

THE VOCALION

The most important and beautiful invention in the Musical World of the Nineteenth Century.

Height, 5 feet 10 inches; Depth, 32 inches;
Width, 7 feet.

The Vocalion

Will be found INVALUABLE for Churches, Chancels, Vestries Choral Societies, Musical Assemblies, Conventions, Lodges, Professional and Amateur Organists.

By this remarkable invention, the thin, metallic tone of the REED, as found in the Cabinet Organ and Harmonium (*so inadequate to the proper interpretation of Sacred, Chamber, and Orchestral Music*), is transformed into a FULL, RICH TONE, as found in a Pipe Organ, quite distinct in character, but equally powerful and effective.

THE VOCALION

Is undistinguishable in tone from a richly voiced Pipe Organ.

It is the only substitute for a Pipe Organ.

It costs ONE-HALF the price of a Pipe Organ.

It is played like a Pipe Organ.

It requires little or no tuning.

It occupies but one-tenth to one-fifth the space of a Pipe Organ.

It is moveable without being taken to pieces.

It is manufactured and guaranteed by Messrs. S. R. WARREN & SON, the eminent Organ Builders.

Descriptive Catalogues and Price Lists promptly mailed on application. Orders will be filled in the order of their reception.

SOLD ONLY BY

MASON & RISCH,

32 King Street West, Toronto

Or their Representatives.
