Chiengo Gossip.

J. P. Bickell & Co. say at the close:
Wheat-Higher; continued excellent demand for cash article at all primary markets, and growing belief that winter wheat crop will undoubtedly be materially short of acreage, served as a tonic for another bull demonstration, both options touching high marks for the crop. Heavy realizing failed to weaken market and it closed strong. All indications are for an advancing tendency. On all declines we are bullish.

Beaty & Glassco received the following at the close:

Beaty & Glassco received the following at the close:

Wheat—New high price records are becoming a daily occurrence, and to-day's session was no exception. That the latest high price point only exceeded that of the day previous by something short of one cent a bushel, exemplified the extreme caution generally prevailing in the trade, for there were despatches from all over the west and northwest of such something in the trade, for there were despatches from all over the west and northwest of such something to extreme scarcity in the near future, as to appear alarming to the most conservative. The new crop outlook, as indicated by millers' report, was far from satisfactory. With no abatement in demand for cash wheat in the northwest, they already fancy premiums constantly advancing; the situation to our minds gains additional strength daily, and we believe the tendency is still higher.

Ennis & Stoppani wired D. Urquhart at the close:

Wheat—Market exciting to-day Unre-

ato the close: Wheat Market exciting to-day. Unre-sponsive cables, larger Argentine and Australian shipments, and continued lib-Australian shipments, and continued liberal northwest receipts, caused an early
decline, but heavy buying appeared on
the decline including the buil leaders,
which started shorts covering, resulting
in a sharp upturn, which carried prices
to a new high record.

Corn-Market strong being influenced by
the strength in witest, but more on the
light receipts and acceptances.

Oats-Strong on buying by cash houses
and covering by shorts.

J. R. Heintz/& Co. wired R. B. Holden:
Wheat-Market opened 1/2 to 5/2 lower.
The prominent longs absorbed all the
offerings and prices reached a new high
record. Perhaps it would be wise for
holders of wheat to take profits on these
quick builges.

Corn-Strong: there was a good demand from shorts. While this market Corn—Strong; there was a good de-mand from shorts. While this market looks high enough to us it is rather un-wise to short it. Would rather buy on a

fair setabck.
Oats-Very active and stronger. It's a dangerous market to short. Liverpool Grain and Produce.

GARDEN SEEDS

Purchase Melville Property Now

CLVIILE is destined to be the greatest railway town, the greatest wholesale centre between Winnipeg and the Coast. Already the Grand Trunk Pacific has constructed railway yards, with twenty miles of track, and built there the largest depot on its line. This was done to accommodate the enormous traffic that is bound to centre there, for MELVILLE is the junction point of the proposed Hudson Bay branch. With the Grand Trunk Pacific transcontinental line; the operating base of 1000 miles of main line and more than 1000 miles of projected branches; the centre of a splendid agricultural country.

One year ago, the site where MELVILLE now stands was unbroken prairie: to-day MELVILLE has a population of more than a thousand—a thousand that is increasing with wonderful rapidity. Two hotels are now in operation and another soon to start building. Two chartered banks are doing a very large business, and a third has purchased a site. Others are preparing to open there. Large implement manufacturers have purchased sites for wholesale distributing warehouses, and leading mercantile establishments have done likewise. The rapid increase in real estate values that has marked the growth of other towns of promise is already becoming evident in MELVILLE, but it has only commenced, for the possibilities of MELVILLE are as yet almost unknown. Its brilliant future is hardly realized, even by those who know the situation best

A few months ago a twenty-five foot lot was sold for \$400.00. Four months later it was sold for \$2.500.00 for a bank site. This is an illustration of the way MELVILLE property is increasing in value; a testimony to the confidence large financial institutions have in the future of the place. There are fortunes to be made in MELVILLE realty, and NOW is the time to invest. In the early summer the Grand Trunk Pacific will establish a fast passenger service on its main line, and this will bring MELVILLE very much into the limelight. That will mean a boom in real estate. We are offering some most desirable lots in MELVILLE ANNEX, within easy distance of the Grand Trunk Pacific depot and the business centre of the town, lots that are well drained and ideal for residential purposes.
