Heart Trouble Cured by Mil-burn's Heart and Nerve Pills.

Mrs. Andrew Savoy, Grattan's, N.B., writes:—"In the year 1905, I was taken sick and did not think I could live any length of time. My trouble was with my heart and people told me that nothing could be done for a case like mine. I consulted the very best doctors, but they could do me no good. For seven weeks I could hardly cross the floor. I had no pain, but was so weak nobody in the world can believe how I felt. I had given up all hopes of living and had given my little girl to my sister-in-law. "One day a friend came to see me, and calling me by name, said, 'Lizzie, if I were This will be the first step in the car-rying out of the new regulation permitting any person whose name is in the city directory to take books from the library without being vouched for by some property owner. It is ex-pected that this new rule will come into force in about two months.

DENING OF NAVIGATION Frederickhouse and Night Hawk Lake Clearing of Ice. KEILSO, April 11.—(Special to The World.)—All the road houses between Keiso and Porcupine are closed with the exception of the Harrington at Porcupine River. There are no routs for travel of any description, and the mail was taken to Porcupine last Tues-day under great difficulties. It was packed on a man's back after the manner of the prospector's dunnage. It takes about one day to travel ten lit. From present indications it will only

miles. From present indications it will only be a few days before the ice on Fred-erickhouse and Night Hawk Lake dis-appears. Strong winds make the ice shift, and the friction with the water scon causes it to wear away. As soon as the rivers clear the lakes will be open. but when, with the growth of the city,

Communication with Porcupine will be established at an early date. Mr. Hogan has 30 teams here. He has built four miles of corduroy road at his own ing was discontinued. "The reservoir will be attended to expense, and has come to an understanding with the mines at Porcupine just as soon as we can do it," said standing with the mines at Forcupine just as soon as we can do it, said that in consideration of his building a City Engineer Rust last night. "It road to the Frederickhouse River they in return will give him all the freight trade. Mr. Hogan is now at work plant must first be completed. If we trade. Mr. Hogan is now at work building the additional nine miles of building the additional nine miles of emptied the reservoir now there would corduroy to Frederickhouse. Here be a shortage of water."

will be a pointer and launch line to Redstone. A steamer is also on hand to run regular trips from Chandler's landing, which will be the terminus of Ianding, which will be the terminus of the corduroy. The mines at the south of the corduroy. The mines at the south of the pointer launch and to connect with the pointer launch and to connect with the pointer launch and steamer route, six miles from Redstone, so that there will be a thru if freight and passenger route to the south of the lake very soon.
 In cutting trees to widen the road from Matheson to Porcubine, in order that the boilers for the Crown Charter mine could be got thru, about 14 miles of the telephone line was destroyed.
 Not only, were trees felled across the not of the telephone line was destroyed.

BRANTFORD, April 12.—(Special.)— Chickens kept upstairs in the house of E. Kerby, West-street, saved the owner, his wife and three small child-ren from possible death early this owner, his wife and three small childs ren from possible death early this morning. A fire started from an over-heated brooder. The chickens awcke the sleighs and twisted. New wire was sent for and the team broke thru the ice into the lake. The wire was Mrs. Kerby. The frame house was de-stroyed. Calling in the Cards-About 80,000 borrower's cards for the public library will be called in in the near future by Chief Librarian Locke. This will be the first step in the car-Biver. This will be the first step in the car-the lee into the lake. The wire was the lee inthe lee in the lee into the lake. The wire was the lee in
