

CAN PUT TEN  
MILLION MORE  
MEN IN FIELD

Petrograd Professor, Visiting Halifax, Says the Russians Are United, and More Than Ever Confident of Victory

(Halifax Chronicle)

"Russia can put ten million more men into the field, hit by hit as the occasion warrants," said a Petrograd university professor, who is one of a party of five men from Russian educational institutions now on the way to the United States by the steamer *Car* from Archangel, to a reporter of *The Morning Chronicle* yesterday. The *Car* came into Halifax harbor yesterday morning for bunker coal and sailed in the afternoon for New York. "So far, we have scarcely touched our second class. On the other hand, Germany has drawn practically the full of every class of her reserves, and the demonstration that she is now making can correctly be termed her last effort. We have such immense resources in the matter of men as compared with her and Austria there can be no doubt about the final outcome."

"What about Russia's supply of munitions?" asked the reporter. "It is true that in April we were short in that respect, but so were all our allies, and now, like those others, we have overcome that difficulty and our own output and the amount imported has been increasing for months and we are now able to compete with the Hun in artillery combats."

"The people of Russia, of all races and creeds, are more than ever confident of victory and are bound more closely now than in any other time of their history. Despite the advances made by the Teutonic forces in the summer months, they are confident now that our troops have brought them to a definite standstill and that in the winter campaign we will make even greater gains than those which we made in the same season last year."

Turning again to the subject of Russia's complete superiority in the matter of men, the professor said that Russian ladies who had been imprisoned in Germany and had recently been released and returned to their homes expressed the greatest surprise at the unfavorable conditions prevailing in the Russian cities. "In Petrograd, for example, several ladies back from Germany with whom I talked said that they could not at first understand it. They had been detained in Berlin. There, they said, it was a rarity to see any but boys and old men on the streets of the capital not in uniform. In Petrograd there are men fit for service, but belonging to the second and third classes, who are not yet in uniform. There is no need for them at present, but the time will come when they can be put into active service and the vast predominance, together with our certain equality in guns and shells with the enemy, will eventually spell triumph."

The port of Archangel, which was chosen by the Russian government as a substitute for all the Baltic seaports that had necessarily been closed, has not been found to be altogether satisfactory. In the summer months navigation to Archangel is not difficult, but in the winter it is sometimes a problem to keep an open route through the ice. The ice-breakers there do excellent work and are able to keep a track through the ice that forms on the route, but begs sometimes away down from the Arctic Circle and it is this uncertainty that makes the port not altogether a desirable one. Consequently, the Russian government has looked about elsewhere for a more suitable port. That port has been found and a railway to it is now under construction, and is nearing completion. The port chosen is on the Russian coastline near the Norwegian border and is on the fringe of the Arctic Circle.

But it is open all the year round. It is hardly inhabited at present, but the Gulf Stream flows onto those shores and in the winter the temperature is not too low for outdoor work. It is situated on what is known as "the Mormon Beach." There are four Canadian ice-breakers at Archangel now. They are the *Red Grey*, the *Bruce*, the *Lintrose* and the *J. T. Horn*. The *Bruce* and the *J. T. Horn* are used for the harbor itself, to keep that clear of ice, and the other two ships have for their object the keeping of a clear track in the White Sea.

CASCARETT'S SELL  
TWENTY MILLION  
BOXES PER YEAR

Best, Safest Cathartic For Liver and Bowels, and People Know It

They're Fine! Don't Stay Bilious, Sick, Headachy or Constipated

Enjoy life! Keep clean inside with Cascarets. Take one or two at night and enjoy the nicest, gentlest liver and bowel cleansing you ever experienced. Wake up feeling grand. Your head will be clear, your tongue clean, breath right, stomach sweet and your liver and thirty feet of bowels active. Get a box at any drug store and straighten up. Stop the headaches, bilious spells, bad colds and bad days—Brighten up, Cheer up, Clean up! Mothers should give a whole Cascaret to children when cross, bilious, feverish or if tongue is coated—they are harmless—never gripe or sicken.

"There are things more valuable than money," ruminated the philosopher. "Sure," retorted the economist. "That's the reason I need money to buy them." Philadelphia Ledger.

CONGRATULATIONS  
POUR INTO WHITE  
HOUSE FOR WILSON

News of President's Engagement to Mrs. Galt Surprise to all But Few Friends

Washington, Oct. 9.—Invitations and congratulations are pouring into the White House offices, because of the president's engagement, in such volume that a special staff of clerks was prepared for assignment to social work only for the next two months.

Close friends are planning pre-nuptial affairs, and the White House, which for more than a year has been observing a period of mourning, will begin to take on its old aspect of social activities. The time of the wedding, coming probably almost at the opening of congress and the return of the diplomatic corps to the capital from the summer embassies, will signalize the full swing of the Washington social season, which now will include the usual state dinners and receptions in the executive mansion.

Wedding Details Undecided.

President Wilson is a Presbyterian and Mrs. Galt an Episcopalian. No decision has been reached which service will be used at the wedding.

The engagement news came as a surprise to all but a few intimate friends, who knew that the friendship of the president for Mrs. Galt had developed into an intimacy that presaged marriage. That Mrs. Galt had become a companion of the president was known, however, in official and society circles, because she appeared frequently with him, not only on motor rides but at baseball games.

Mrs. Galt is regarded as a woman of rare beauty and charm. Those who have known her best predicted today that she would be as the first lady of the land, a popular hostess as well as a comfort and support to the president in his daily work.

Mrs. Galt is about thirty-eight, youthful in appearance and simple in her tastes. She is the widow of a well-

PAPE'S DIAPEPSIN  
FOR INDIGESTION  
OR BAD STOMACH

Relieves Sourness, Gas, Heartburn, Dyspepsia in five minutes.

Sour, gassy, upset stomach, indigestion, heartburn, dyspepsia; when the food you eat ferments into gases and stubborn lumps; your head aches and you feel sick and miserable, that's when you realize the magic in Pape's Diapepsin. It makes all stomach misery vanish in five minutes.

If your stomach is in a continuous revolt—if you can't get it regulated, please, for your sake, try Pape's Diapepsin. It's so needless to have a bad stomach—make your next meal a favorite food meal, then take a little Diapepsin. There will not be any distress—eat without fear. It's because Pape's Diapepsin "really does" regulate weak, out-of-order stomachs that gives it its millions of sales annually.

Get a large fifty-cent case of Pape's Diapepsin from any drug store. It is the quickest, surest stomach relief and cure known. It acts almost like magic—distress vanishes and a pleasant stomach preparation which truly belongs in every home.

known business man of Washington, who died eight years ago. She was married in 1898. Before that she was Miss Edith Bolling of Wytheville, Va. Her father was William H. Bolling, a lawyer of distinction.

Mrs. Galt is fond of athletics, rides horseback occasionally, and plays golf. She is interested as well in literary and charitable pursuits. She is of that branch of the English Bolling family which traces direct descent from the Indian Princess, Pocahontas, who was married to John Rolfe.

- who are used  
to a close shave

—who count it a necessity, and for it daily sacrifice much precious time—the Gillette Safety Razor is a friend indeed.

Its strokes are so free and velvet-smooth that at first you can scarcely realize how clean a job it is making. With it you can finish shaving while you would be getting an ordinary razor stopped, or waiting for the call of "Next!"

A turn of the handle adjusts the Gillette for the lightest shave on a tender skin or the closest work on a heavy beard. It is always adaptable to the moment's need, and always ready—no stropping or honing. Wherever there is soap and water, it will shave you with safety, comfort and despatch. Don't go on wasting time and missing comfort—get a

Electric Flashlights are no longer a novelty, but a thoroughly practical and satisfactory medium for obtaining a quick, strong, safe light—useful in a thousand and one emergencies.

The O. K. Electric  
Lantern

The Lantern that is rapidly displacing undesirable oil lanterns and lamps, as it is absolutely safe around gas, gasoline, oil or hay.

It is clean and convenient—no smell, heat or smoke; no fire risk; no danger of explosion. Ready for instant use anywhere and absolutely reliable where an oil lantern would be valueless.

The O. K. Lantern has no projecting parts, the handles press against the sides, permitting it to be carried in the pocket. Uses any ordinary No. 6 dry cell battery and gives from six months' to one year's service from one battery at a cost of 35c.

Sizes 9 inches, 27-8 inches diameter.

Pressed Steel, Black Rubber Finish, complete with Battery. Each.....\$2.25

"Presto" Electric  
Hand Lamp

This is a classy safety lantern that uses any No. 6 dry cell battery, which can be easily obtained anywhere, and with ordinary use will give you service for several months.

It is equipped with bull's eye lens which greatly increases the candle power and projects a strong, white beam of light. The pivoted construction of the reflector permits it to be turned to any angle directing the light upon any desired object.

Size, 11 inches high, 8 inches diameter.

Made of Steel, finished in black enamel, with Nickel Plated Lamp Head.
