nourishment.

But science has found a way, and every truss sufferer in the land is invited to make a FREE its right in the privacy of their own home. The FLAPAO method is unquestionably the most scientific, logical and successful self-ireatment for rupture the world has ever known.
