SPY POLICE WINK AT HOUSES OF CE

Hamilton Citizens' League Make Strong Protest Against Lax Administration of Law and Demand Reforms.

HAMILTON, Nov. 19.—(Special).—Sensational charges were made at the public meeting of the Citizens' League to-night against the police, the police commissioners and license commissioners for the alleged lax administration of the law in this city with regard to disorderly houses, gambling and the liquor business.

George Rutherford presided in the absence of Sir Thomas Taylor, and among the speakers were Geo. C. Copley, Peter Bertram, G. H. Milne, Rev. Dr. Tovell, Rev. J. C. Symonds, T. J. Shanks, W. H. Bates, Rev. E. J. Eberington, Rev. J. Young, William Deavenport and Thos. S. Morris.

Peter Bertram got off a hot roast for the authorities in general. He said that the case of William Burgess, which was disposed of by Judge Smead recently, was only one of many such cases, and that he and other members of the league had information to the effect that young girls were being dragged into houses of vice and treated with gross immorality.

Mr. Bertram made reference to the place where the murder and suicide occurred over a week ago, and remarked that it had been tolerated until the deplorable occurrence took place.

Mr. Bertram made so bold as to say that the police commissioners should be at the celebration of many of these immoral places, and stated that the police magistrate had admitted that they were tolerated. He doubted very much the right of a police commission to tolerate such places, and thought that neither the police nor the commissioners should allow their eyes to be closed to these abuses.

Three resolutions were passed, bearing on the subjects mentioned. The first resolution deals with gambling and is as follows: "Whereas there appear to be defects in the criminal law in so far as it applies to gambling and whereas notwithstanding these defects there are provisions that clearly apply to gambling at present carried on in our city, this meeting of citizens called together by the Citizens' League, would ask for a better enforcement of the law by our local authorities."

With reference to the existence of disorderly houses the following resolution was adopted: "Whereas the community has been shocked by the crimes which have recently occurred in our city, bringing to light as they have done grossly immoral conditions, and whereas such toleration is contrary to the law, this meeting emphatically declares its abhorrence of such toleration, believing it not only to be contrary to the law, but a serious menace alike to the moral and physical well being of our people."

BARS ORDERED UP ON BATTLE OF TWO STATES

Washington Orders Quarantine of New York and Pennsylvania Owing to Foot and Mouth Disease.

BUFFALO, Nov. 19.—For the first time in their history the East Buffalo stock yards are under the ban of a quarantine.

Because two carloads of cattle which were delivered in western Pennsylvania were found to be infected with foot and mouth disease, the federal and state authorities have raised the quarantine on the yards and a further investigation of the outbreak of the disease so avoided.

Animals infected with the foot and mouth disease have been discovered in each of these counties by government inspectors, who have been quietly at work in this vicinity for over a week. Practically all the cases are in Pennsylvania, and to-night Commissioner Pearson of the department of agriculture of that state, who is here, ordered that a strict quarantine be placed on New York, and to-night Commissioner Pearson of the department of agriculture of that state, who is here, ordered that a strict quarantine be placed on New York, and to-night Commissioner Pearson of the department of agriculture of that state, who is here, ordered that a strict quarantine be placed on New York.

Chief Melvin of the Washington bureau has been here in person, and is here to-day to see the quarantine and under his working a score of inspectors from the federal bureau of animal industry.

It is supposed that one point of attack which has heretofore escaped the efforts of department regulations has been that of the infected animals which have been taken to other herds, and through sparrow birds, principally sparrows.

Deputy Commissioner of Agriculture Flinders asked the state forest, fish and game department to issue a permit to poison sparrows in infected territory could be secured. He was told that while no such permit was granted, it is not to be interfered with reasonable certainty that the sparrows were agents of transmission of the disease, the fish and game department is to interfere with a warfare against them.

WASHINGTON, Nov. 19.—Secretary Wilson of the department of agriculture to-day issued orders placing in quarantine the entire States of New York and Pennsylvania, and forbidding the interstate movement of cattle, sheep, swine and goats, as a result of the sudden outbreak of a contagious foot and mouth disease.
