News of Allies' Victory Tended to Depress the Munition Stocks.

RAILS HELD FIRMLY

Great Gains in Earnings Responsible—Bond Reserves Showed Decrease.

NEW YORK, July 1.—Yesterday's late reaction gathered greater force and scope-during today's brief session.

Trading was almost too small for serious consideration, however, the total turnover aggregating only 172,000 shares. Specialties were again under the restrictions imposed by the Maxican situation, altho other adverse factors were not without their influence. The reported successes of the allied forces vere in a measure responsible for the wakness of certain munitions and equipments.

ness of certain munitions and equipments.

United States Industrial Alcohol was again the weakest stock, declining 4% to 129% and closing at 131, a loss of 8 points for the week. Mexicans as a group were no weaker than other special stocks, such as marines, motors, coppers and allied issues.

Studebaker and Baldwin Locomotive were singled out in the later dealings, the former losing almost five points, with only a slight rally, and Baldwin being sold on reports of labor troubles. Crucible, Steel manifested little recuperative power on its decline of almost 2 points.

tive power on its decline of almost 2 points.

U. S. Steel Firm.

United States Steel stood out for its firmness, at no time making more than a small fractional loss and closing virtually unchanged, but Bethlehem, and some of the more obscure industrials were 2 to 3 points lower.

Rails held tonaciously, as was to be expected in view of the marvelous statements of earnings submitted overnight by Perna and New York Central Systems. Canadian Pacific was the chief feature, gaining almost two points with as much for "Nickel Plate" and Atlantic Coast line, while Wabash preferred shares were active and decidedly strong.

In keeping with general expectations the bank statement showed a large actual cash loss—more than \$20,000,000 with a decrease of as much in excess of reserves, while leans expanded by slightly more than \$13,000,000.

Bonds were lower with stocks today, on nominal dealings. Total sales (par value), \$1,025,000.

United States bonds were unchanged on call during the week with material United States bonds were unchanged on call during the week with materiol concessions in coupon 3's and registered 4's on a few actual sales.

Mining Notes

MALOUF CLAIMS BOUGHT.

It is reported that J. Papassimakis of Boston Creek and associates have pur-chased the Malouf claims in the Sesekin-ika district. The deal covers three claims Some work was done on one of the claims last year when under option to Buffalo interests. Quite a lot of free gold and tellurides was shown up at that time but some disagreement stopped the work.

Pearce.

WETTLAUFER TO SHIP.

A high-grade shipment will be made from the Wettlaufer property, which is leased by the Comfort Mining & Leasing Company. The car is at Cobalt being tested and is very high-grade. Another car is being assembled at the property in is being assembled at the property in South Lorrain.

Considerable attention is being directed to South Lorrain thru the find on the Currie and the proposed activity of the Lorrain Consolidated.

Pearce.

HARGRAVES OPENED UP. The Wright-Hargraves property addining the Tough-Oakes, has resumed mining operations.

RED JACKET WORKING.

Horner Gibson and his associates, who have acquired a lease from the Timiskaming on the Red Jacket, have commenced operations on the property. Wm. Hatch is in charge.

Pearce.

AT THE SYLVANITE.

A meeting of the Sylvanite Gold Mines was held recently, it is reported, and the following board of directors was put in: President, W. H. Wright; Mr. A. Burt, secretary-treasurer, and Messrs. Robbins, Oakes, Morrison. This property adjoins the Tough-Oakes in Kirkand Lake, and many of the leads on the atter property have been identified on the Sylvanite. The Sylvanite is held argely by English interests. It is unterstood that the funds in the treasury vill be used for development.

NGINEERS TO VALUATE

McINTYRE CHOSEN eported That C. H. Poirer and M' W' Sammerhayes Are Decided Upon.

PORCUPINE, July 2.—It is understood at C. H. Power of the Porcupine Vind and M. W. Summerhayes of the broughne Crown have been decided on the engineers to valuate the McIntyre, cintyre Extension and Jupiter-McIntyre operties to form a basis for the merpearce.

CHEESE MARKETS. BELLEVILLE, July 1.—About 2764 ckages boarded; 1500 sold at 16%c; at 16 5-16c; balance at 16%c.

ST. HYACINTHE, Que., July 1.—At regular meeting of the cheese board lay 1000 boxes cheese were offered, sold at 15½c; 100 packages butter at 28%c. Muskoka the Beautiful, ne of the most delightful places in Highlands of Ontario for a summer day. Easy of access by Grand nk Railway. Ask for Muskoka er, telling you about it.

ITISH REVENUE INCREASED GREATLY

York Sun Cable. NDON, July 1.—British revenue re-for the c. frent financial year show crease of £21,385,862 (\$106,929,310). ompared with the same quarter This is mainly due to increases tom returns of £6,366,000 (\$31,-; income tax of £9,384,000 (\$46,-and excess profits duty of £6,-(\$31,095,000). There were de-in revenue from death duties and

PRICE OF SILVER NEW YORK, July 1.-Bar sil**RUBY SILVER FOUND** ON THE ADANAC WALL STREET CHEERED

Indications of High Grade Discovered in New Territory at Mine.

Mr. Morgan Cartwright has just re-turned from a visit to the Adanac Silver dine in Cobalt. He states that the mine is looking in splendid shape, and that present indications count for anything hey will very shortly be making ship-ments of ore. ments of ore.

In the west winze in a drift to the north on the 312 ft. level ruby silver has been encountered just within the last few days. The presence of ruby silver in that district is an almost certain indication of a body of high grade ore. Development at this level is being pushed in order to determine the existence or non-existence of such a body of ore. The first, according to Mr. Cartwright, is distinctly encouraging, as it is in entirely new ground. The east winze is now down afout 340 feet. On the 330 ft. level a drift is within 15 ft. of being under the big ore body, which was discovered at 280 ft.

New York Stocks Fluctuated Ac cording to International Relations.

U. S. STEEL ACTIVE

Brilliant Statements of Railwa Earnings Were Negligible Factors.

NEW YORK, July 1 .- (Weekly market summary).-Almost the one governing nfluence of the week in the stock market was the Mexican situation. Stocks rose or fell according to the tenor of advances respecting relations between Washington and the southern republic. Washington and the southern republic. Other news, regardless of its import, was received with little interest.

Even the additional brilliant statements of May carnings furnished by minor railroads, as well as leading systems, and the higher or extra dividends declared by numerous industrial companies, including the copper producers, counted for little as market factors, albeit further accumulation of high-grade issues was observed.

accumulation of high-grade issues was observed.

Crop news from western and southwestern sections was less favorable, but making due allowance for determination, yields of import foodstuffs promise to be of bumper size.

U. S. Steel moved with standard shares, indicating absorption of a substantial character at every concession and even on the advance. Earnings of the steel corporation for the quarter ended yesterday, are certain to exceed all previous records, despite the recent diminution of domestic demand.

Special stocks, particularly Mexicans and others whose day to day gyrations have ceased to possess more than passing significance, suffered in the liquidation of the week, which necessarily involved the closing out of impaired bull accounts.

Special stocks, particularly Mexicans and others whose day to day gyrations have ceased to possess more than passing significance, suffered in the liquidation of the week, which necessarily involved the closing out of impaired bull accounts.

Call money rose again yesterday to four per cent., the maximum thus far this year, in consequence of the shifting of July 1 loans. Interest and dividend disbursements for the mid-year, will be the largest in the history of the country. Investors have anticipated these payments by purchases of American securities liquidated by foreign interests.

Heavy gold imports of gold from Canada and some direct shipments from London continued during the week, in conion, it was believed with the underwriting of a new loan or credit for the British treasury.

Col. F. & I. | NEW YORK, July 1.—C.P.R. was the feature of the New York market on Saturday, with an advance of almost two points, to 18014, closing at 180. The stock closed on Friday at 17834.
| Prices on the whole generally underwent further depreciation on an insignificant turnover. Pressure was again directed against various specialties, not ably Industrial Alcohol, which registered an extreme decline of 4½ points, with two to four-point recessions for some of the more active munitions and equipments. Mexicans and motors yielded two to five at their lowest, and Marines, as well as metal issues, shaded a point or more. Rails alone were firm, responding to further brilliant statements of earnings by Pennsylvania and New York (Central. Canadian Pacific rose almost two points, with substantial advances in Wabash preferred issues. The closing was heavy. Bonds were lower.

Dear Mrs. Ritchie. I wish to thank you for the sox so kindly knitted by you, and to assure you that they do indeed bring comfort to the soldier who was so lucky to receive them. Do you know I firmly believe that everyone at home who helps to furnish sox is helping to win this war as truly as the one who do-nates a half million dollars for muni-tions, for a soldier must have his feet

ADANAC UP AGAIN

BY EVENTS OF WEEK Hope Revived That War With

Mexico Can Yet Be Avoided.

NO FINANCIAL PANIC

NEW YORK, July 1 .- Henry Clews

Intervention by U. S. Armed Would Not Upset Business Materially.

"Events of the week suggest a more favorable trend. This was particularly true or the Mexican situation after Carranza had released his American prisoners. The way is now open for mediation in order to prevent a war, against which the United States is practically a unit in opposition. Every effort should be made to prevent this threatened conflict, althorelatively speaking, its effect industrially and financially should not be very important for a country of the size and resourcefulness of the United States. The regretful part of such a struggle would be the really unnecessary sacrifice of life among the youth of the country in a war that nobody wants, a war that excites no enthusiasm except possibly from a patriotic determination to vindicate the purposes of the United States and to give Mexico a free and stable government. If forbearance and generous consideration will prevent war and bring the unruly leaders of the Mexican people to their senses a great gain will liave been made.

"There should be no abatement in our preparation for war, and an abundant force should be massed along the more favorable trend. This was par-

our preparation for war, and an abundant force should be massed along the border to act upon unforeseen emergencies. Peace, however, will be for our own interest; not merely in preserving the friendship of Mexico, but serving the friendship of Mexico, but also in maintaining amicable relations with all South American republics, who are keenly jealous of our activities in this direction. Conquest of Mexican territory would intensely strengthen these fears, and certainly lay the basis for future friction and difficulty. In spite of our sincere and oft-repeated good intentions, the long disturbed conditions in Mexico and the Monroe Doctrine are more or less obstacles conditions in Mexico and the Monroe Doctrine are more or less obstacles to the desirable purpose of bettering our relations with the republics south of us. We have been very earnestly cultivating our commercial relationships in that direction, and it is necessary for us to pursue political friendship with equal energy and sincerity." energy and sincerity."

CHICAGO GRAIN.

J. P. Bickell & Co., Standard Bank Building, report the following prices on the Chicago Board of Trade: Open. High. Low. Close. Close.

42 25.60 24.85 24.72 ON NEW YORK CURB

Sold Up to One Forty-Three With Heavy Transactions-Public Favorite.

The local mining market was closed on Saturday on account of the holiday, but this did not prevent the stock from appreciating in value. At the New York curb, where this silver mining issue was introduced recently, it has become an established favorite, and transactions each day run up into the thousands. On Saturday the stoch continued its upward career, advancing to 143 from the close on the preceding day at 112½. Transactions totaled around 15,000 shares for the morning.

NEW YORK BANK STATEMENT. NEW YORK, July 1.-The statement of the actual condition of clearing house banks and trust companies for the week shows that they hold \$89,293,940 reserve in excess of legal requirements. This is a decrease of \$20,208,470 from last week.

IN GOOD DEMAND

Fear Felt of Unseasonably Warm Weather in Spring

NET ADVANCE SCORED

Notable Advance shr d cmf Notable Absence of Selling Pressure Was Feature of Session.

CHICAGO, July 1.—Disinclination of lealers to carry open risks over the holidays resulted today in higher prices for days resulted today in higher prices for wheat. The close, altho unsettled, showed a net advance of %c to 1%c, with July at \$1.03% and September at \$1.05% to \$1.05% to \$1.05% corn finished %c to %c higher, oats up %c to %c to %c, and provisions at a rise of 2½c to %c, and provisions at a rise of 2½c to 78%c, barring July pork, which was down 17½c.

Wheat took an upward swing almost from the outset. Notable absence of selling pressure was a feature thruout the session, except when for a brief time attention was directed to news of the big offensive movement by the entente allies. A moderate bearish reaction which ensued was quickly overcome, however, and thereafter the bulls received no important check.

Black Rust Feared.

Gossip was current that if the weather

Gossip was current that if the weather becomes unseasonably warm in the domestic spring crop region black rust might develop.

Evening-up of the shorts so as to premight develop.

Evening-up of the shorts so as to prepare for adjournment until Wednesday, gave the wheat pit a decided touch of liveliness in the last half-hour, with belated shorts doing the buying. Apparently the ideal weather conditions prevailing were more than offset by the fact that deliveries on July contracts. 1500.

valing were more than offset by the fact that deliveries on July contracts—1,500,-000 bushels—proved to be much smaller than had been looked for.

Corn in Demand.

In corn an active enquiry from the seaboard was to some extent counterbalanced by sunshine and warmth greatly desired to promote rapid growth. Deliveries on July contracts were entirely lacking, and country offerings were light.

lacking, and country offerings were light.

AT CONFERENCE

Swiss and Allies' Representatives Discuss the German Note.

SUBSIDIARY PROPOSALS

Another Meeting Will Be Held at End of Week.

PARIS. July 1.—The delegates of Switzerland and the entente allies mether Thursday and yesterday, and discussed the situation arising from the German note to Switzerland without, however, arriving at any conclusion. The representatives of the entente allies mether Thursday and yesterday, and discussed the situation arising from the German note to Switzerland without, however, arriving at any conclusion. The representatives of the entente allies mether that the Swiss people shall be provided with all necessities, delared it as impossible to consent to Germany and Austria being supplied with articles of real importance thru Switzerland.

The Swiss delegates remarked that this did not help towards a solution of the situation. They accordingly submitted subsidiary proposals and the representatives of the allies also made hold another meeting at the end of hold another meeting at the end of next week so as to enable the governments represented to study the proposals and suggestions.

It was announced in the Swiss Parliamént last week that Germany had demanded that the Swiss Government is the exportation of cotton and foodstuffs collected by German agents stating that if the demands were not compled with Germany would proposals and suggestions.

ON DOMINION DAY

News of British Victory Add-

ALL OUT AND ABOUT

Went on Water, Car and Rail to Have Good Time in

Lovely Vale Blazing sun in a tranquil sky; Everybody somewhere, first July. And a glorious British victory, the news of which spread over the town like wild fire and added zest to Toronto's celebration of Dominion Day. It was a perfect day, unmarred by accident, unmarred by the suspicion of a cloud, with just breeze enough for sailing, just cool enough for comfort and hot enough for all sorts of pleasure, and the splendid news to

lend a spice to patriotic fervor to the holiday. The weather man is a good old sport Porcupine, Cobalt Stocks after all. He may have run short on decent weather this year, but one has to concede that he plumped for Do-

Toronto took advantage of it. Toronto has not been jaded with hot weather this year. Toronto, in its summer clothes and in picnic mood, got out to play. There was only one place in a radius of twenty with the property of t place in a radius of twenty miles on Saturday where Toronto, young and old was not, and that was down town. Those who were there were on their way out. They were hurrying to the Island and to the beaches and to the

fields.

For hours King street cars going both ways were crowded with pleasure seekers armed with lunch baskets. The ferry boats were packed. The lake steamers were crowded to capacity. Every canoe was in the water, every auto on the country roads.

Queen's Park and University avenue were gay in the morning with sum-mer-clad crowds all in holiday spirit, all waiting to see the horse parade and the presentation of the colors to the the presentation of the colors to the 124th, and then to get out and make holiday in the green country. Those who simply could not get away from the city watched the women's parade in the afternoon. Thousands flocked west to see the Sons of England sports day at the exhibition grounds and the Parkdale regatta. Other thousands flocked east to make Scarboro Beach a seething caldron of holiday Beach a seething caldron of holiday makers. Capacity crowds watched the baseball matches at the Island. Radial car lines were worked to capacity with picnic parties, keen for he quieter pleasures of the country.

Then, in the evening, they came back, tired and happy, loaded with flowers and roots and grasses, their lungs washed in fresh air, tired enough to rejoice in the fact that the next day was Sunday and no alarm clock would Ph force them to get up before they felt good and ready. previous Saturdays and Surdays of

We've got the Hun Upon the run, LEASIDE MUNITIONS

lisacppointment it was even better than that. But best of all, thru the merry-making ran the happy thought:
